# **MOLEMOLE LOCAL MUNICIPALITY**

# 2014/15 SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN

Vision: "A developmental people driven organisation that serves its people"

Mission: To provide essential and sustainable services in an efficient and effective manner.

#### 1. INTRODUCTION AND BACKGROUND

The development, implementation and monitoring of a Service Delivery and Budget Implementation Plan (SDBIP) is required by the Municipal Finance Management Act (MFMA) section 69 (3) (b). Circular 13 of the National Treasury stipulates that, "the SDBIP gives effect to the Integrated Development Plan (IDP) and the budget of the municipality and will be possible if the IDP and the budget are fully aligned with each other, as required by the MFMA."

As the budget gives effect to the strategic priorities of the municipality it is important to supplement the budget and the IDP with a management and implementation plan. The SDBIP serves as the commitment by the municipality, whereby the intended objectives and projected achievements are expressed in order to ensure that desired outcomes over the long term are achieved and are implemented by the administration over the next 12 months.

The Municipal Finance Management Act (MFMA) no 56 of 2003, defines the Service Delivery Budget Implementation Plan as a detailed plan approved by the Mayor of the municipality for implementing the municipality's delivery of municipal services and its annual budget and must include the following:

- (a)Projections of each month of:
- (i)Revenue to be collected, by source and
- (ii)Operational and Capital expenditure, by vote;
- (b) Service delivery targets and performance indicators for each quarter

#### 2. PURPOSE

The document presents the 2014/2015 Service Delivery and Budget Implementation Plan of the municipality drafted in compliance with the requirements of the MFMA. The performance targets set in this document lay basis for the performance contracts of all Departmental Heads and Middle Managers. It enables the Municipal Manager to monitor the performance of Senior Managers; and the community to monitor the performance of the municipality

# 3. LEGAL REQUIREMENTS CONSIDERED WITH THE DEVELOPMENT/DESIGN OF THE SDBIP

Section 53 1(c) (ii) of the MFMA states that the Mayor must ensure that the municipality's SDBIP is approved within 28 days after approval of the budget. Section 69(3) of the MFMA states that the Accounting Officer must no later than 14 Days after the approval of the Budget submit the draft SDBIP and Performance Agreements for the Municipal Manager and all Senior Managers to the Mayor. Sec 53 3(b) also states that the SDBIP's must be made public no later than 14 days after its approval by Council and that the Performance agreements of the Municipal Manager, Senior Managers and any other categories of officials as may be prescribed, should be made public no later than 14 days after the approval of the SDBIP.

# 4. REPORTING ON SDBIP

This section covers reporting on the SDBIP as a way of linking the SDBIP with the oversight and monitoring operations of the Municipal administration. Various reporting requirements are outlined in the MFMA. Both the Mayor and the Accounting Officer have clear roles to play in preparing and presenting these reports. The SDBIP provides an excellent basis for generating the reports for which MFMA requires. The reports then allow the Municipality to monitor the implementation of service delivery programs and initiatives across the Molemole municipal jurisdiction.

# 4.1. QUARTERLY REPORTING

Section 52 (d) of the MFMA compels the mayor to submit a report to the council on the implementation of the budget and the financial state of affairs of the municipality within 30 days of the end of each quarter. The quarterly performance projections captured in the SDBIP form the basis for the mayor's quarterly report.

#### 4.2. MID-YEAR REPORTING

Section 72 (1) (a) of the MFMA outlines the requirements for mid-year reporting. The accounting officer is required by the 25<sup>th</sup> January of each year to assess the performance of the municipality during the first half of the year taking into account:

- (i) the monthly statements referred to in section 71 of the first half of the year
- (ii) the municipalities service delivery performance during the first half of the financial year, and the service delivery targets and performance indicators set in the service delivery and budget implementation plan;
- (iii) the past year's annual report, and progress on resolving problems identified in the annual report; and
- (iv) the performance of every municipal entity under the sole or shared control of the municipality, taking into account reports in terms of section 88 from any such entities.

Based on the outcomes of the mid-year budget and performance assessment report, an adjustments budget may be tabled if actual revenue or expenditure amounts are materially different from the projections contained in the budget or the SDBIP. The SDBIP is also a living document and may be modified based on the mid-year performance review. Thus the SDBIP remains a kind of contract that holds the Municipality accountable to the community.

### 4.3. ANNUAL REPORTING

Section 46 (1) of Municipal Systems Act stipulates that a municipality must prepare for each financial year a performance report reflecting

- (a) the municipality's, and any service provider's, performance during that financial year, also in comparison with targets of and with performance in the previous financial year;
- (b) the development and service delivery priorities and the performance targets set by the municipality for the following financial year; and
- (c) measures that were or are to be taken to improve performance.
