1.2 INTRODUCTION

A Municipality's Performance Management System (PMS) is the primary mechanism to monitor, review, and improve the implementation of its Integrated Development Plan (IDP) and to gauge the progress made in achieving the objectives set out in the IDP. In addition, a Municipality's PMS must also facilitate increased accountability, learning, improvement, provide early warning signals and facilitate decision-making.

The performance management system monitors actual performance against set targets and contractual obligations. Effective service delivery relies upon the implementation of the IDP, efficient utilization of all resources and the performance management system being closely integrated across all functions at an organizational and an individual level.

This documents sets out:

- The legislative mandates that the PMS needs to comply with
- The definition of a PMS, its objectives and the principles that will inform its use and continuous improvement
- The process proposed for planning, implementing, monitoring and evaluating organizational performance management
- The process proposed for reviewing and rolling out individual performance management

Organizational and individual performance management are linked. The organizational objectives and targets that have been set for the municipality, municipal departments and business units are cascaded into the individual performance agreements of Section 54 and 56 Managers. When Managers achieve their targets then the respective business unit and departmental objectives and targets are also achieved that contribute towards the Municipality achieving the objectives of the IDP.

1.3 LEGISLATIVE MANDATES

1.3.1 Municipal Systems Act (Act No 32 of 2000)

Chapter 6 of the Municipal Systems Act, and specifically Sections 38 to 49, deal with organizational performance management. These legislative mandates require of all municipalities to:

- Develop a performance management system;
- Monitor and review the performance management system;
- Set key performance indicators and performance targets;
- Publish an annual report on performance for the benefit of the communities served by the municipality;
- Incorporate and report on a set of general key performance indicators prescribed nationally by the Minister responsible for local government; and
- Audit performance measurement both internally and externally.

Chapter 7 of the Municipal Systems Act deals with local public administration and human resources. In particular, sections 54 and 56 of this Chapter requires that the Municipal Manager and those officials reporting directly to the Municipal Manager (i.e. Section 56 employees) sign annual performance

agreements. An individual performance plan must be attached to the performance agreement and it must include a set of performance measures that will enable actual performance of individuals to be assessed against planned performance.

1.3.2 Municipal Finance Management Act (Act No. 56 of 2003)

Section 53 (1) (c) (ii) states that the Mayor of a municipality must take all reasonable steps to ensure that the municipality's service delivery and budget implementation plan is approved by the Mayor within 28 days after the approval of the budget.

Section 53 (1) (c) (iii) (bb) states that the annual performance agreements are linked to the measurable performance objectives approved with the budget and to the services delivery and budget implementation plan.

Section 54 (1) (b) and (c) states that the Mayor must ensure that the budget is spent in accordance with the services delivery and budget implementation plan and amendments can be made to the services delivery and budget implementation plan with the approval of Full Council after approval of the adjustment budget.

1.3.3 Local Government: Municipal Systems Amendment Act (Act No. 7 of 2011)

This Amendment Act amends certain definitions; provides for a competency framework that contains criteria for the appointment of Senior Managers; and it makes further provision for the evaluation of Municipal Managers and Managers directly accountable to the Municipal Manager.

1.3.4 Local Government: Municipal Planning and Performance Management Regulations, 2001

These Regulations were passed by the Minister responsible for local government in terms of Section 49 of the Municipal Systems Act. These Regulations spell out the performance management responsibilities of municipalities in more detail. They deal with:

- The nature of the PMS
- The adoption of the PMS
- The setting of key performance indicators
- The general key performance indicators published by the Minister, which reflect the object of developmental local government
- The review of key performance indicators
- Setting of performance targets
- Monitoring, measurement and review of performance
- Internal auditing of performance management
- Community participation

The regulations further instruct a municipality to ensure that its performance management system:

- Complies with the requirements of the Act
- Demonstrates how the system will operate and be managed from the planning stage up to the stages of performance monitoring and reporting
- Clarifies the roles and responsibilities of each role player, including the local community, in the functioning of the system
- Determines the frequency of reporting and the lines of accountability for performance
- Relates to the municipality's employee performance management processes
- Provides for the procedure by which the system is linked to the municipality's Integrated Development Planning processes
- Is adopted before or at the same time as the commencement by the municipality of the process of setting key performance indicators and targets in accordance with its integrated development plan

1.3.5 Local Government: Municipal Performance Regulations for Municipal Managers and Managers Directly Accountable to Municipal Managers, 2006

These Regulations set out the:

- Format of the employment contract for Section 54 and 56 employees
- Format and procedure to be followed in appraising the individual performance of Section 54 and 56 Managers

1.3.6 Local Government: Regulations on Appointment and Conditions of Employment of Senior Managers

Of particular relevance to this Performance Management Policy Framework is Annexure A of the abovementioned Regulations that deals with the competency framework for Senior Managers. The competency framework, including leading and core competencies as set out in the Regulations have been included in this Policy Framework.

1.3.7 National Treasury Guidelines for Minimum Competency Levels, 2007

These Guidelines explain, *inter alia*, how to implement the regulations discussed under 1.3.6 above. The implementation of the performance management framework should allow the municipality to collect, process, organize, analyze, audit, reflect and report on performance information. It should also allow the municipality to take practical steps to improve its performance.

1.3.8 Local Government: Municipal Systems Act, 2000 (Act 32 of 2000): Municipal Staff regulations (Gazette no.45181 of 2021)

Chapter 4 of the regulations provides guidelines of implementing performance management across all bargaining council employees.

DEFINITION AND OBJECTIVES OF PERFORMANCE MANAGEMENT (PMS)

1.3.9 DEFINITION OF PMS

Performance management is defined as: “a strategic approach to management, which equips leaders, managers, employees and stakeholders at different levels with a set of tools and techniques to regularly plan, continuously monitor, periodically measure and review performance of the organization in terms of indicators and targets of efficiency, effectiveness and impact.”

1.3.10 OBJECTIVE OF PERFORMANCE MANAGEMENT

The objectives of performance management are, *inter alia*, to:

a) Facilitate increased accountability

The PMS should provide a mechanism for ensuring increased accountability between:

- The citizens of the Local Municipality and the Municipal Council
- The political and administrative components of the Municipality
- The Office of the Municipal Manager and each municipal department

b) Facilitate learning and improvement

The PMS must also provide a platform for learning and improvement. It should enable the Municipality to assess which approaches and methods are having the desired impact and in this way enable the Municipality to make the necessary improvements that will lead to more effective service delivery. It should form the basis for monitoring implementation, evaluating and improving the IDP.

c) Provide early warning signals

The PMS should provide managers and programme coordinators at all levels, the Municipal Manager, Portfolio Committees and the Council with early warning of performance targets that are not going to be reached and thus adversely affecting the implementation of the IDP. It is important that the system informs decision makers of areas of delivery that are lagging behind so that they can intervene and take corrective action as required.

d) Facilitate decision making

The PMS should provide suitable management information that will allow for efficient, effective and informed decision making, particularly on the allocation of resources.

The objectives listed above are not exhaustive, but briefly summarize the intended benefits of the PMS

that is to be reviewed and implemented. These intended objectives, together with other criteria, should be used to evaluate the PMS at the end of each financial year.

1.4 PRINCIPLES OF PERFORMANCE MANAGEMENT

The following principles are proposed to inform and guide the review and implementation of the PMS:

1.4.1 Simplicity

The system must be a simple user-friendly system that enables the Municipality to operate it with its existing resources with the involvement of external stakeholders.

1.4.2 Politically driven

The legislation requires the PMS to promote a culture of performance management in the political structures. It further states that Council must manage the development of the PMS and assign responsibility in this regard to the Municipal Manager. Once developed, Council must adopt the PMS. This means that Council is the owner of the system and must therefore oversee the implementation and improvement of the system and in the process, inculcate a culture of performance improvement as is required by the Municipal Systems Act.

1.4.3 Incremental implementation

One of the most important lessons learnt by municipalities that have developed and implemented successful performance management systems is that it is an incremental process. They point out that the most important thing to do is to start measuring and reporting performance and not to carry on developing the "best" system – start with a basic system, implement it and then improve it incrementally. It is not possible to transform overnight from close to non-compliance to international best practice. In practice, it is only possible to move gradually towards a high performance organization.

1.4.4 1.5.4 Transparency and accountability

The process of managing performance should be inclusive, open and transparent. Citizens should know how departments within the municipality are run, how resources are spent, and who is in charge of particular services. Similarly, all information on the performance of departments should be available for other managers, employees, the public and interest groups.

1.4.5 Integration

The PMS should be integrated into other management processes in the municipality, such that it becomes a tool for more efficient and effective management rather than an additional reporting burden. It should be seen as a central tool for managing the affairs of the Municipality.

1.4.6 Objectivity

Performance management must be founded on objectivity and credibility. Both the process of managing performance and the information on which it relies need to be objective and credible.

PART TWO: ORGANISATIONAL PERFORMANCE MANAGEMENT

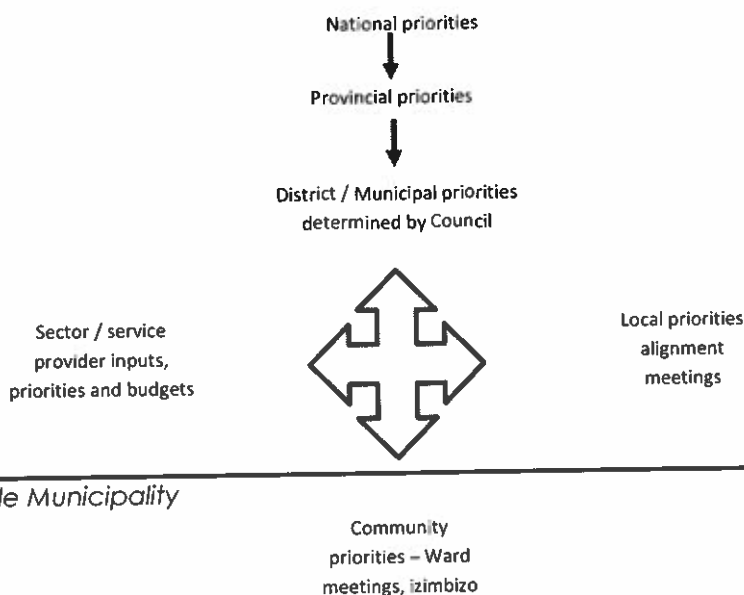

2.1 INTRODUCTION

At this level the performance of the municipality is measured and managed against the progress made in achieving the strategic objectives as set out in the Integrated Development Plan (IDP). This is done on the basis of the Key Performance Indicators and performance targets set for each of the IDP objectives. Collectively these performance indicators, targets and objectives are referred to as measurable objectives. The IDP has a five-year time span and the measurable objectives set at this level must be captured in an organizational scorecard, referred to in this document as the Municipal Five-Year Scorecard. Annual targets are then set by cascading the measurable objectives from the Municipal Five-Year Scorecard into the annual Municipal Service Delivery and Budget Implementation Plan (SDBIP) and Departmental SDBIPs.

2.2 PLANNING

Performance planning commences with the development of the Integrated Development Plan (IDP) at the beginning of the term of Council. The development of the measurable objectives in the IDP also constitutes the performance planning phase of the PMS and it is therefore important to integrate the work done during the development, or annual review, of the IDP into the PMS. In this way, the PMS becomes an extension of the IDP – it is the tool that is used for monitoring the implementation of the IDP.

The IDP planning process can be schematically depicted as follows:

The above process, that involves continuous community participation, informs the integrated IDP – Budget – OPMS planning. This process leads to a *status quo* analysis with the identification of strategic issues that can be arranged as follows under the national key performance areas (KPA's):

National Key Performance Area	Strategic Issues
1. Basic Service Delivery	2.1 Access to water 2.2 Access to sanitation 2.3 Electricity 2.4 Roads and Storm Water 2.5 Community and Public Facilities 2.6 Solid waste disposal 2.7 Housing
2. Local Economic Development and Cross-Cutting Interventions	2.1 Local economic development 2.2 Tourism promotion 2.3 Rural development 2.4 Cooperatives and SMMEs 2.5 Business support and development 2.6 Development planning 2.7 Geographic Information Systems
3. Community and Social Development Services	3.1 Fire and Emergency Services 3.2 Disaster Management 3.3 HIV and Aids 3.4 Sport and Recreation 3.5 Arts and Culture 3.6 Environmental Health 3.7 Gender, senior citizens, children and people with disabilities
4. Good Governance and Public Participation	4.1 Integrated Development Planning 4.2 Public participation 4.3 Internal Audit 4.4 Water Services Authority 4.5 Intergovernmental relations 4.6 Performance Management 4.7 Information and Communications Technology 4.8 Communications
5. Financial Viability and Management	5.1 Budgeting and Reporting 5.2 Income Control 5.3 Expenditure Control 5.4 Supply Chain Management
6. Municipal Transformation and Institutional Development	6.1 Human resource management 6.2 Administration and council support

Having identified the strategic issues, they now need to be converted into desired outcomes or impact indicators that Councillors can use to gauge progress towards meeting the development needs of Communities over their five-year term of office. This is normally done at a strategic planning session where a Municipal Five-Year Scorecard is developed for incorporation into the IDP.

The steps to be followed in order to arrive at a credible Municipal Five-Year Scorecard are the following:

1. Develop a Vision, Mission and set of Corporate Values for the Municipality
2. Prioritise the strategic issues taking into account the most urgent development needs of the Communities in relation to available resources
3. Develop desired outcomes for the prioritized strategic issues that will measure progress in eradicating development backlogs over a five-year period. The achievement of the desired outcomes will also lead to the realization of the Vision.
4. Convert the outcomes (impact indicators) into strategic objectives that form part of the Municipal Five-Year Scorecard. The Municipal Five-Year Scorecard should incorporate the following:
 - a) Key performance area
 - b) IDP reference number
 - c) Strategic objective
 - d) Key performance indicators
 - e) Baseline for previous year
 - f) Annual target
 - g) Budget
 - h) Annual targets for years 2, 3, 4 and 5

How to develop a Vision, Mission and Corporate Values

Definitions	Examples
A Vision Statement is the end result / future state of what the municipality should achieve in the next five-year term	The Molemole Municipality will evolve into a dynamic metropolitan area, spreading its vibrant economic benefits to all its citizens and places and will, through concerted integrated development and services delivery, realise improvements in the overall quality of life
A Mission Statement is clear and concise and states who you are, what you do and for whom you do it	The Molemole Municipality will through sound governance and community participation ensure the provision of equitable and sustainable services and economic growth to all its inhabitants
Core Values are the operating principles that guide a municipality's internal conduct as well as its relationship with its customers, partners and stakeholders	Driven by the aspirations of the people we strive to achieve our Vision and Mission through: <ul style="list-style-type: none"> • Providing services according to the principles of <i>Batho Pele (People First)</i> • Practicing Ubuntu • Accepted codes of practice and standards of professionalism • Teamwork and commitment • A high standard of work ethic • Constant engagement with stakeholders

How to formulate desired outcomes or impact indicators

Key Performance Areas	Strategic Issues	Outcomes
Basic service delivery	Access to water	Potable water enjoyed by all within the Municipality
	Access to sanitation	Basic and higher levels of sanitation enjoyed by all within the Municipality
Local Economic Development and Cross-Cutting Interventions	Economic development	A conducive environment for rural and local economic development created
Community and social development services	Fire and Emergency Services	Humanitarian aid rendered and property and lives saved from fire and other threatening hazards

How to convert the outcomes into strategic objectives that form part of the Municipal Five-Year Scorecard?

Department of Technical Services: Key Performance Area: Service delivery

IDP ref No	Strategic objective	KPI	Baseline 2016/17	Annual target 2017/18	Budget	Annual targets				Ward
						Y 2	Y 3	Y 4	Y 5	
Tech 1	To provide access to potable water	No. of planned projects completed	5	4		4	3	3	2	4, 7
Tech 2	To provide access to basic and higher levels of sanitation	No. of planned projects completed	3	5		5	2	2	3	4, 6

The following general key performance indicators are prescribed in terms of regulation 10 and Section 43 of the Municipal Systems Act, 2000 and must therefore be included in the Municipal Scorecard:

1. The percentage of households with access to basic levels of water, sanitation, electricity, and solid waste removal
2. The percentage of households earning less than R1 100 per month with access to free basic services

3. The percentage of the municipality's capital budget actually spent on capital projects identified for a particular financial year in terms of the IDP
4. The number of jobs created through the municipality's local economic development initiatives, including capital projects
5. The number of people from employment equity groups employed in the three highest levels of management in compliance with an approved Employment Equity Plan
6. The percentage of a municipality's budget actually spent on implementing the Workplace Skills Plan
7. The financial viability of the municipality:
 - a) Debt coverage = $\frac{\text{Total operating revenue minus operating grants}}{\text{debt service payments}}$
 - b) Outstanding service debtors to revenue = $\frac{\text{Total outstanding service debtors}}{\text{Annual revenue received for services}}$
 - c) Cost coverage = $\frac{\text{Available cash on hand plus investments}}{\text{Monthly fixed operating expenditure}}$

The Performance Planning process described above forms part of the IDP development / review process. Once the IDP has been completed, after extensive community consultation, it must be adopted by Council during June of each year. Thereafter, as from the commencement of the new financial year on 1 July, it must be implemented by means of the PMS.

2.3 IMPLEMENTATION

The Service Delivery and Budget Implementation Plan (SDBIP) is essentially the management and implementation tool that sets in-year information such as quarterly service delivery targets and links each service delivery output to the budget of the municipality, thus providing credible management information and a detailed plan for how the municipality will provide services and the inputs and financial resources to be used.

The SDBIP provides the basis for measuring performance in service delivery against end of the year targets and implementing the budget. It is a layered plan, with the top layer dealing with consolidated service delivery targets and linking these targets to top management. The next layer details outputs that are linked to the next layer of management. Much of this detail will be included in the departmental SDBIPs.

The complete SDBIP as prescribed by National Treasury must consist of the following components:

1. Quarterly projections of service delivery targets and performance indicators for each Vote
2. Monthly projections of revenue to be collected by source
3. Monthly projections of operating and capital expenditure and revenue for each Vote

4. Detailed capital works plan broken down by Ward over three years
5. Ward information

From a performance management point of view, it is only the first point, namely "Quarterly projections of service delivery targets and performance indicators" that is focused on. Officials from Finance and Technical Services provided the information for the other four components of the SDBIP that will be approved by Council.

For the sake of completeness, a template for developing a complete SDBIP with all five components is attached as Annexure A.

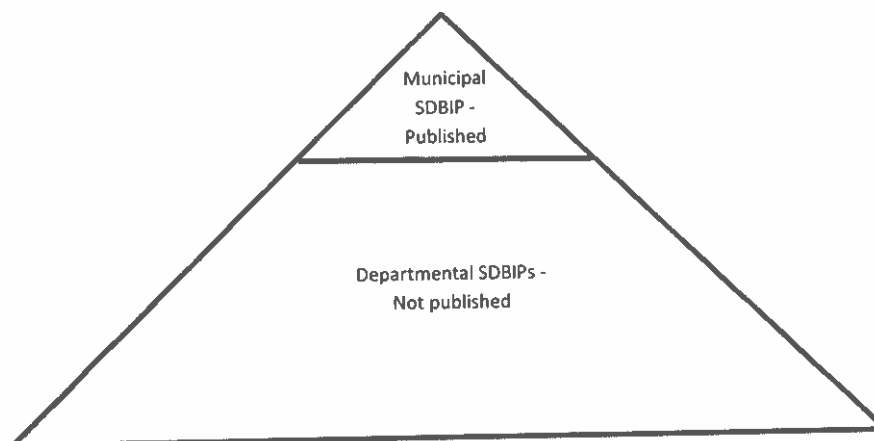

Meeting the SDBIP requirements for "Quarterly projections of service delivery targets and performance indicators" involves the following four tasks:

1. Develop a Municipal Service Delivery and Budget Implementation Plan (also known as an Organizational Scorecard)
2. Develop Departmental Service Delivery and Budget Implementation Plans (SDBIPs)
3. Develop Annual Performance Agreements for the Municipal Manager and Heads of Department – Section 54 and 56 employees

The process to be followed in carrying out the above four tasks is discussed below.

2.3.1 Develop a Municipal SDBIP

National Treasury stipulates in its Circular No. 13 (MFMA Circular No. 13) that the SDBIP must be a layered plan, with the top layer of the plan dealing with the consolidated service delivery targets and in-year deadlines and linking such targets to top management. The following diagram shows how only the tip of the pyramid forms the published part of the SDBIP.

In compliance with National Treasury requirements the Municipal SDBIP should therefore consist of a high-level set of measurable objectives that measure the performance of the Municipality at a corporate level. This is achieved by converting the Municipal Five-Year Scorecard into an annual

Municipal SDBIP. This will also ensure alignment to the IDP. For this purpose, the same template is used for the Municipal SDBIP as was used for the Municipal Five-Year Scorecard, the annual targets will just be amended to quarterly targets and the result will be as follows:

*Department of Technical Services
Key Performance Area: Service delivery*

IDP ref No	Strategic objective	KPI	Baseline 2016/17	Annual target 2017/18	Budget	Quarterly targets				Ward
						Q 2	Q 3	Q 4	Q 5	
Tech 1	To provide access to potable water	No. of planned projects completed	5	4		1	1	1	1	4
Tach 2	To provide access to basic and higher levels of sanitation	No. of planned projects completed	3	5		1	2	1	1	6
	Etc.									

An example of a completed Municipal SDBIP is attached as Annexure B.

2.3.2 Develop Departmental SDBIPs

In order to ensure alignment with the IDP and the Municipal SDBIP all of the information contained in the Municipal SDBIP is copied into the Departmental SDBIP and then fleshed out to provide more detailed information. Additional, lower level, indicators are also added. The resultant Departmental SDBIP will thus include the following information:

- Department
- Key Performance Area
- Business Unit (normally aligned to strategic issues)
- IDP reference number
- Strategic objective
- Measurable output
- Key performance indicator
- Budget
- Annual target
- Quarterly targets (Q1, Q2, Q3 and Q4)
- Responsible official

An example of a complete Departmental SDBIP is attached as Annexure C.

2.3.3 Develop Annual Performance Agreements

In terms of Section 57 (1) (b) of the Municipal Systems Act, 2000 the Municipal Manager and Heads of Department (Section 54 and 56 employees) must sign annual Performance Agreements at the beginning of each financial year. An example of such an Agreement is attached as Annexure D.

An Individual Performance Plan must be developed and attached as an annexure to the Performance Agreement – an example also forms part of Annexure D and it is in the following format:

ID P r e f N o	Strategic objectiv e	KPI	Quarterly targets								Comme nts	Own rating (1 – 5)	Panel's rating (1 – 5)
			Quarter 1		Quarter 2		Quarter 3		Quarter 4				
			Tar get	Act ual	Tar get	Act ual	Tar get	Act ual	Tar get	Act ual			

In order to populate this template for the Municipal Manager and Heads of Department (Section 54 and 56 employees) the necessary information needs to be copied and pasted from the Municipal SDBIP. For the lower tier of management, the information would be obtained from the Departmental SDBIP. At the time of assessment, the actual performance would be obtained from the relevant Quarterly Performance Reports.

Note that the IDP reference number remains constant in the Municipal Five-Year Scorecard, the Municipal SDBIP, the Departmental SDBIP and the Individual Performance Plan. This ensures direct alignment with the IDP and facilitates the auditing process.

2.4 MONITORING

The old adage of “what gets measured gets done” is applicable in this section. Having completed the planning and developed the necessary implementation tools it is now necessary to measure, monitor and report progress. While measuring and analyzing actual performance against set targets the following questions can, *inter alia*, be asked:

- How were the activities implemented?
- Were planned outputs achieved?
- Were they achieved within the planned timeframe?
- Was the quality up to standard?
- Were financial, human and material resources managed responsibly and efficiently?
- Was the project executed in a cost-effective manner?

Measured performance must be reported and the OPMS reporting structure requires the following reports:

1. Quarterly Departmental Performance Reports
2. Quarterly consolidated Municipal Performance Report
3. Half-Yearly Municipal Performance Report
4. Annual Municipal Performance Report

All Performance reports must reflect a portfolio of evidence to substantiate reported achievements.

These Reports will now be discussed in more detail below.

2.4.1 Quarterly Departmental Performance Report

This is an important report as it forms the foundation for all the other reports. The Departmental Performance Report should contain all the planning information contained in the Departmental SDBIP and to this must now be added the actual information so as to measure performance against targets. The actual information includes the following:

- Actual performance against targets
- Expenditure against budget (expenditure as at the end of the quarter)
- Reason for variance if any
- Remedial action where necessary
- Portfolio of evidence

An example of a completed Departmental Performance Report is attached as Annexure E.

The following steps should be taken in developing the Departmental Performance Report:

1. Record your actual performance against the quarterly target
2. In the "Portfolio of Evidence" column list the documents that will substantiate your achievement
3. If you did not achieve your quarterly performance target:
 - 3.1 Provide reasons in the "Reason for variance" column
 - 3.2 Indicate what you are going to do to remedy the situation by completing the "Remedial Action" column
4. If you achieved your performance target, or partially achieved it, attach your Portfolio of Evidence. The documents must correspond with those listed as your "Portfolio of Evidence"
5. Cross reference your Portfolio of Evidence by entering the "IDP Ref No" in the top right hand corner. This will facilitate the audit purposes

As already stated, the Departmental Performance Report is an important document as it provides the information that will be transferred into the consolidated Municipal Performance Report, the Half-Yearly Performance Report and the Annual Performance Report. It is therefore necessary to constantly strive towards improving the credibility of Quarterly Departmental Performance Reports. To this end, the Internal Audit results pertaining to the Quarterly Departmental Performance Report for the previous quarter should be forwarded to all Managers and Programme Coordinators, who make inputs into the Report, with the view to eliminating the same errors in future reports. By repeating this after each quarter the credibility of the reports will improve over time.

2.4.2 Quarterly consolidated Municipal Performance Report

The template for the Quarterly Municipal Performance Report is attached as Annexure F. It contains the following information:

- a) Department
- b) Key Performance Area
- c) IDP reference number

- d) Strategic objective
- e) Key Performance Indicator
- f) Quarterly target and actual for previous year
- g) Quarterly target and actual for current year
- h) Status (Well above, Above, On target, Below and Well below)
- i) Budget
- j) Expenditure
- k) Reason for variance
- l) Remedial action

It will be noted that the information in a) to f) can be copied from the Municipal SDBIP while the information for g) to l) is available on the Quarterly Departmental Performance Reports.

2.4.3 Half-Yearly Municipal Performance Report

The template for the Half-Yearly Municipal Performance Report is attached as Annexure G. It contains the following information:

- a) Department
- b) Key Performance Area
- c) IDP reference number

- f) Targets and actuals for previous year Q1 and Q2
- g) Targets and actuals for current year Q1 and Q2
- h) Status (Well above, Above, On target, Below and Well below)
- i) Reason for variance
- j) Remedial action

All of the required information can be obtained from the Quarterly Municipal Performance Reports.

2.4.4 Annual Municipal Performance Report

The template for the Annual Municipal Performance Report is attached as Annexure H. It contains the following information:

- a) Department
- b) Key Performance Area

- h) Actual annual performance achieved
- i) Budget
- j) Expenditure
- k) Reason for variance
- l) Remedial action
- m) Previous year and future year targets

All of the required information can be obtained from the Quarterly Municipal Performance Reports. The Q4 Municipal Performance Report contains most of the required information for the Annual

Municipal Performance Report, but in practice the reasons for variance and remedial actions often need to be obtained from the Q1, Q2 or Q3 Reports.

2.5 EVALUATION

Evaluation and review includes assessment of the system itself, the framework, performance targets of departments and performance measurement of employees. It identifies the strengths, weaknesses, opportunities and threats of the municipality in meeting key performance indicators, performance targets and general key performance indicators. It also measures the economy, efficiency, effectiveness in the utilization of resources and impact in so far as performance indicators and targets set by the municipality are concerned. Performance improvement and adjustment is based on this review.

Some pertinent questions that can be asked during the evaluation process include:

- Did our work ultimately change the status of the target population or situation?
- What types of interventions are successful under what conditions?
- How can outputs and outcomes best be measured?
- What lessons were learned?
- What kind of implementation challenges have emerged and how are they being addressed?
- What is the progress towards achieving the desired outcomes?
- Are the selected indicators pertinent and specific enough to measure the outputs?
- Why are some officials not implementing activities as well as others?
- How is the external environment affecting internal operations of the municipality?

2.6 PERFORMANCE AUDITING

The Municipal Planning and Performance Management Regulations, 2001, requires municipalities to develop and implement mechanisms, systems and processes for auditing the results of the performance measurements as part of its internal auditing processes. This is meant to ensure that performance information collected by the municipality is verifiable, reliable and correct.

2.6.1 Internal Auditing

The Regulations provides that the internal audit activity must include assessments of the following:

- The functionality of the municipality's performance management system
- Whether the performance management system complies with the relevant provisions of the Municipal Systems Act, 2000
- The extent to which the municipality's performance measurements are reliable in measuring performance
- On a continuous basis, audit the performance measurements of the municipality
- Submit quarterly reports on their audits to the Municipal Manager and the Performance Audit Committee

2.6.2 External Auditing

The results of performance measurements must be audited annually by Auditor-General.

2.6.3 Performance Audit Committee

The Regulations further provides for the creation of a Performance Audit Committee:

- The municipality must annually appoint and budget for a Performance Audit Committee of at least three members, the majority of which cannot be a Councillor or an official of the municipality
- Any external member of the committee may be remunerated in line with tariffs determined by the South African Institute of Chartered Accountants
- A municipality must provide secretariat services for its audit committee
- The Performance Audit Committee must meet at least twice during the financial year, but a special meeting may be called by any member of the committee

The roles and responsibilities of the Performance Audit Committee are the following:

- Review the quarterly reports submitted to it by the Internal Audit Activity
- Review the municipality's performance management system and make recommendations in this regard to the council of that municipality
- In its review of the system, focus on economy, efficiency, effectiveness and impact of the KPIs and targets set
- Submit an audit report to the municipal council twice during a financial year

In order to fulfill their functions, a Performance Audit Committee may:

- Communicate directly with the Council, Municipal Manager or the Internal Auditors of the municipality
- Access any municipal records containing information that is needed to perform its duties or exercise its powers
- Request any relevant person to attend any of its meetings, and if necessary to provide information needed by the committee
- Investigate any matters it deems necessary for the performance of its duties and the exercise of its powers

The composition of the Performance Audit Committee should ensure that the following competencies are sufficiently catered for within the group:

- Expertise in performance management
- Expertise in finance
- An understanding of development planning
- Credibility within all communities and organs of civil society within the municipality

PART THREE: INDIVIDUAL PERFORMANCE MANAGEMENT

3.1 INTRODUCTION

- 3.1.1 At this level, the performance of individuals is measured against personal performance targets set out in the Individual Performance Plans that are aligned to the IDP and Municipal SDBIP. This ensures that the Organizational Performance Management System (OPMS) and Individual Performance Management System (IPMS) are linked and integrated.
- 3.1.2 A staff member of a municipality is a public servant in a developmental local government system, and therefore must—
- 3.1.3 be committed to serve the public and to a collective sense of responsibility for performance in terms of standards and targets; and
- 3.1.4 Participate in the overall performance management system of the municipality, as well as the staff members' individual performance evaluation and reward system in order to maximize the ability of the municipality as a whole, to achieve its objectives.
- 3.1.5 The municipality, as represented by the relevant supervisor, and staff member must, during the planning phase, agree on—
- 3.1.5.1 performance objectives and targets that the staff member is expected to achieve during a performance cycle;
- 3.1.5.2 specific performance standards, weightings for targets and performance indicators for measuring achievement of performance against set targets; and
- 3.1.5.3 Job specific competencies to be assessed in the performance cycle.
- 3.1.6 The supervisor and staff member must ensure that performance management is aligned to the staff member' job, and KPAs relevant to the post that the staff member holds.
- 3.1.7 The KPAs must relate to the staff member's functional area and must consist of not less than 5 and not more than 7 KPAs.
- 3.1.8 The KPIs—
- 3.1.8.1 include the input, quality or impact of an output by which performance in respect of a KPA is measured; and
- 3.1.8.2 Must be measurable and verifiable.
- 3.1.9 The performance standard for each KPI may be qualitative or quantitative, but must also satisfy the criteria set out in sub-regulation (5).

3.2 SECTION 54 AND 56 EMPLOYEES

- 3.1.1 In terms of Section 54 / 56 of the Municipal Systems Act these employees are required to sign a performance agreement within a reasonable time after assuming duty and then within one month after commencement of the new financial year.
- 3.1.2 The performance agreement should be informed by the IDP and the Municipal SDBIP and the content of the performance agreement should include the following:

- The legal agreement to be signed by the employer and the employee, a template of which is attached at Annexure H.
- A performance plan, attached to the legal agreement, containing:
 - KPAs
 - IDP reference number
 - Strategic objective
 - Measurable outputs
 - KPI
 - Quarterly targets and actuals
 - Comments
 - Own rating (1 – 5)
 - Panel's rating (1 – 5)
- A personal development plan that identifies the competencies and other development needs of the employee, as well as interventions to improve these. A template is also attached to the legal agreement.

3.1.3 The criteria upon which the performance of the employee must be assessed consists of two components, both of which must be contained in the performance agreement. The employee must be assessed against both components, with a weighting of 80: 20 allocated to the Key Performance Areas (KPAs) and the Competency Framework (CF)), respectively. Each area of assessment will be weighted and will contribute a specific part to the total score. KPAs covering the main areas of work will account for 80 % and the CF will account for 20 % of the final assessment.

3.1.4 The employee's assessment will be based on his or her performance in terms of achieving the targets as set out in the performance plan (80% weighting) and the extent to which the various competencies as contained in the competency framework (20% weighting) are met.

3.3 EMPLOYEES BELOW SECTION 56 MANAGERS (DIVISIONAL MANAGERS AND EMPLOYEES BELOW)

3.3.6 The performance agreement may not diminish the obligations and duties of a staff member in terms of the staff member's employment contract, or any applicable regulations or municipal policy.

PART FOUR: REVIEW AND IMPROVEMENT OF THE PMS

4.1 COMPLIANCE CHECK

A logical point of departure in reviewing and evaluating the effectiveness of the PMS is to establish to what extent the system is compliant with legal mandates and to what extent it is moving beyond compliance towards best practice.

4.2 EVALUATION OF EFFECTIVENESS

Furthermore, the review of the PMS will need to be done with the participation of the users of the system. During this evaluation, it will be necessary to examine the effectiveness of the system in all its phases and to identify areas of improvement by taking into account:

- The experiences in the application of the system
- Best practices in other municipalities
- International trends in public sector performance management

4.3 REPORTING LINES AND FREQUENCY OF REPORTING
