Molemole Municipality

The policy on provision of services should endeavour to provide services in accordance with the amount available for subsidization. It is however important to note that the subsidy received, in the majority of cases, does not cover the full account. In such event the consumer is still responsible for the balance between the full account and the subsidy received. Special consideration of financial relief will be given to child-headed households where such households are in need of additional support in terms of basic services.

7.5 Other benefits

Indigent households are entitled to all other benefits in terms of any of other approved policies of Council.

8. Affordability of Services

In an attempt to make services more affordable to the indigent household, the following additional measures will be implemented:

8.1 Electricity

Council will assist indigent households to change from conventional to pre-paid meters by providing the meter for free (i.e. meter connection, labour and equipment).

8.2 Water

Metered water should be reduced to 6kl's per month flow rate for poor households to address the affordability of their current monthly accounts.

The credit control measure will apply in instances whereby the indigent request Council not to install a restrictor in his/her household.

8.3 Finance

No credit control measures will be instituted against Indigent Households for as long as the discounted monthly levies are paid in full.

9. Termination of Indigent Support

9.1 Upon the death of the account holder.

9.2 Debtor must de-register once employment has been found.

9.3 If it is discovered later after approval that the person/ applicant applying on behalf of the household has supplied false information; this will also result in the household's municipal account being debited with all monies previously credited.
