VOLUME II: 2021/2022 ANNUAL FINANCIAL STATEMENTS	226

Chapter 1

CHAPTER 1: MAYORS FOREWORD AND EXECUTIVE SUMMARY

COMPONENT A: MAYOR'S FOREWORD

1. Introduction

The Annual report intends to give a comprehensive service delivery outcome for the implementation of the 2022/2023 Integrated Development Plan and the accompanying budget.

The IDP document for the financial year under review included projects implemented by Molemole Local Municipality as well as projects implemented by our sector departments as well as projects from Capricorn District Municipality. As Molemole local Municipality we have indeed embraced the notion of cooperative government by working together with other spheres of government to advance the service delivery to the communities we are mandated to serve. Although we are pleased with the performance of the municipality with regard to service delivery programmes we are mindful that there is still more that needs to be done to really address backlogs on upgrading road infrastructure, provision of water in a consistent manner and create a conducive environment for improved economic activity to create job opportunities to those in need.

2. Public participation

Section 24 of the Municipal Systems Act, 200 (Act 32 of 2000 states that the planning undertaken by a municipality must be aligned with, and complement the development plans and strategies of other affected municipalities and other organs of state so as to give effect to the principles of co-operative government contained in section 41 of the Constitution. The municipality's IDP Rep Forum is a critical structure that serves to bring together all spheres of government (departments, Capricorn district municipality), Civil society, traditional authorities, Councillors and Ward Committees to discuss cross cutting service delivery imperatives that affect the municipality. The Municipality has successfully arranged three of these forum meetings during the year under review and wish that indeed our sector departments and the district can continue to work with us to attend service delivery needs that are within their powers and functions.

3. Functionality/ of Council and its Committees

We are pleased to report that all Council committees (MPAC, Ward Committees, Portfolio Committees, Executive Committee and Council as well as Audit Committees) have continued to function as expected throughout the course of the financial year. We are happy with the work of our Ward Councillors for calling community meetings every month to update the community on their local service delivery needs and challenges.

The Municipal Public Accounts Committee has also conducted project site visits to help as part of their oversight duties to ensure the community gets full value for money on projects implemented by the Municipality.

All Council meetings are preceded by meetings of portfolio committees, which later report to Executive Committee.

Further details on the functionality of the Council committees will be reported elsewhere in this Annual report.

4. Financial Viability and Sustainability

The Annual Revenue budgeted for 2022/23 financial year amounted to R 307 555 537. The actual annual revenue collected for the period ending 30 June 2023 was R 279 642 047 against the 12 months' budget. This translates into 91% of the budgeted revenue and represent an increase of two percentage points (or R 20,390,905) from the 2021/2022 financial year.

Chapter 1

It's been thirty (30) years since the dawn of democracy and we are mindful that community patience is wearing thin. The municipality has resolved to embark on a concerted effort to find alternative revenue sources in order to help address the service delivery backlog within our community. This is done in recognition of the limited ability of the municipality to generate enough revenue from ratepayers.

As at 30 June 2022 the municipality had a cash and cash equivalent of over R 105 million compared to R 89 million recorded in the 2020/221 financial year. The table below outline the cash balances over the medium term:

	2020/2021	2021/2022	2022/2023
Cash balances at close of Financial year	R 89 543 789	R 105 278 542	R 112 262 025

The above statistics shows an improvement in closing cash balances over the past three years. This is a positive sign that the municipality's going concern is still very much on track, to the benefit of the communities.

5. Key service delivery achievements for 2022/2023

The table below outlines key capital projects that were implemented during the 2022/2023 financial year.

Project Name	Appointed service provider (consultant/ contractor/ supplier)	Total Project value	Project status quo	Project Start Date	Project End Date
Design Ramokgopa landfill site	RIXONGILE	R 1 550 000.00	100%	12 July 2022	30 June 2023
Planning, design and project management of 3.1km Ga-Maupye upgrading of internal streets from gravel to surfacing (multiyear)	MONT CONSULTING ENGINEERS	R 302 150.82	100%	03 August 2022	30 June 2023
Planning, design and project management of 3,0km Mokgehle upgrading of internal, streets from gravel to surfacing	EKS CONSULTING ENGINEERS	R 327,973.14	100%	11 August 2022	30 June 2024

Feasibility study for construction of Morebeng DLTC	TORONG CONSULT	R 379 500.00	100%	08 November 2022	30 June 2023

SPENDING ON CAPITAL GRANTS

Molemole municipality managed to register 99% spending on MIG grants and this helped us to not forfeit the grants back to national revenue kitty. Below is a record of spending patterns over the five-year period.

2018/19 Spending %	2019/20 Spending %	2020/21 Spending %	2021/2022	2022/2023
97%	99%	99%	99%	99%

**Hon. Mayor
Councillor M.E Paya**

Chapter 1

EXECUTIVE SUMMARY

COMPONENT B: MUNICIPAL MANAGER'S OVERVIEW

1. Introduction

This Annual report seeks to provide a comprehensive performance report of the municipality against service delivery commitments made in the 2022/2023 financial year. These commitments were outlined at the beginning of the financial year during the state of municipal address by the Mayor, Councillor M.E Paya in his state of the 2022/23 municipal address. The Annual report is the most important instrument through which the municipality accounts to its citizens about the use of financial resources allocated by the national government as well as the income generated from own revenue sources. It is a mechanism through which the municipal Councillors give a comprehensive feedback to their constituencies. Lastly, the Annual Report serves as an important instrument that can be used by the municipality and the community to plan ahead for future service delivery interventions.

2. Legislative imperative

Molemole Local Municipality is obligated in terms of section 156 of the Constitution of South Africa, 1996 (Act 108 of 1996, as amended) to carry out the powers and functions as outlined in schedule 2B. These functions include amongst other things: provision of basic services like Water, Electricity, Refuse removal and Environmental Management, administration of by-laws for the effective administration of matters within its powers as well as to exercise any power concerning a matter reasonably necessary for, or incidental to, the effective performance of its functions. The Municipality does not have any entity and have worked with both the national and provincial spheres of government to carry out its constitutional mandate.

Section 121(1) of the Local Government: Municipal Finance Management Act 56 of 2003 (MFMA) stipulates that every municipality and municipal entity must for each financial year prepare an annual report in accordance with its guidelines. The purpose of the annual report is to provide a record of the activities for that year, to report on performance against the budget of the municipality for the financial year reported on, and to promote accountability to the municipal stakeholders. According to the MFMA, this Report should include:

- The annual financial statements of the Municipality, and consolidated annual financial statements, submitted to the Auditor-General for audit in terms of section 126 (1) of the MFMA;
- The Auditor-General's audit report in terms of section 126 (3) of the MFMA and in accordance with s45 (b) of the MSA; on the financial statements in (a) above;
- The annual performance report of the Municipality as prepared by the Municipality in terms of section 45(b) of the Local Government: Municipal Systems Act 32 of 2000 (MSA);
- An assessment of the arrears on municipal taxes and service charges;
- An assessment of the Municipality's performance against the measurable performance objectives referred to in Section 17 (3)(b) of the MFMA for revenue collection from each revenue source and for each vote in the Municipality's approved budget for the financial year;
- Corrective action taken in response to issues raised in the audit reports referred to in paragraphs (b) and (d); and
- Recommendations of the Municipality's Audit Committee.

This Annual report has been compiled in line with the above legislative framework. Stakeholders and residents are encouraged to study this document as it will give them a better understanding of the workings of the municipality.

Chapter 1

We are pleased to report that the Municipality has once again obtained an unqualified Audit opinion on the 2022/2023 Annual Financial statements and got a clean audit on the Basic Services KPA under Annual Performance report (AOPO)

3. Summary of non-Financial Performance per Department during 2022/23- FY

No	Department	No. of planned targets	No of targets Discontinued/ Target not verifiable	Number of targets achieved	% targets achieved	No of targets not achieved	% targets not achieved
1	Local Economic Development & Planning	06	0	04	67%	02	33%
2	Technical Services	13	01	09	75%	03	25%
3	Community Services	07	02	04	80%	01	20%
4	Budget and Treasury	09	01	05	63%	03	37%
5	Municipal Manager's Office	16	0	11	69%	05	31%
6	Corporate Services	12	0	04	33%	08	67%
	Total	63	4	37	65%	22	36%

The overall performance on the Annual performance report for 2022/2023 has decreased from 73% in the prior year to 65% in the 2022/2023 financial year. This is concerning as we all agree that these may have negative service delivery implications, more so that the number of key performance indicators has decreased from 76 to 63 in current financial year. More still need to be done in order to improve on this performance in the 2023/2024 financial year.

As reported elsewhere in this report the Municipality did have stability in the Senior Management level because 5 of the six Management staff were available. The contract for Municipal Manager lapsed in February 2022 and the Municipality commenced with process of recruitment to find a suitable replacement. As at the end of the financial year the municipality had appointed Mr. K.E Makgatho, who was the former Senior Manager Corporate Services to serve as the Municipal Manager for a period of five years.

As reported in this document the Municipality has identified strategic risks that may derail the continued provision of services to the people of Molemole municipality. The Risk Management Committee is responsible for the monitoring the mitigation or elimination of identified Risks and report quarterly basis to Audit Committee. Section 2.6 outlines the Strategic risks identified during the year under review and measures to address them.

The final draft of this Annual report will be tabled to Council by the Mayor in an official Council meeting and referred to MPAC to conduct oversight processes in line with section 127 of the Municipal Finance Management Act, 2003 (Act 56 of 2003). The public will be given an opportunity to comment and make further inputs on its contents as part of the legislated processes. We urge our communities to actively participate in the consultative processes to ensure the final outcome is fully representative of the views of the people. MPAC will present the oversight report to Council within two months after it has been referred to it by Council.

Chapter 1

Mr. K.E Makgatho
Municipal Manager

Chapter 1

MUNICIPAL FUNCTIONS, POPULATION AND ENVIRONMENTAL OVERVIEW

a) INTRODUCTION TO BACKGROUND DATA

Molemole Local Municipality (MLM) is located in the Capricorn District Municipality (CDM) in the Limpopo Province. The neighboring Local Municipalities under the district are Blouberg, Lepelle-Nkumpi and Polokwane. Molemole Local Municipality head office is located in Mogwadi, which is 65 kilometers from the North of Polokwane along the R521. The municipality is bordered by:

- Polokwane Local Municipality to the South;
- Blouberg Local Municipality to the North West;
- Greater Letaba Local Municipality towards the South East; and
- Makhado Local Municipality in the Northern direction

Following the 2016 local government elections and revision of demarcations by the Municipal Demarcation Board (MDB) the total number of wards increased from 14 to 16. The subsequent increase in villages led to an increase of ward committees to 160.

b) DEMOGRAPHIC ANALYSIS.¹

According to Statssa census report of 2011 the total population for the municipality stood at 108,321, with an average growth rate of -0.1%. The total population has however increased to 125 327 after the incorporation of about sixteen villages from the former Aganang municipality following its disestablishment prior 2016 local government elections. According to the Municipal Capacity Assessment of the Municipal Demarcation Board (2018) the total population of Molemole municipality stands at 126 489, representing an increase of 0.93% or by 1162 more people.

The majority of the population is comprised of Black Africans at 98,4% with the remaining 1.6% made up of whites, Coloured, Indians and other (Statssa,2011). According to Municipal Capacity Assessment report (2018) the municipality has recorded a slight increase in the population of Black Africans to 98.6%. Molemole Local Municipality has a population density of 31.9 persons per square kilometer, which is lower than the district, provincial and national averages of 75.1, 43.2 and 40.9 persons per square kilometers respectively which infers that the municipality is sparsely populated relative to the district, province and South Africa. The Municipality covers an area of 3347km². The total number of households has increased from 30,043 in 2011 to 34,642 in 2018. Furthermore 54% of the households are headed by women. This would require even more resources to provide service delivery infrastructure especially since most of the roads are mainly gravel and require continuous maintenance by the municipality.

¹ The demographic analysis compared data from Statssa 2011, Statssa Community Survey and Municipal Capacity assessment (2018) from MDB. The MDB report (2018) was generated after an assessment of all municipalities to provide services and provides the latest population trends since 2016 Community Survey by Statssa.

Chapter 1

c. POPULATION TRENDS

Demographic trends are key driving forces in any economic development strategy and hence must be considered in any planning process. The demographic profile influences the type and level of demand of goods and services and the pressure on provision of government services to the public. According to **Figure 1.1** below, it is clear that Molemole Municipality has the lowest (8.6%) of population in the CDM District as compared to other four Local Municipalities and only 2% of the population in the Limpopo province.

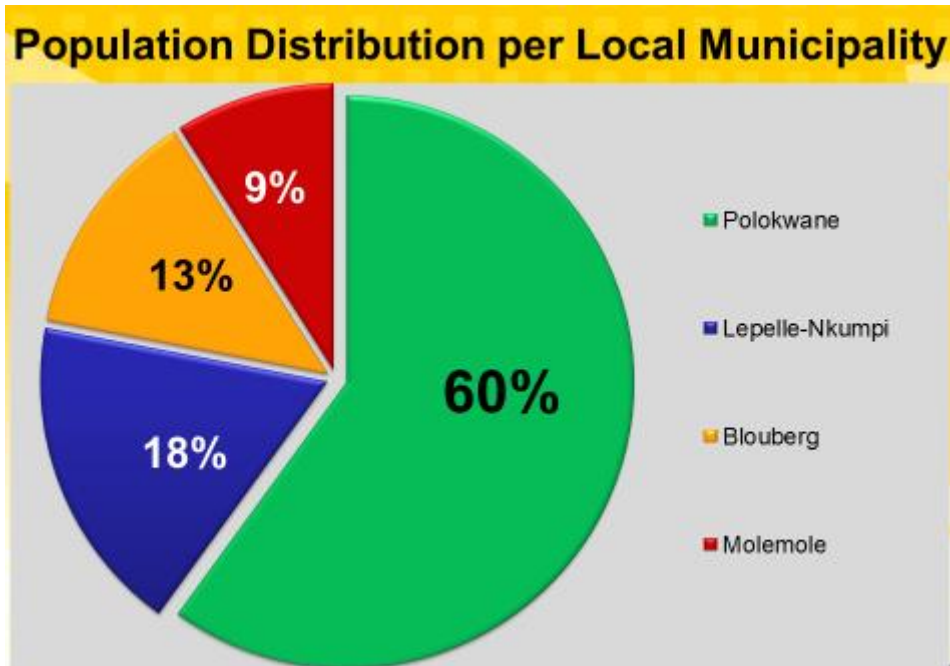

Figure 1.1: Population Composition in the CDM

d. LANGUAGE DISTRIBUTION

The most spoken language in Molemole is Sepedi at 91% compared to 88.6% in the whole of Capricorn and more than 1.5 (54.71%) times the figure in Limpopo. The following figure shows statistics on spoken languages within the municipality.

Chapter 1

Figure 1.2: Population by most spoken language community survey: 2016 survey

e. AGE DISTRIBUTION

The age structure of a population plays an equally vital role in influencing growth prospects, and will inform planning decisions for the provision of services such as basic services like water, sanitation, refuse removal, electricity infrastructure and transport. Table 1.1 and figure 1.3 below depicts the age distribution of the population as at 2018;

Totals	0 to 4 years	5 to 19 years	20 to 29 years	30 to 64 years	Over 65 years	Total
Total no.	16,570.06	45,156.57	19,858.77	34,910.96	9,992.63	126,489.00
Percentage	13.10%	35.70%	15.70%	27.60%	7.90%	

Chapter 1

Figure 1.4: Population by gender distribution: Community Survey: 2016

Figure 1.3 depicts age distribution of Molemole population. It is evident from the figure that 51.4% of the population is of a school going age whilst 27.6% are of general working age. Almost 10 000 (7.9%) of the population are of over the age of 65. The intensity of poverty for the municipality has increased by 0.9 percentage points between 2011 and 2016 from 41.7% (21.4% poverty head count) to 42.6% (21.2% poverty head count). Unemployment and incidents of inequality are some of the causes of poverty. This place a burden on the municipality to divert a chunk of its budget on provision of free basic services.

The composition of the population above can be attributed to the following factors:

- Young adults and young couples are migrating to urban areas.
- Most wealthy people are also migrating to urban areas to access good basic services as compared to services at local municipalities.
- The decline in population size have negative impact on the investment opportunities and thus affects the economic potential of the municipality.
- Youth between the ages of 18 – 35 are also migrating to urban areas in order to access tertiary education and explore employment opportunities.

f. GENDER DISTRIBUTION

The ratio of Female to Male in 2016 is still high at 54.8% to 45.2% (Statssa, 2016), representing 0.7 percentage point increase compared to 2011 census report. This is more than the averages for National (51:49), Limpopo (52.8:47.2) and CDM (53:47), see figure 1.4 above:

Chapter 1

g. EDUCATIONAL PROFILE

The high proportion of people with no schooling for individuals 20 years or older (20.2%) is a very worrying factor as it may lead to an increase in social ills like teenage pregnancy, unemployability, low participation in economic activity, high incidences of substance and alcohol abuse and poor health. It is even more concerning as 95% of those with no schooling are black Africans reflecting past apartheid imbalances. The table below shows that as at 2016 only 53% of individuals 20 years and older have received some form of education from grade 10 up to PHD level. Improved educational levels can have many benefits for the municipality like ability to participate in the government work, understanding of important messages sent by the municipality, understanding health related messages from government and increased chance of getting employed or even starting your own business. Molemole is serviced by 82 schools comprising 51 primary schools, 30 secondary schools and one (1) combined school. There is one satellite FET College in Ramokgopa village.

Molemole has (2) functional community libraries at Mogwadi and Morebeng and six (6) mobile libraries at schools – four in the East (Sefoloko High School, Kgwadu Primary School, Itshumeleng Primary and Rakgasema Pre-School) and two (2) in the west (Seripa High School and Mangwato Primary School). The municipality also has two libraries in the village, Ramatjowe and Matseke libraries but due to staff shortages and limited resources, the libraries are not functional. There is currently construction of a community library at Ramokgopa village. Most of the schools are currently experiencing shortages of both classrooms and educators hence an imbalance in the teacher/learner ratio. There is also a need for refurbishment of some schools as they are in a dilapidated state.

Table 1.2 displays level of education for individuals 20 years and older within Capricorn district jurisdiction:

Level of education	Molemole	Lepelle-Nkumpi	Blouberg	Polokwane	Totals
Bachelor's degree	972	1188	614	14146	16920
Honours degree/Post-graduate diploma	795	1,235	945	6,528	9503
Master's degree	76	183	34	1474	1767
PHD	65	101	48	706	920
Post-Higher Diploma (Masters)	793	725	400	4378	6296
Higher Diploma	491	1,086	668	6373	8618

Table 1.3: Level of Education by population group: Statssa 2016 Community Survey

h. EMPLOYMENT PROFILE.

Molemole has significant potential in terms of tourism, due to its rich heritage and cultural resources and its location advantage (the N1 links Molemole to Zimbabwe). It has a railway line and the provincial road that links Zimbabwe is always congested with trucks that transport goods between South Africa and Zimbabwe. The development and packaging of the Tropic of Capricorn, shopping Centres, the Motumo Trading Post, Machaka Game Reserve and other private game reserves have the potential to stimulate the influx of tourists and make Molemole a preferred tourism destination of choice (Statssa, 2011). According to Statssa 2011 census report 57% of the population is economically active. If we extrapolate the percentage to the 2018 population of 126 489 this means just over 72000 individuals are economically active. Job creation and poverty alleviation still remain important challenges to be addressed. Majority of the people are more concentrated in the public sector and agricultural farms, owing to the rural nature of the municipal economic sector. There are limited industrial areas which can be able to absorb the technical skilled employees.

i. Molemole Employment Status

The percentage of economically active population increased significantly from 56.9% (61598) in 2011 to 56.9% (70 833) in 2016 (see **Table 1.5**).

Chapter 1

Description	2011	2016	Percentage change
Employed	15225	16,399	7.7%
Unemployed	11344	12,540	10.5%
Economically Active	61598	70833 ²	14.9%
Not Economically Active	46723	55656	19.1%

Table 1.5: Employment Status per sector. Statssa 2011 and 2016

j. Molemole Income distribution levels

As with education levels, income levels are concentrated in the low income categories and decrease in the high income brackets. This is an indication of poverty levels or state of communities. Figure 1.5 highlight income disparities across five categories:

The above figures show a greater number of people are earning in the R 1 to 19600 income category. This reflects inequality level which undermine efforts to address poverty levels in the municipality. The figure below shows the average household income in 2016.

² Based on extrapolation of 56.9% of EAP to the 2018 MDB population statistic.

Chapter 1

Figure 1.7: Average household income. *Statssa 2016 Community Survey*

k. UNEMPLOYMENT RATES.

Statistics SA (2011) reported an unemployment rate of 42.7% of the working age population (between 15 to 64 years old). Although this has reduced to 39.4% in 2016 as per Statssa Community Survey of 2016, the figure is still at an alarming rate. The main concern is the 52% of youth unemployment in the municipality. Something need to be done like job creation initiatives and promotion of youth entrepreneurship to address this crisis levels.

1.1. SERVICE DELIVERY OVERVIEW

1.2.1 SERVICE DELIVERY INTRODUCTION

A) NORMS AND STANDARDS ON WATER AND SANITATION PROVISION.

Water and sanitation provisions are guided by the Water Services Act (Act no. 108 of 1997) and National Water Act (Act no. 36 of 1998). The act provides for the rights to access to basic water supply and sanitation services, the setting of national standards and norms (relating to amount, quality, distance from point of use, etc.), protection of water resources, the accountability of the Water Services Providers, the monitoring of water supply and sanitation services. Capricorn District Municipality is still the Water Services Authority within Molemole municipality and as a result the service and maintenance of the water projects still lies with the District Municipality.

Chapter 1

B) WATER SOURCES.

Like other locals in the district the Municipality's source of water is groundwater. The low yields of borehole water are unable to meet the continuous needs of the residents. It is critical that the municipality find alternative sources of water to stem the tide of water shortage in the area. According to Statistics South Africa (2016) the main sources of water in the municipality is as per the table below:

Source of Water	% of the population	Number of Households
Borehole in the yard	14.70%	18,423
Borehole outside the yard	0.60%	693
Flowing water/stream/river	0%	0
Neighbours tap	6.40%	8,067
Other	1.60%	1,977
Piped (tap) water inside the dwelling/house	5.40%	6,720
Piped (tap) water inside yard	47.30%	59,293
Piped water on community stand	14.90%	18,627
Public/communal tap	5.10%	6,388
Rain-water tank in yard	0.20%	234
Spring	0%	0
Water-carrier/tanker	3.90%	4,906
Well	0%	0
		125,328

1.2. FINANCIAL HEALTH OVERVIEW

a) FINANCIAL OVERVIEW

GRAP requires that management performs a brief assessment of the going concern of the institution. Going concern assumption is a fundamental principle in the preparation of financial statements. Under the going concern assumption, an entity is ordinarily viewed as continuing in business for the foreseeable future with neither the intention nor the necessity of liquidation or ceasing trading. Accordingly, assets and liabilities of Molemole Local Municipality are recorded on the basis that the entity will be able to realize its assets and discharge its liabilities in the normal course of business. Management of Molemole Local Municipality confirms that no uncertainties were noted in making its assessment. The Municipality is currently facing no cash flow challenges, only general resistance mainly resulting from unpaid services by the surrounding communities, however these is a reason

Chapter 1

why a formal service(s) Debt Recovery Strategy was approved by Council and is currently implemented.

THE CURRENT RATIO

The current ratio is a liquidity ratio that measures the municipality's ability to pay its short-term debt. To gauge this ability, the current ratio considers the current total assets of the municipality (both liquid and illiquid) relative to current total liabilities.

NORM

The legislated norm ranges 1.5 to 2:1

The Current ratio:	2021/22	2022/23
Current assets	: R 178,937,736	R R193 452 922
Current liability	: R 34,595,810	R R35, 650,216
Ratio	5:1	5:1

b) INTERPRETATION OF RESULTS

The ratio 5:1 is way above the norm which means that the municipality will be able to pay its short term obligations with the available current assets. When comparing the current year ratio to the prior year it is stable, thus no indication of uncertainties on the liquidity of the municipality.

The Going concern assessment took into account all available information for the foreseeable future. Other factors considered include the ones below;

c) FINANCIAL INTERPRETATION

The Municipality's net assets amount of R 474 610 498 is positive; the Net working Capital of the Municipality is significantly in a healthy balance. The Municipality has been operating in a positive cash flow for the past financial year and it is envisaged that the trend will continue in the following financial year. All creditors were paid as per the goods and services offered. The Municipality does not have significant long term borrowings and do not have any loans with any 3rd party. There are no unplanned financial commitments with any party and priority is given to the already rolled over projects. All the projects listed on the commitments register were provided for on the approved municipal budget.

d) CONTINGENT LIABILITIES

The pending contingent liabilities as at end of June 2023 amounted to R 2 678 304. This will not threaten the going concern of the municipality even if it may be required to be paid. All pending legal or regulatory proceedings against the municipality will be resolved and amount due paid if required by law.

Chapter 1

e) CASH FLOW ANALYSIS

There are no borrowings approaching maturity without realistic prospects of renewal or repayment; or excessive reliance on short-term borrowings to finance long-term assets. The municipal cash flow indicated a positive balance which it has been maintained for the previous three consecutive financial years. A healthy cash flow has helped the municipality to honour its short-term obligations hence the high current ratio. Lastly, it is pleasing to report that the municipality did not have overdraft facility or any other short/long term loan liability during the year under review.

b) OTHER

The Municipality complied fully with statutory requirements. There are no pending legal or regulatory proceedings against the municipality that may, if successful, result in claims that the municipality is unlikely to be able to honour. There is no threat of any changes in law or regulation or government policy expected to adversely affect the municipality.

c) CONCLUSION

Based on the assessment performed above, Management of Molemole Local Municipality believes that the Municipality will continue to be a going concern in the foreseeable future.

The tables below give overall financial overview for the year under review:

Financial Overview: Year 2022/23			
R' 000

1.3. ORGANISATIONAL DEVELOPMENT OVERVIEW

a) ORGANISATIONAL DEVELOPMENT PERFORMANCE

The municipality developed a Workplace Skills plan (WSP) to guide provision of training to employees and Councillors. A total of two Learnership programmes were coordinated for employees and one Learnership for Councillors. An annual training report is submitted to LGSETA as part of compliance to legislative requirements. Training programmes covered **for officials** included National Diploma (NQF Level 5) in Municipal Finance and Administration, Further Education and Training Certificate (NQF Level 4), Municipal Finance and Administration, and Public Administration Certificate (NQF Level 5) for Councillors. We hope the skills acquired through the training will diligently be applied in their day to day activities at work, prepare them for promotional opportunities and help enhance

Chapter 1

their performance. These interventions will also assist the municipality in its retention and succession planning strategies.

The following Human Resource Committee have been put in place to assist with HR Governance issues:

- a. Training Committee
- b. Employment Equity Committee
- c. Local Labour Forum
- d. Health & Safety Committee

b) INTERNAL EMPLOYEE BURSARY PROGRAMME

- The following table outlines employees who benefitted from Municipal employee bursary scheme in the year under review:

Name of Course	Bursary Holder	Occupation	Name of Institution registered	Progress	Amount paid for 2022/2023
Bachelor of Public Administration	M Mothotse ME	Cashier Traffic	MANCOSA	In progress results submitted

c) INTERNSHIPS AND LEARNERSHIP

A total of three (3) internship and five (5) Learnership programs were coordinated during the 2022/23 financial year and were placed under Budget and treasury, Corporate services and Local Economic Development and Planning. Two Learnership programmes that started in 2022 will be completed during November 2023. The municipality has also created seven (7) opportunities for experiential training for students who need practical experience to qualify for their qualifications. During the year under review the municipality has given opportunities for learners in the areas of General Administration (3), Internal Audit (1) and Human Resource Management (3).

1.6 AUDITOR GENERAL REPORT B2021/2022

16.1 EXPLANATION TO CLARIFY MATTERS OF EMPHASIS IN THE 2021/2022 AUDIT PROCESS

a) Significant uncertainty

With reference to note 54 to the financial statements, the municipality is a defendant in a land claim amounting to R2 500 000. The ultimate outcome of the matter could not be determined and no provision for any liability that may result was made in the financial statements.

b) Material losses

As disclosed in note 65 to the financial statements, material electricity losses of R3 760 473 (2021: R2 149 130) were incurred, which represents 32% (2021: 20%) of total electricity purchased.

c) Material impairments

As disclosed in note 37 to the financial statements, material impairment of R3 258 960 was incurred as a result of providing for doubtful debts.

d) Underspending of conditional grants

As disclosed in note 31 to the financial statements, the municipality underspent the budget by R2 616 442 on the Integrated National Electrification Programme (Municipal) Grant.

e) COMMENT ON THE OVERALL PERFORMANCE OF FINANCIAL SERVICES

The Auditor General has concluded that the financial statements for the 2021/2022 financial year presented fairly, in all material respects, the financial position of the municipality, and its financial performance and cash flows in accordance with the standards of Generally Recognized Accounting Practice, the MFMA (2003) as well as Division of Revenue Act (2000).

Chapter 1

1.7 STATUTORY ANNUAL REPORT PROCESS

Molemole municipality has prepared the 2022/2023 Annual Report in line with a prescribed plan as per MFMA and Circular 63 of 2012. The first draft of the report is presented to Chief Audit Executive for review and ultimately submitted to Audit committee for 2nd review. The final draft will be tabled in an open Council and referred to MPAC to consult the public across all Wards on the performance of the municipality in the 2022/2023 financial year. Furthermore, the tabled draft Annual report will then be submitted to the office of Auditor General in line with subsection 127 (5) (b) of the Municipal Finance Management Act.

The Statutory process plan for the 2022/2023 Annual Report process is depicted in the table below:

No.	Activity	Timeframe
1	Consideration of next financial year's Budget and IDP process plan. Except for the legislative content, the process plan should confirm in-year reporting formats to ensure that reporting and monitoring feeds seamlessly into the Annual Report process at the end of the Budget/IDP implementation period.	July
2	Implementation and monitoring of approved Budget and IDP commences (In-year financial reporting).	
3	Finalise 4 th quarter Report for previous financial year	
4	Submit draft annual report (Annual Financial Statements and Annual Performance Report) to Internal Audit and Auditor-General	
5	Municipal entities submit draft annual reports to MM	
6	Audit/Performance committee considers draft Annual Report of municipality and entities (where relevant)	August
8	Mayor tables the unaudited Annual Report	
9	Municipality submits draft Annual Report including Annual financial statements and Annual performance report to Auditor General.	
10	Annual Performance Report as submitted to Auditor General to be provided as input to the IDP Analysis Phase	
11	Auditor General assesses draft Annual Report including Annual Financial Statements and Performance data	September - October
12	Municipalities receive and start to address the Auditor General's comments	November
13	Mayor tables Annual Report and audited Financial Statements to Council complete with the Auditor- General's Report	January
14	Audited Annual Report is made public and representation is invited	February
15	Oversight Committee assesses Annual Report	February - March
16	Council adopts Oversight report	March
17	Oversight report is made public	April
18	Oversight report is submitted to relevant provincial councils	April
19	Commencement of draft Budget/ IDP finalisation for next financial year. Annual Report and Oversight Reports to be used as input.	April

Table 1.10: Annual report process plan

1.8 COMMENT ON THE ANNUAL REPORT PROCESS

Chapter 1

The municipality will be implementing the above process plan to ensure a credible and compliant final Annual report. The report is developed internally through the office of the Manager: Executive Support in the office of the Municipal Manager.

CHAPTER 2 – GOVERNANCE

COMPONENT A: POLITICAL AND ADMINISTRATIVE GOVERNANCE

a) INTRODUCTION TO POLITICAL AND ADMINISTRATIVE GOVERNANCE

The municipality has the following governance structures to oversee its administrative functions: Audit Committee, Risk Management Committee, Senior Management and Extended Management Committee. All the governance committees are functional and are able to hold meetings as scheduled. Subcommittees have also been established in various areas to assist high order committees to advance internal control systems. During the year under review the municipality had subcommittees for the following areas: Health and Safety, Local Labour forum, Information and Communication systems, employment equity and *Batho Pele*. The municipal council has established its political governance structures to play oversight role on Management administration. These structures are discussed in the following section.

2.1 POLITICAL GOVERNANCE

a) INTRODUCTION TO POLITICAL GOVERNANCE

The Municipal Council, its committees, i.e. Portfolio committees, Sect, Ethics Committee, Executive Committee as well as Municipal Public Accounts Committee (MPAC) are functional and held their meetings in line with council approved corporate calendar. Council has also established the Women cause as per the guidelines of Salga and comprises of all Women councillors. Its main function is to advance the interests of women within various social walks of life. Councillor Kgopane has been appointed as the current chairperson of the women caucus and the Speaker plays political oversight over the caucus. The main challenge of the caucus is lack of budget allocation to can run its annual activities.

The portfolio committees held monthly meetings to consider issues within their key performance areas, e.g. Corporate Services, Technical services, Finance, Local Economic and Development as well as Community related issues. Generally, Portfolio committees consider reports of management and submit them for consideration by the Executive Committee for further adjudication. Ward Committees plays role of being local foot soldiers and advice Ward Councillors on service delivery issues affecting their villages within wards.

The Municipal Public Accounts committee played a critical oversight over Administrative activities. This involved project visits and monitoring and investigating matters referred to it by Council. In the year under review the MPAC has conducted project visits and monitoring as per table below:

Quarter	Number of projects visited	Projects visited and Wards
01	02	Fatima High Mast (Ward 11) Maponto High Mast (Ward 12)
02	0	None
03	04	Phaudi internal Street (Ward 16) Mogwadi Internal Street (Ward 10) Ga-Sako internal street (Ward 14) Botlokwa Ga Kgwadu Internal street (Ward 06)

Quarter	Number of projects visited	Projects visited and Wards
04	03	Ga Phaudi Internal street (Ward 16) Mohodi Sports Complex (Ward 11) Ramokgopa and Sefoloko Bridge (Ward 04)

b) Composition of Municipal Council

Total number of Council seats are 32 and compromises of the following political parties:

Political party	Total Seats
African National Congress	22
Economic Freedom fighters	06
Democratic Alliance	01
CICAF	02
Civic warriors	01
Total	32

Table 1.9: Council composition

f) POLITICAL DECISION-TAKING.

All Council resolutions are signed by Speaker of Council and Management is expected to implement them. Council meetings for the year under review have progressed well without any incidents that threaten to disrupt the sittings. Resolutions on municipal performance are referred to the Municipal Public Accounts Committee for review and quality assurance to ensure the community is getting value for money on service delivery projects and to also check compliance to relevant legislative framework.

The political executive structure of the municipality is depicted below:

**Cllr. M.E Paya
Hon. Mayor**

**Cllr. D. Matlou
Council Speaker**

**Cllr. M. E Rathaha
Whip of Council**

2.2 ADMINISTRATIVE GOVERNANCE

a) INTRODUCTION TO ADMINISTRATIVE GOVERNANCE

Other administrative subcommittees that assist Management in executing its functions are: Batho Pele committee, OHSa committee, Local Labour forum, Bid committees (Specification, Evaluation and Adjudication), Employment Equity committee and Training committee. The functionality of the above committees is key for the smooth functioning of the municipal administration.

We appreciate the indulgence of CDM for seconding an official to chair the Risk committee meetings whilst we were busy with recruitment processes for the chairperson. We wish that they can continue supporting the municipality and the current chairperson to continue with resolution of Risks and mitigating their possible effect on the long term sustainability of the Municipality. The strategic and operational risk registers for 2021/2022 financial year have been compiled and approved by Council with IDP. Emerging risk register was also updated owing to the Covid19 pandemic.

b) HOW THE MUNICIPAL MANAGER AND SENIOR MANAGERS WORK TOGETHER COOPERATIVELY IN THEIR THEMATIC AND SERVICE GROUP ROLES TO MAKE THE GREATEST IMPACT ON SERVICE DELIVERY

All Senior Managers account to the Municipal Manager as head of administration. This is done through Management committee, comprising of Executive Management as well as Extended Management committee meetings. Management committee meetings are held in line with the approved corporate calendar. Decisions of management inform the agenda for the relevant portfolio committee meetings. The Senior Managers are responsible for communicating with their respective departments through middle Managers and ensure that matters discussed at Senior Management level are cascaded down for effective execution of the targets set-out for each department per the IDP with respective middle managers. Decisions approved by Council are binding and become obligatory for management to implement them. Departmental Managers hold general staff meetings to cascade management decisions to all levels of employees and for implementation.

c) TOP ADMINISTRATIVE STRUCTURE

DESIGNATION	INITIALS AND SURNAME	Key Performance Areas
Municipal Manager	Mr. K.E Makgatho (six months)	Oversee overall administration of the municipality, interact with Mayor and Council committees, Implement Council resolutions and other Governance committees, Performance Management and Monitoring, Legal services, Enforce Internal Control systems, Risk Management, Implementation of IGR initiatives and Oversee functions of all municipal departments. N.B the contract for the Municipality came to an end by end of February 2022. Mr. Makgatho was appointed as Municipal Manager from 1 st January 2023.

Limpopo Tourism forum	Provincial
Local Committee	Local
LED forum	Local

b) RELATIONSHIPS WITH MUNICIPAL ENTITIES

The Municipality does not have any entity.

COMPONENT C: PUBLIC ACCOUNTABILITY AND PARTICIPATION

a) OVERVIEW OF PUBLIC ACCOUNTABILITY AND PARTICIPATION

The continued success of a municipality is determined to a large extent, on the accountability of all key role players and stakeholders in the local governance process. The municipality public accountability is premised on the vision and mission that puts people at the forefront in all the developmental agenda. The IDP process plan is a tool used to involve the communities to undertake all the stages of IDP development. Public participation for this Annual report will be conducted to ensure the public is given an opportunity to comment as required by applicable legislation. Accordingly, a draft Annual report will be publicized after the Mayor has tabled it in Council meeting in January 2023. The Municipal Public Accounts Committee will also conduct oversight processes through public consultations on the draft Annual report and present the oversight report to Council within two months after the draft has been tabled.

2.4 PUBLIC MEETINGS

a) Communication, Participation and Forums

Public engagements with communities is an important activity for the municipality as it is provided for in Chapter 7 of the Constitution of the Republic of South Africa, 1996 (Act 108 of 1996), as amended. The Municipality has engaged the public through the following forums in the year under review:

Public participation event	Purpose of the event	Number of events held
Mayoral Imbizo	Mid-year and Annual service delivery report	02
16 days of Activism for no violence against women and children	Annual awareness campaigns in support of national campaign against GBV	01
Annual Youth dialogue	To find practical ways to empower youth through job creation and entrepreneurship	02
LED forum	Support for Local Economic Development	04
IDP Rep forums	Meeting of local, district and provincial stakeholders on IDP	03

b) Ward Committees

Ward Committees are a structure of Council established in line with section 80 of the Municipal Structures Act, 1998 (Act 117 of 1998). They play an important role of serving as an important link between the community and the municipality. The term of all the Ward Committees came to an end

following the end of the term for the previous Council in November 2021. The Ward Committees are functional and hold meetings in line with the schedules. Appendix E outlines the number of meetings held by Ward Committees during the year under review.

2.5 IDP PARTICIPATION AND ALIGNMENT

IDP Participation and Alignment Criteria*	Yes/No
Does the municipality have impact, outcome, input, output indicators?	Yes
Does the IDP have priorities, objectives, KPIs, development strategies?	Yes
Does the IDP have multi-year targets?	Yes
Are the above aligned and can they calculate into a score?	Yes
Does the budget align directly to the KPIs in the strategic plan?	Yes
Do the IDP KPIs align to the Section 57 Managers	Yes
Do the IDP KPIs lead to functional area KPIs as per the SDBIP?	Yes
Do the IDP KPIs align with the provincial KPIs on the 12 Outcomes	Yes
Were the indicators communicated to the public?	Yes
Were the four quarter aligned reports submitted within stipulated time frames?	Yes
* Section 26 Municipal Systems Act 2000	

COMPONENT D: CORPORATE GOVERNANCE

a) OVERVIEW OF CORPORATE GOVERNANCE

Molemole municipality consists of nine service points for the residents in both Mogwadi, Morebeng and Moletji Ga Phaudi, two Driver's License and Testing centers (DLTC). The municipal head office is stationed in Mogwadi where the Political Management team and three full time Councillors are based. There is also Technical Office and Library services in Mogwadi and Morebeng. There are two satellite offices located in Morebeng and Moletji (Ga-Phaudi village). The municipality has entered into a service level agreement with departments of Sports, Arts and Culture and Transport for the running of Library Services and Licensing Services, respectively. The Municipality is pleased to report that during the year under review an agreement was reached with the department of Transport to convert part of Moletji satellite office to provide traffic and licensing services. This will help communities from Ward 15 and 16 to renew motor and driver's licenses and learner's licenses. The office is currently under upgrade to make sure it complies with regulatory requirements and should be operational from the 4th Quarter of the financial year.

2.6 RISK MANAGEMENT

The Municipality has a fully functional Risk Management committee, which is chaired by an independent person. Other members of the committee are all Senior Management team members and the Risk Officer is responsible for providing administrative support to the committee.

The Municipality had developed Strategic and Operational Risk register to help in monitoring management of Risk within the municipality. The Strategic risk register is used by Internal Audit to develop an Annual Risk-based Audit Plan. The Risk management committee hold quarterly meetings to check progress in relation to mitigation and resolution of identified risks. The Chairperson of the committee submit quarterly reports to the Audit and Performance Committee.

Furthermore, the Risk Management committee has approved and continues to monitor implementation of Risk Management policies.

Below is a list of Strategic risks applicable during the 2022/2023:

No	Strategic objective	Risk description at Strategic Objective level	Risk category	Primary Cause (Risk at Operational level)	Secondary Cause (Risk at Business unit level)	Effect (Impact)
1	To increase the capability of the municipality to deliver on its mandate	Electricity Distribution Losses	Service delivery	Poor Monitoring of electricity connections	Theft and vandalism of electrical infrastructure	Illegal Connections
2	To increase the capability of the municipality to deliver on its mandate	Service Delivery Protest	Social environment	Inadequate provision of service delivery	Poor service delivery	Reputation risk
3	To promote sustainable basic services and infrastructure development	Inadequate revenue collection	Revenue Collection	Nonpayment of services	Municipality may not be financially sustainable	Downgrading of the municipality
4		Non adherence to SCM policy	Financial Viability	Noncompliance to SCM legislations	Unauthorized, irregular and fruitless expenditure may occur	Negative Audit opinion
5	To ensure sound and stable financial management	Incomplete assets register	Financial Viability	Inadequate physical assets verification	Under or overstated assets register	Loss of municipal assets

No	Strategic objective	Risk description at Strategic Objective level	Risk category	Primary Cause (Risk at Operational level)	Secondary Cause (Risk at Business unit level)	Effect (Impact)
6		Material misstatements in the Annual financial statements(AFS)		Non adherence to AFS process plan timeline and GRAP.	Misalignment of transactions and reporting items due to MSCOA implementation	Negative Audit Outcome
7	To -provide sustainable basic services and infrastructure development	Failure to implement projects in the IDP	Service Delivery	Poor planning and budgeting	Withdrawal of funds by National Treasury	Community unrest
8		Inability to provide service in case of disaster		Lack of business continuity plan	Business instability	Loss of municipal data
9	To ensure institutional structures and plans are properly resourced to respond transformational objectives	Inadequate provision of intergraded waste management services	Service Delivery	Insufficient budget allocations	Negative impact on environmental resources	Community unrest
10		Illegal land occupation and land use	Service Delivery	Dispute on ownership of land	Litigations and loss of revenue	Land invasion
11	To encourage good governance and public participation	Inability to enforce By-Laws	Compliance	Outdate by-laws	Litigations	Bad reputations
12	To increase the capacity of the municipal to deliver on its mandate	Abuse of subsistence and traveling allowance (S&T) subsistence	Performance management	Mismanagement of travelling allowances	Dishonesty in subsistence and traveling allowance (S&T)	Fraud within the municipality
13		Slow economic growth	Economic development	Inadequate economic activities	Deteriorating macro-economic conditions globally and nationally	High rate of unemployment

2.7 ANTI-CORRUPTION AND FRAUD

a) ANTI-FRAUD AND CORRUPTION STRATEGY

Legally, fraud is defined as the unlawful making of a misrepresentation with the intention to defraud, that causes prejudice or potential prejudice to another. The municipality has put internal control systems in place to ensure early detection of fraudulent activities. We acknowledge fraud and corruption rob our people of the quality of services they deserve. The Municipality continues to warn the members of the public to be aware of faceless people who claim to be working in the Supply Chain Management of the Municipality, promising unsuspecting service providers preference for municipal tender awards. The Municipality follows relevant legislation and policies when adjudication supply chain processes and does not request any kickbacks before awarding of tenders.

One fraud awareness campaign was conducted with the Councillors during the financial year. The Risk Unit has facilitated the signing of declaration of interest forms by the employees to avoid conflict of interest. Members of the community are therefore urged to report any incidents of fraud and corruption to the hotline number: 0800 205 053 or email to: cdm@tip-offs.com or www.tip-offs.com.

b) Internal Audit

The Internal Audit unit report directly to the office of the Municipal Manager and is responsible to assist the municipality to meet their objectives and to discharge their responsibilities by providing an independent appraisal of the adequacy and effectiveness of the controls developed by management. The Internal Audit is responsible for developing and implement Risk-based Audit plan as well as to monitor the Annual Audit Action Plan from the Auditor-General report. A total of four (04) Steering Committee meetings were coordinated during the year to monitor resolution of Audit findings (both Internal and AG action plans) as well as implementation of Audit Committee resolutions. The unit has further coordinated a total of four (04) Audit Committee meetings during the 2022/2023 financial year.

During the 2022/2023 financial year the Internal Audit unit has reviewed the following strategic documents:

- 2022/2023 Annual Financial Statements
- 2022/2023 Annual Performance Report
- 2021/2022 Annual Report
- 2022/2023 Quarterly SDBIP Performance reports
- 2022/2023 Mid-year SDBIP Performance reports

2.8 SUPPLY CHAIN MANAGEMENT

2.8.1 OVERVIEW SUPPLY CHAIN MANAGEMENT (SCM)

Section 217(1) of the Constitution of South Africa requires that every organ of the state and all public institutions and related structures shall contract for goods and services in accordance with a system which is Fair, Equitable, Transparent, Competitive and Cost effective.

The above principles are ushered and are made alive through a range of legislation and supply chain management is governed and enforced in compliance with the constitutional principles through the Preferential Procurement policy framework Act of 2022) and associated regulations. The municipality applies SCM principles to procure goods and services for the municipality.

2.8.2 SCM POLICY

The council of the Municipality approved the supply chain management policy together with the IDP in June 2021. The policy is in line with requirements of section 112 of the MFMA as well as principles outlined in Municipal Supply Chain Regulations (2005). The SCM practices are also guided by the various Circulars issued by Treasury from time to time. The provisions of these circulars are filtered in the SCM policy during Annual policy reviews. The policy review is also guided by shortcomings identified during Audit process, both internally and externally as well as during the implementation of the policy.

2.8.3 SCM UNIT

The SCM unit falls under the Budget and Treasury Department and consists of the SCM Manager who reports directly to the Chief Financial Officer. There is also the Accountant Asset, Assistant Procurement Officer, Bid Assistant Officer and an Inventory Clerk. The CFO is the ultimate Accounting Officer for the department.

2.8.4 BID COMMITTEES

All members of bid committees are delegated in writing by the Municipal Manager to serve on these respective committees. These delegations are accepted in writing by each appointed member who have to sign off the appointment. The Municipality has coordinated 01 training programmes for the Bid Committees to ensure they are kept abreast of latest changes in legislations and to learn best practices from other institutions. Each Bid Committee has got an SCM Official who serve as the resource person for the committee and to also advice on compliance issues during the sessions. The Bid Committees were constituted as follows during the 2022/2023 financial year:

a. Bid Specification Committee Members

Names	Official Position Held	Responsibility
Mr. Mashotja M.F	Manager: Town Planning and Regional	Chairperson
Ms Seema L.	Bid Officer	SCM Official
Mr. V Mabasa	Technician Roads	Member
Mr. MJ Mabetwa	Manager: Mechanical and Electrical	Member

b. Bid Evaluation Committee Members

Names	Official Position Held	Responsibility
Mr. N Modisha	Manager: Executive Support	Chairperson
Ms A. Kwakwa	Procurement Officer	SCM Official
Ms. M. Mogakane	Manager: PMS	Member
Mr. E. Kwata	PMU Technician	Member
Mr. A. Nkalanga	DCFO	Member

c. Bid adjudication Committee Members

The Bid Adjudication committee is composed of All Senior Managers except the Municipal Manager who will be receiving recommendations for tender awards.

A total of 6 tenders were cancelled during the year and review and about 28 were recommended for re-advertisement. In the section below we outline statistical information on tender awards.

2.8.5 Tender Adverts and Awards

Tenders are advertised on a municipal website and Tender documents are uploaded and downloadable on a municipal website. A total of 24 tenders were awarded during the 2022/23 financial year at a total value of R **54 128 547, 89**

Qtr.	RFQ	Tender	Totals
1st Q	8 620 874,52	9 303 593,52	17 924 468,04

2.9 BY-LAWS

a) Introduction to By-laws

Capricorn District Municipality have developed Waste Management by-law for the municipality to help in managing waste management within the municipal jurisdiction. The municipality has developed two by-laws: Cemetery and outdoor advertising.

b) COMMENT ON BY-LAWS:

The Local Economic division has developed draft by-laws for street trading, outdoor advertising. The by-laws will be presented to Council for approval and subsequently for public consultation.

2.10 WEBSITES

a) COMMENT MUNICIPAL WEBSITE CONTENT AND ACCESS

Molemole municipality conforms to section 21 of the Municipal Systems Act, 2000 (Act 32 of 2000 as amended) and section 75 of the Municipal Finance Management Act, 2003 (Act 56 of 2003), whose main objective it is to notify the community about municipal events or any statutory matters which are of public interest. During the financial year the municipal website was used to publicise notices on Mayoral outreach programmes, section 71 reports, Quarterly reports, all budget related reports in the spirit of openness, accountability and transparency as espoused in section 195 of the Constitution of 1996, (Act 108 of 1996). The website is also used to publicize government wide reports as well as other service delivery programmes.

Municipal website: content and currency of material		
Documents published on the municipality`s /entity`s website	Yes/No	Publishing date
Current annual and adjustment budgets and all budget related documents	Yes	Annually
All current budget related policies	Yes	July 2022
The previous annual report (2021/22)	Yes	31 March 2023
The annual report for 2022/23 published / to be published	Yes	31 March 2024
All current performance agreements required in terms of section 57 (1) (b) of the MSA and resulting score cards	Yes	31 July 2023

b) Communication with Internal stakeholders

Communication unit is responsible for communicating with Councillors, Employees, Molemole residents. Bulk sms, private mail accounts and WhatsApp are used to interact with these stakeholders on issues relating to municipal functions.

2.11 PUBLIC SATISFACTION ON MUNICIPAL SERVICES

The municipality attends uses the following channels to afford the community to report on service delivery complaints and suggestions: -

- Presidential and premier hotlines
- Suggestions boxes
- Suggestion books.
- Through our social media, i.e. Facebook and Twitter.
- Community Protests
- Municipal Outreach programmes

The Municipality has seen an increase of reported complaint cases from seven (07) in the 2021/22 financial year to seventeen (17) in the 2022/2023 financial year. Although this is a huge increase we are pleased to report that all cases have been resolved. The table below outline cases per department and their status.

Division	Total cases received	Total cases resolved	Total outstanding cases
Budget & Treasury	01	01	0
LEDP	01	01	0
Technical department	15		0
Road	04	04	0
Water & Sanitation	11	11	
TOTAL CASES	17	17	0%

2.11 Municipal Oversight Committees

Molemole Municipality takes issues of accountability very serious hence the Council has established various committees to help in monitoring of management activities. It is believed that continuous monitoring will help the municipality to account to the public on the use of the resources to provide services to the people. The following oversight committees have been established and performed their functions during the 2022/2023 financial year:

Committee	Members
Municipal Public Accounts Committees	Rathete P.T, Modiba M.G, Nong M.C Nakana S.R, Machaka C.M, Matjee M.C, Ramarutha E.M, Kubyana M.KJ and Sekgota N.J
Municipal Audit Committee	Mr. Ngobeni, Nevhutalu T, Lekoloane T, Monobe T.E
Risk Management Committee	Mr Mathibela (Chairperson), Senior Managers, Risk Officer

Refer to appendix B for other Committees which were available during the year under review.

a) CHALLENGES ON COMPLAINTS MANAGEMENT

There are generally no challenges experienced with regard to the complaints management system. We however urge community members to first engage with their respective Ward Councillors on service delivery issues before reporting them in the Premier and presidential hotlines. Community members can also visit our offices to report their complaints in order for us to speedily resolve them. This however does not discourage members of the community to report complaints and comments on the Premier and Presidential hotlines.

**CHAPTER 3 – SERVICE DELIVERY PERFORMANCE
(PERFORMANCE REPORT PART I)**

Chapter 3

COMPONENT A: BASIC SERVICES

a) INTRODUCTION TO BASIC SERVICES

Section 152 (1) (b) of the constitution of South Africa, 1996 (Act 108 of 1996), as amended obligates Molemole municipality to provide sustainable services to communities. Provision of basic services is the main constitutional mandate assigned to a local municipality. The basic services in the context of Molemole municipality include water, sanitation, electricity, waste management, free basic services to support the indigents. Provision of water remain the most critical basic service that a municipality can give to the communities.

3.1. WATER PROVISION

The overall responsibility to supply water is with the Capricorn district municipality, which is the water service Authority. The responsibility to provide a consistent supply of water is both in Mogwadi and Morebeng as well as in all the villages. Capricorn district has the responsibility to maintain the water infrastructure in all the areas of Molemole Municipality. However, the municipality, as the water services provider contribute through personnel to assist with delivery of water through water tankers and also for routine maintenance of water and sanitation infrastructure. There are about seven water tankers assigned to the municipality and five of the them are working. We hope that the other two will be serviced in order ensure we are able to cover all villages with water provision.

a) COMMENT ON WATER SERVICES PERFORMANCE OVERALL:

The main challenge faced by communities is the continuous vandalism and theft of water infrastructure. This affect the ability of the municipality to provide a consistent supply of drinkable water to our communities. We call on the communities to report these incidents to the law enforcement authorities so that culprits can be brought to book.

3.2 WASTE WATER (SANITATION) PROVISION

a) INTRODUCTION TO SANITATION PROVISION

Sanitation, or waste water services is also a function of the Capricorn District Municipality. It remains the responsibility of the district to provide sanitation facilities to the residents of Mogwadi, Morebeng as well as in all the villages of the municipality. Mogwadi and Morebeng have flush toilet systems while the other villages are using Pit latrines either provided by the district or the families are able to build one for themselves. Municipality continues to work with the district to provide Sanitation to the deserving family and help with identification of beneficiaries through the Ward Councillors. In the year under review a total of Five hundred and fifteen (515) sanitation units have been completed in Molemole. Two hundred and eighty units (280) for Marowe, Hundred and ten (110) for Sekuruwe and Hundred (100) for Ga-Kolopo village. Twenty-five were still under construction at Ga- Maribana village.

Chapter 3

b) COMMENT ON SANITATION SERVICES PERFORMANCE

Our engagement with the district will continue to ensure we cover as many deserving households as possible to reduce the sanitation backlog as identified by Statssa during the 2016 household survey.

<i>T 3.2.8</i>					

Chapter 3

3.3 ELECTRICITY

a) INTRODUCTION TO ELECTRICITY

The main source of electricity within the municipality is Eskom. The municipality haven't as yet made investments on solar power supply services as an alternative to electricity. But in the year under review the municipality have received proposals from prospective investors on solar technology. It is our objective to embrace this type of technology given the disadvantages that come with a heavy reliance on electricity.

Currently the municipality is licensed to reticulate electricity in the two towns and one village, i.e. Mogwadi, Morebeng and Fatima extension respectively, however Fatima has not yet energized. All the necessary infrastructure for Fatima project has been installed and we are only waiting for Eskom to assist with Energizing. This is even more important considering that there is risk is vandalism of infrastructure by criminals. We are calling on the residents of Fatima extension to safeguard the infrastructure against vandalism to avoid further delays during energizing by Eskom. We will keep on engaging Eskom to ensure Energizing is done so that the people can enjoy the benefits of electricity in the area. The following capital projects were implemented in the 2022/2023 financial year:

Project Name/Village name	Ward number	Budget (R'000)	Number of connections	Status
Supply, delivery and installation of two power transformers and one mini substation	1 & 10	2 700 000	3	Completed and awaiting Energizing
Electrification of Maponto and construction of the bulk point supply in Fatima	11 & 12	10 000 000	400	Maponto electrification Completed, Bulk point awaiting energization
Supply, delivery and installation of x3 of high mast lights in Sekonye, Nyakelang and Mohodi Newstand B	5,9 & 13	1 850 000	3	Completed
High mast lights(Maponto, Sebone, Makwetja, Sekakene GA-Machaka, Fatima and Mabitsetla(Rolled over)	2,4,8,11,12&16	3 600 000	6	Completed

The municipality acknowledge the persistent electricity losses experienced year in year out and in the year 2022/23 the municipality managed to decrease the losses to 22%. It has been discovered that one of the causes of these losses are illegal connections in the two licensed areas. Another cause of this problem is the ageing and antiquated infrastructure. To address this problem, the municipality has made budget provision to install smart meters which will serve as an effective internal control to pick up illegal connections from the desktop. The one old Mini substation and two power transformers were replaced in the 2022/23 financial year and are awaiting energizing as reported in the table above. Below is a table showing financial performance for the 2022/23 under Electricity services:

Chapter 3

3.4 WASTE MANAGEMENT

a) INTRODUCTION TO WASTE MANAGEMENT

Molemole municipality aims to achieve the target set by the National Government for refuse collection, disposal sites, street cleaning and recycling. Molemole has three licenses for waste disposal, the Mogwadi, Morebeng and Ramokgopa landfill sites but only two landfill sites (Mogwadi and Morebeng) are currently in use to dispose waste from the two towns and surrounding villages. The function for Waste management resides within the Community Service department and is led by Superintended Waste and Environmental Management. The Waste collection is rendered mainly in Morebeng Towns and Mogwadi Town. The municipality also receives EPWP grant from the department of Public works and has recruited a total number 79 beneficiaries in the 2021/2022 financial year under review to assist with Waste Collection services.

Currently, refuse collection is done consistently in Mogwadi and Morebeng towns and benefit about 2664 households. Refuse collection services in the residential areas is rendered once a week and twice a week for businesses. These includes residents qualifying for free basic services. The municipality has commenced with bulk refuse collection (garden waste and builders' rubble, etc.) and has purchased a further 10x bulk containers to continue the roll out. The Capricorn District municipality has donated 30x bulk refuse containers (Skip bins). The department of Community Services has developed a programme in 2021/2022 financial year of conducting a verification process for illegal dumping for the easy fair distribution of the skip bins to various wards. Waste collection for bulk refuse containers is done on a weekly basis. A Service level agreement was entered into with Property owners of Botlokwa shopping complex for bulk refuse removal, providing another revenue stream for the municipality

The municipality made provision for the development of Integrated Waste Management Plan. The project has been implemented and the service provider has submitted the final draft to serve as a guide to deal with the illegal dumping within our communities. The IWMP has been adopted by the municipal council and endorsed by the MEC for COGHSTA Limpopo. The IWMP will assist in identifying gaps in the current waste management practices within the municipality such that waste management planning can focus on addressing the major shortfalls in respect of current waste management practices. The Waste Management By-Laws have been developed and adopted by council. The by-laws will regulate the affairs of waste management and services within the jurisdiction of Molemole. The table below outline solid waste service delivery levels in the year under review:

Chapter 3

SOLID WASTE SERVICE DELIVERY LEVELS		
Description	2021/22 Actual No	2022/23 Actual No
Solid waste removal: (minimum level)		
<i>Removed at least three times a week</i>	2664	2664
Removed less frequently than once a week	0	0
Using communal refuse dump	0	0
Using own refuse dump	0	0
Other rubbish disposal	0	0
No. of rubbish disposal sites	2	2
<i>Total number of households</i>	2664	2664

				0%	0
<i>Total project value represents the estimated cost of the project on approval by council (including past and future expenditure as appropriate).</i>					
<i>T 3.4.9</i>					

Chapter 3

3.5 HOUSING

Molemole is not a housing implementation agency but depends on COGHSTA for provision of RDP houses. In the year under review the municipality was allocated 125 units for distribution to qualifying beneficiaries. The Municipality has worked with Ward Councillors to identify beneficiaries and it was allocated as follows:

Wards	Number of Beneficiaries
04 and 07	20 (10 per Ward)
01, 10 and 13	27 (09 per ward)
02, 03, 05, 06, 08, 09, 11, 12, 15 & 16	70 (07 per ward)
14	08
Total allocation	125

We appreciate the support of traditional authorities for allowing us to use their space for this project. As at the end of the financial year the municipality was awaiting COGHSTA to hand over the contractor for the construction of the allocated units.

a) HOUSING CHALLENGES.

As at the end of the financial year the municipality was awaiting COGHSTA to hand over the contractor for the construction of the allocated units. There is a still a backlog for those qualifying to get the RDP houses which need to be addressed. We shall continue our engagement with COGHSTA to speed the process of increasing the allocation for the municipality.

3.6 FREE BASIC SERVICES AND INDIGENT SUPPORT

a) INTRODUCTION TO FREE BASIC SERVICES

The Free Basic Services Unit has rolled out much needed free basic services to indigent households in this financial year with great impact on free water, sewerage, sanitation and electricity. A total of 4907 households received free basic electricity in Mogwadi, Morebeng and Villages in all sixteen (16) wards. This is a decrease of 5% compared to the 5 168 beneficiaries for 2021/2022 financial year. The Municipality is also providing a rebate to about 56 households (out of 1200) in both Mogwadi and Morebeng on free basic water, refuse, sanitation and on sanitation services. We will continue with campaigns to locate more qualifying beneficiaries in order to extend the service to them. Members of the community are there urged to consult the municipality for further information on how to apply for the rebates.

The table below

Chapter 3

- Furthermore, table T 3.6.3 below outlines number of households benefiting from free basic services in the year under review:

Free Basic Services To Low Income Households										
Financial Year	Number of households									
	Total	Households earning less than R3,500 per month								
		Free Basic Water			Free Basic Sanitation		Free Basic Electricity		Free Basic Refuse

Chapter 3

COMPONENT B: ROAD TRANSPORT

3.7 ROADS

a) INTRODUCTION TO ROADS

Molemole municipality relies mostly on the Municipal Infrastructure Grant (MIG) to implement road infrastructure projects to reduce the road infrastructure backlog within our communities. MIG allocation in the 2022/2023 financial year was R 39 000 000 compared to R 37,000 000 in the 2021/22 financial year. This represents an increase of 9.44 % (or R 2,067 000). Five percent (or R 1,950,000) of the allocation went to cover PMU overheads (salaries, furniture and office equipment). The funding was used to implement the following road infrastructure projects:

Item	Project Name	Ward(s) benefitted	Contract Amount	Expenditure	% Construction
1	Ga-Sako Upgrading of Internal Streets-1.7km	16	R 12 225 832,50	R 12 225 777,63	100%
2	Mokgehle upgrading of internal streets-1.6km	14	R 12 000 000,00	R 11 999 820,79	100%
3	Maupye upgrading of internal streets-1.5km	11	R 12 014 381,00	R 12 009 946,88	100%
4	Mogwadi upgrading of internal streets-0.6km	10	R 5 562 186,50	R 5 562 186,50	100%
5	Supply, Delivery and Installation of 10 Culvert Bridges	1,2,3,4,5,7,8,9	R 3 581 815,88	R 3 575 800.01	100%
6	Construction of 3 Culverts Bridges	11,12,13	R 2 816 781.83	R 2 816 781 .83	100%

3.8 TRANSPORT (INCLUDING VEHICLE LICENSING & PUBLIC BUS OPERATION)

a) INTRODUCTION TO TRANSPORT

Public transport forms a key part in the socio-economic development of our municipality. It also assists in providing communities with access to opportunities outside the local community. This is important to our Municipality as there are no opportunities for sustainable employment in most villages. The communities are mostly dependent on public transport to reach health care facilities, schools and other social facilities.

Chapter 3

The Limpopo's road network within the District consist of National, Provincial and District roads. The national roads are managed by SANRAL, Provincial and District road network is managed by Road Agency Limpopo and the Provincial Department of Public Works, Roads and Infrastructure. The municipality has Law Enforcement Officers and through concerted law enforcement and educational campaigns, we strive for the reduction of fatal crashes on our municipal roads especially along the N1 from Polokwane to Musina. The municipality is operating two Driver's License and Testing Centres operating in Mogwadi and Morebeng. There are plans underway to also convert Moletji Satellite office into a Licensing service. For the year under review the two Centres have processed a **total of 6060 driver's licenses and 4387 learner's licenses. A further 10 of received applications for vehicle registrations were processed.**

The railway line that runs between Musina and Johannesburg passes in our municipality with Morebeng as one of the stations. There is no landing strip in the municipal area. Apart from the road network, there is a railway line servicing the Molemole LM. This line links Polokwane to Makhado and other towns in the north and south via Molemole LM in a north-south direction. Currently this line only provides a freight service and long distance passenger service. There is a need to unearth economic activities emanating from this railway line. Being a municipality that its economy is mainly on agriculture, the railway could serve as a link to transport fruit and vegetables to the market.

The municipality now have eleven existing and functional scholar patrol points attended to within the municipality. Due to a skeletal traffic staff other scholar patrols are conducted by the Molemole Community Safety Forum (CSF). The patrol points are:

- Dendron primary school
- Deelkraal primary school
- Boduma primary school
- Lephale primary school
- Kgothloana primary school
- Nhlodimele primary school
- Nanedi primary school
- Phala primary school
- Lehaiwa secondary school
- Kgwadu primary school
- Makgato cross

b) CHALLENGES PERTAINING TO PUBLIC TRANSPORT.

- Lack of efficient public transport accessibility due to poor road infrastructure;
- High taxi fare tariffs in areas where road infrastructure is poor;
- Increased motor vehicle ownership and reluctance to use public transport;
- None compliance with transport permits to public transport owners, especially the bus and taxi industry;
- Lack of access to, and within villages;
- Lack of storm water provision on most of our municipal roads;
- Lack of fencing on some of key strategic Municipal, Provincial and National Roads;
- Stray animals cause accidents which at some stage claims many lives and
- Lack of clear road markings and signage.

3.9 WASTE WATER (STORMWATER DRAINAGE)

During the year under review maintenance of storm water infrastructure was done as per the table below:

Storm water Infrastructure				Kilometers
	Total Storm water measures	New Storm water measures	Storm water measures upgraded	Storm water measures maintained
2019/20	145	20	3	110
2020/21	165	20	5	130

T3.9.6

COMPONENT C: PLANNING AND DEVELOPMENT

3.10 PLANNING

a) INTRODUCTION TO PLANNING

The municipality's planning strategy is to promote Spatial Transformation and development through the implementation of the Integrated Development Planning and Land Use Management Systems. The regional and local context analysis of Molemole has revealed a Municipality that is characterized by a fragmented spatial structure comprising of small, low density, spatially segregated settlements with limited economic and social opportunities which have created unviable and unsustainable settlements. Molemole Municipality is a rural municipality characterized by sparsely populated areas in which people predominately practice both subsistence and commercial farming, villages or informal settlements as well as small towns. The municipality comprises of 3 types of Land Tenure Systems Namely Private, Municipal and Traditional Authority. The municipality settlement hierarchy is characterized by first order (Hamlets), second order (Villages) and third order (Small towns) settlement patterns.

During the year under review the Municipality has implemented the following projects as part of the Municipal Development programme:

- Twelve (12) Locally based Emerging farmers were recruited and provided with Mentoring on Agricultural farming
- Two (2) smmes have been supported by Municipality for a period of three months.
- Sixty-four (64) assorted seeds were procured for distribution to identified beneficiaries who have got a passion for farming. The main objective is to generate interest among the youth and the Municipality committed through budget allocation to continue with the support

Budget allocation will be made in the 2023/2024 financial year for the development of Growth and Development Strategy as well as Geographic Information System (GIS). The Municipality has experienced one incident of illegal occupation of vacant land. As at close of the financial year we were busy dealing with the matter. The tables below will give statistical information on applications for Land use Management. This is part of aiding development in the area.

Applications for Land Use Development

3.11 LOCAL ECONOMIC DEVELOPMENT (INCLUDING TOURISM AND MARKET PLACES)

a) INTRODUCTION TO ECONOMIC DEVELOPMENT

The national local economic development framework defines LED as the process by which public, business and non-governmental sector partners work collectively to create better conditions for economic growth and employment generation with the objective of building up the economic capacity of a local area to improve its economic future and the quality of life for all”.

The purpose of local economic development (LED) is to build up the economic capacity of a local area to improve its economic future and the quality of life for all. It is a process by which public, business and nongovernmental sector partners work collectively to create better conditions for economic growth and employment generation. Some of the LED goals include:

- Ensuring that the local investment climate is functional for local businesses;
- Supporting small and medium sized enterprises;
- Encouraging the formation of new enterprises;

LED is never the business of some unit of the municipality alone. It’s a collaborative effort between government, business, civil society, labour, academia, State Owned Entities and the voluntary sector as well as individuals. Collaboration spans planning, funding, implementing, monitoring, reporting and review of programmes.

KEY PERFORMANCE AREA	LOCAL ECONOMIC DEVELOPMENT	
Priority Area	Strategic Objective for the KPA	Strategies per priority area
Local Economic Development	Ensure continuous stakeholder engagements for creation of conducive environment for new innovation and initiatives as stipulated in the LED Strategy	<ul style="list-style-type: none"> ▪ To unlock economic potential by creating a conducive environment for investment to facilitate economic growth and sustainability. ▪ Ensure continuous stakeholders engagements for creation of conducive environment for new innovation and initiatives ▪ To continuously provide support to the SMME’s through formation of partnerships with key stakeholders

Molemole is rich and very active when it comes to agricultural activities. About 29,9% of all households practice livestock farming with 24,1% farming poultry, 13,5% planting vegetables, 21,8% planting other crops other than vegetable while 10,7% are practicing any other farming activities.

Job Creation through EPWP and CWP

The municipality is pleased to announce that the CWP programme is still continuing in the current financial. The CWP is a government's initiative to provide a job safety net for unemployed people of working age. Beneficiaries of this programme help with community cleaning campaigns in the neighborhoods for a monthly stipend. At the beginning of the financial year the municipality had about 1 065 participants in the programme. To date more than 252 additional beneficiaries were recruited to increase the overall number of beneficiaries to 1 315. This is part of our commitment to contribute to job creation and enable more people to participate in the economic mainstream. Furthermore, a total of 60 job opportunities were created for EPWP programme deployed within the municipality. Summary of jobs created through EPWP and CWP Projects

COMPONENT D: COMMUNITY & SOCIAL SERVICES

3.12 LIBRARIES; ARCHIEVES; MUSEUMS; GALLERIES; COMMUNITY FACILITIES; OTHER (THEATRES, ZOOS, ETC)

a) LIBRARIES

The municipality has three functional libraries, Mogwadi, Ramokgopa and Morebeng. For extension of services to schools, there are seven mobile libraries at Rakgasema Pre-School in Eisleben, Kgwadu Primary School in Sekonye, Itshomeleng Primary School in Nthabiseng, Sefoloko High School in Mokomene, Mangwato Primary School in Mohodi and Seripa High School in Brussels. The Librarians visit these mobiles once a month for support and monitoring. Shortage of staff and furniture are challenges still identified in 2021/22 and also the consistent cut-off of electricity.

The municipality has a Service Level Agreement with the Department of Arts and Culture where issues pertaining to support from the department in terms of provision of personnel, equipment and maintenance of infrastructure are clearly outlined. The department of Arts Sports & Culture seconded two (2) additional officials to Molemole local municipality to assist the current staff compliment.

3.13 CEMETORIES AND CREMATORIUMS

a) CEMETERIES

Molemole Local municipality is responsible for the maintenance and upkeep of the Mogwadi cemeteries because this is the area where the municipality is able to levy rates for burial purposes. The Morebeng burial site is under the custodianship of the community and therefore the municipality is no longer responsible for preparation during bereavement. The EPWP personnel has been assigned for the cleaning and maintenance of Mogwadi cemetery. The Municipality further deploy CWP personnel to clean burial sites at various villages as and when it is requested to do so.

b) SERVICE STATISTICS FOR CEMETERIES

Only eleven (11) burials were approved in the year under review.

3.14 CHILD CARE; AGED CARE; SOCIAL PROGRAMMES

a) INTRODUCTION TO CHILD AND AGED CARE; SOCIAL PROGRAMMES

The special programmes office, which is under the office of the Mayor, is responsible for the coordination of activities relating to: HIV/AIDS, People living with Disabilities, Older Persons, Youth as well as Women and Children. Since two officials have been added to the Special Focus unit the municipality has recorded a marked improvement in the functionality of the special programmes activities.

The following forums have been established to assist with coordination of special programmes functions:

Local Aids Council: Five local aids Council meetings were coordinated during the 2021/22 financial year. The Local Aids Council meetings are preceded by the Wards Aids Council meetings, the technical meetings as well as Monitoring and Evaluation. We appreciate our sector departments and the district for providing the necessary support to ensure our Local Aids Structures are functional. Three Local aids council meetings were coordinated in the year under review instead of the planned four. The overall cost of coordinating the events was R 185 613.53, which was against an annual budget allocation amount of R 185 925. The municipality further participates in the district and provincial Aids Council activities.

Older Persons forum: Only two Older persons support programmes were coordinated at an overall cost of R 55 000. Three support programmes were planned for the year but the last one could not be coordinated due to insufficient budget allocations.

Disability forum: Three support programmes were coordinated at a cost of R 57 365.00 during the year under review.

Women and Children: Three support programmes were organized during the year under review at a cost of R 238 975. The expenditure was incurred on organized the Annual women's day celebration, 16 days' campaign for No violence against women and children as well as Children's IDP public participation event to give them an opportunity to make inputs into the municipal planning documents. The objective was to create an environment and space where women are empowered about issues that directly affect them, either socially or economically and also given information and strategies on how to overcome them

Youth Support activities: Two youth support programmes were coordinated in the 2022/23 financial year to focus on youth dialogue to empower the youth through job creation and entrepreneurship. The total cost of the arranging youth programmes for the year under review was R 138 521.

b) CHALLENGES OF SOCIAL PROGRAMMES FUNCTION

The Municipality is happy with the progress of the special programmes activities. Other special programmes forum like Men's forum should play an active role in shaping the social fabric of society. We call on more participation of sector departments at a local level to ensure the vulnerable within our society are given an opportunity to enjoy their lives to the fullest, without being made to feel that they are subhuman.

c) SERVICE STATISTICS FOR CHILD CARE AND SOCIAL PROGRAMMES

Currently, the municipality has succeeded in establishing the local aids council, Youth forums, and Older Persons as well as Disability forums.

COMPONENT E: ENVIRONMENTAL PROTECTION

3.15 POLLUTION CONTROL

a) INTRODUCTION TO POLLUTION CONTROL

The district is the competent authority on air quality. The municipality provides a facilitation and coordination role on initiatives conducted within the municipal jurisdiction. The District has just finalized the air quality management plan (AQMP) in February 2018 which focus on the following aspects:

- Health impacts of key atmospheric pollutants
- Meteorological review
- Ambient air quality control and management
- Source identification and emission quantification
- Air quality management
- Emission reduction strategies and implementation
- Capacity Building and training.

The municipality will provide a supporting role during the implementation of the above within our area. The AQMP plan will guide the current state of air quality in an area, how it is changing over time and what can be done to ensure clean air is achieved and maintained.

COMPONENT F: HEALTH

3.17 **CLINICS**

The function is a key competency for the Department of Health. The municipality only plays a coordinating role by referring any community requests to the department of health. All requests raised during Mayoral Imbizos are accordingly forwarded and follow ups are made to give feedback to the community.

3.18 **AMBULANCE SERVICES**

The function is a key competency for the Department of Social development. The municipality only plays a coordinating role

3.19 **HEALTH INSPECTION; FOOD AND ABBATOIR LICENSING AND INSPECTION; ETC**

The function is a key competency for the Capricorn District Municipality. The municipality only plays a coordinating role

COMPONENT G: SECURITY AND SAFETY

The Community Safety Forum (CSF) in Molemole local municipality was established during 2010/11 financial year by the MEC of the department of Safety, Security and Liaison, the structure is still existing, and members serve on a five (5) year basis. The main aim of the CSF is to empower the community of Molemole on issues related to safety and security at their local areas. Molemole municipality has ten (10) CSF members.

3.20 **POLICE**

The function is a key competency for the South African Police Services (SAPS)

3.21 **FIRE**

The function is a key competency for the Capricorn District Municipality.

3.22 OTHER (DISASTER MANAGEMENT, ANIMAL LICENCING AND CONTROL, CONTROL OF PUBLIC NUISANCES AND OTHER)

The functions are a key competency for the South African Police Services (SAPS) and Capricorn District Municipality.

COMPONENT H: SPORT AND RECREATION

3.23 SPORT AND RECREATION

a) INTRODUCTION TO SPORTS AND RECREATION

Sports and Recreation are key competencies of the Department of Sports, Arts and Culture. The municipality coordinates programmes from the department and Capricorn District Municipality. The Municipality however make budget allocations for the maintenance of our two sports complexes: Ramokgopa and Mohodi to ensure they continue to be first choice for recreational needs of the community.

COMPONENT I: CORPORATE POLICY OFFICES AND OTHER SERVICES

3.24 EXECUTIVE AND COUNCIL

a) INTRODUCTION TO CORPORATE POLICY OFFICES

The functions in this category are distributed amongst different Directorates within the Municipality. Corporate policy issues are handled on a departmental basis depending on the responsibility for the specific function. The Directorate Financial Services is responsible for the financial affairs of the Municipality. The Directorate Corporate Services is responsible for the Human Resources as well as Information Technology functions of the Municipality. The latter Directorate is also responsible for rendering general administrative services to the Municipality overall as well as administrative and support services to ensure the effective functioning of Council and its Committees. Specific support services are rendered to the Office of the Mayor, Executive Committee and the Office of the Speaker and Chief Whip.

b) THE EXECUTIVE AND COUNCIL

The municipal council consists of thirty-two (32) Councillors composed of five political parties, the ANC, the EFF, the Democratic Alliance, CICAf and CIVIC WARRIORS. Molemole municipality has constituted an Executive Committee led by the Mayor, Councillor Paya M.E. Corporate Services department is responsible to provide general administrative support to the office of the Speaker and Chief Whip whilst office of the MM is responsible to provide administrative support to office of the Mayor. The executive committee meet prior all Council meetings to consider matter referred to it by various Portfolio committees. The Executive committee recommend to Council on all matters affecting the Municipality.

3.26 HUMAN RESOURCE SERVICES

3.26.1 INTRODUCTION TO HUMAN RESOURCE SERVICES

Human Resources management and development is critical in building stability in a municipality and ensure that the municipality is appropriately resourced and capacitated with suitably qualified staff to fulfil its constitutional mandate. The Human Resource Unit is responsible to facilitate recruitment, selection, appointment, induction, training, promotion/transfers, labour relations and compensation of employees and political leadership. The unit reports directly to the Senior Manager: Corporate Services and consists of the following staff complements: Manager: Human Resources, HR Officer, OHS Officer and Assistant HR Officer. There were two Interns responsible to provide administrative support to the unit and also as part of giving graduates an opportunity to prepare for the demands of the job market. Over and above the intern the unit managed to place one Experiential Learner as a means to provide them with an opportunity to do practical work in order to qualify for their respective qualifications.

The HR Unit also recruit experiential learners for other municipal departments as a way to support skills development and practical work experience for graduates. The HR unit ensure a smooth operation by devising relevant HR policies which are in line with legislation for, among others, the following areas: time and attendance management, Overtime, Training and development, Employee bursary, Health and Safety. It does this through various Human Resource Committees as outlined in section 1.4 above.

3.26.2 SERVICE STATISTICS FOR HUMAN RESOURCE SERVICES

a) Employee Wellness Program

The municipality continues to provide Employee Wellness Services to all employees who require such services. Employees are given time off every Wednesday afternoon to participate in various sporting activities. It is our believe that this will help our employees to socialize and appreciate team work and will also help enhance their health. Furthermore, our OHS Officer is tasked with the responsibility to monitor all our buildings to ensure they comply with the Occupational and Safety Standards. We don't want our workplaces to affect the wellbeing of our employees.

3.26.3 Individual Performance Management

The Municipality has revised the Individual performance management policy to be in line with Chapter 4 of the new staff regulations as outlined in the Government Gazette number: 45181 (2021). The Municipality conducted awareness workshops to all employees in relation to the changes brought by the new staff regulations. Departmental and Municipal Moderation committees will be established to quality assure the scoresheets before a final decision is taken about payment of performance bonuses, where applicable. A total of one hundred and forty-three (143) employees were assessed for 2021/2022 financial year during the year under review. All assessed scoresheets were then subjected to a rigorous review by the PMS (first review), Internal Audit (2nd review) and lastly moderated by the Committee constituted by the Municipal Manager. The final reviewed report was submitted for oversight purposes to Audit Committee, which recommended to Council for approval.

Despite the Municipality implementing Individual Performance Management for the third consecutive financial year there were still some challenges experienced with the overall system. Key among the challenges is submission of incomplete POEs, Employees performing additional functions but not recording in their performance agreements. The Municipality further acknowledges that moving forward there will be a need for continuous awareness sessions on the staff regulations. As committed in our 2021/22 Annual report the municipality is now ready to migrate our individual performance management to electronic version which will help us safeguard all performance related documentation for future reference and for any further scrutiny, should it be necessary.

3.26.4 Personnel Provisioning

- **Recruitment and retention of employees** – 11 Interns and 09 positions were filled in the 2022/23 financial year. The recruitment per department was as follows:

-

Department	Total new recruits
LED & P	02
Technical Services	03
Community Services	05
Budget and Treasury	01
Municipal Manager	03
Corporate Services	06
Total	20

EMPLOYMENT EQUITY ALL EMPLOYEES	
Female	83 (44%)
Male	105 (56%)
Grand Total	188

- **Gender representation** in respect of departments is outlined hereunder:

Department	Female	Male	Total
Community Services	28 (42%)	39 (58%)	67
Corporate Services	24 (73%)	09 (27%)	33
Local Economic Development & Planning	4 (57%)	3 (43%)	7
Budget and reporting	15 (56%)	13 (44%)	27
Technical Services	5 (12%)	36 (88%)	41
Municipal Manager's office	9 (69%)	3 (31%)	13
Grand Total	77 (46%)	103 (55%)	188

- **Disability** profile for the whole organization is represented hereunder.

Number of total employees = 188
 Number of people with disability = 3
 Percentage = 1.6% (Unchanged compared to previous financial year)

- **Equity Status** at managerial level as at end 2022/2023 Financial year.

Occupational Category	Male				Female				Total
	African	Coloured	Indian	White	African	Coloured	Indian	White	
15-17	10	0	0	0	5	0	0	0	15
Percentage	67%	0	0	0	33%	0	0	0	100%

- **Occupational Health and Safety** – Occupational Health and Safety committee is established and fully functional. The municipality has complied with the Collective Agreement by ensuring that legislated Committees that handle human resources related issues are established and active. OHS meeting were held in the 2021/22 financial year to address OHSA related issues in the workplace.

- **Human Resources Development** – The municipality continue to offer funding to employees to further their studies as part of support for career development. In the 2021/22 financial year the municipality has approved new bursaries for three (3) more employees at various levels to further their studies. Other employees were continuing with their studies from previous financial year. The total number of employees benefiting from the bursary stood at nine (9) at a total cost of R 494 405 compared to R 392 982 in the 2020/2021 financial year. This is an increase of 25.8% percent.
- Workplace Skills Plan (WSP) and the Annual Training Report (ATR) were developed and submitted to the Local Government SETA by the 30th of April 2023. The municipality has complied with the WSP by running interventions that were identified during the WSP compilation. For the year under review the municipality has spent significantly well on the annual budget on implementation of the Workplace skills plan.
- **Leave Management** - The electronic leave management is now fully in place and all employees have been capacitated to use the system. The online system makes it easy to manage leave accurately. The Human resource division is conducting leave audits on a quarterly basis. Total Annual leave days taken for the year under review was 3108 and total sick leave days taken was 1312
- **Labour Relations** – The Municipality continued to facilitate Local Labour forum meetings during the 2022/23 financial year. This signals a good working relationship between Management and labour unions, hence there was no employee strike during the year under review. Only one (01) unfair labour practice dispute was referred to the SALGBC during the year under review and the matter is before the high court to pronounce on the legality of the decision that gave rise to the dispute.

3.27 INFORMATION AND COMMUNICATION TECHNOLOGY (ICT) SERVICES

The municipality has procured 20 laptops, 20 bag packs, 02 10KVA Uninterrupted Power supplies, 10 multifunction colour printers, 02 servers and CCTV security cameras. CCTV cameras have been installed at all municipal offices. All ICT system licenses have been renewed. ICT Steering Committee meetings were conducted in line with the ICT Terms of reference. The process of fully migrating to MSCOA is well underway and the municipality has recently enlisted the Asset Management module, Supply Chain Management Module, Budget Module as well as Performance Management System. The municipality has extended the contract for Telkom for provision of VoIP Telephone Management system for three (03) years in terms of Section 116 (3) of the Municipal Finance Management Act, 2003 (Act 56 of 2003) and Section 110 (2) of the Municipal Finance Management Act, 2003 (Act 56 of 2003) which deals with contract amendments.

The project for installation of ICT infrastructure at Moletji satellite office was successfully completed. Three network towers has been installed and the office is fully functional. The ICT equipment like printers and telephone gadgets will be installed in 2023/24 Financial year. As reported elsewhere in the report that Moletji satellite office will be repurposed for the provision of licensing services we can safely report that the ICT infrastructure is ready to enable provision of the services.

There are five main municipal offices that require constant monitoring and support by the ICT division. Currently there are only two officials, the ICT Manager and Desktop Technician who are responsible for providing support in all the service sites. We are pleased to report that plans are underway to recruit an additional Technician in the 2023/2024 financial to cater for the envisaged increase in the workload.

The ICT unit manages a total of seven (07) physical Servers and ten (10) Virtual servers. A total of 154 users have been given access to the emails and internet services. All satellite offices are using wireless network connection to connect to the head office. There were no reports of serious system failures during the year under review and the municipality is happy with the level of professionalism displayed by the various service providers appointed to provide ICT services.

The municipality has entered into service level agreements with the following service providers for the provision of various ICT Services:

Name of service provider	Services offered
SITA	Server support and Maintenance, website support and maintenance and WAN support and maintenance
Business connection	Financial System
Telkom SA SOC	VOIP telephone system
Payday	Payroll system
CCG Systems	Performance Management System
XLP	Photocopier Machines
Batsibi Technologies	Implementation of Disaster Recovery Plan

a) THE OVERALL PERFORMANCE OF ICT SERVICES

There were persistent downtimes with regard to internet connection which also affected emails in our service points. The SITA contract has been renewed for a further three years and we are hopeful that this challenge will be resolved once and for all. The downtime on the internet also affected the functionality of our systems which can have a negative impact on the generation of compliance reports for the municipality. The Municipality is considering installation of Wi-Fi in 2023/24 financial year at all municipal offices in order to provide fast and reliable internet access to municipal officials.

3.28 **PROPERTY; LEGAL; RISK MANAGEMENT AND PROCUREMENT SERVICES**

Legal services and Risk Management services falls under Municipal Manager’s office whilst Procurement services are under the jurisdiction of Budget and Treasury department. The municipality has appointed a panel of six Law firms for a period of three years to assist with legal advises and for representation in cases where the municipality institute or have to defend itself legally. The Legal Service Manager is responsible for coordinating and monitoring the law firms to ensure the municipality gets value for money on cases under their adjudication.

As at close of the financial year on the 30th June 2023 the total contingent liability on legal cases against the municipality was at R 2 678 304 (compared R 2 625 211 in the previous year) and contingent assets were at R 1 096 868 (compared to R 1 044 400 in the previous year). Currently the municipality has three active cases in the litigation register, i.e. two contingent liability cases and one contingent asset case.

Risk Management services is led by two Risk Officers which falls under the office of the Municipal Manager, reporting to the Manager: Executive Support. The unit plays a critical role of security management, insurance administration as well as providing risk management services in all municipal outreach events, serving as Safety Officer. The two Officers work with the Chairperson of Risk Management Committee to coordinate all the activities relating to Risk Management in the Municipality.

COMPONENT J: MISCELLANEOUS

- **None.**

COMPONENT K: ORGANISATIONAL PERFORMANCE SCORECARD

1. FINANCIAL PERFORMANCE OF THE MUNICIPALITY FOR THE FINANCIAL YEAR 2022/2023

1.1 Total Revenue and Expenditure by Source

Description	Original Budget	Adjusted Budget	Year To Date actual	Year To Date variance	Year To Date variance	REASONS FOR MATERIAL VARIANCES
Revenue By Source						
Property rates	49 396 847	41 085 652	32 723 525	- 8 362 127	-20	During the budget stage, the figures included on the budget schedules were exclusive of the rebates which lead to the increase on the budgeted amount.
Service charges - electricity revenue	22 986 341	22 986 341	9 084 367	- 13 901 974	-60	During the budget phase a consideration of Fatima electrification was taken into account based on the existing project, however the project execution was delayed due to energizing challenges. Load shedding also had a negative impact on the sales.
Service charges - refuse revenue	2 603 836	2 603 836	2 522 930	- 80 906	-3	No material variance
Rental of facilities and equipment	266 190	266 190	262 179	- 4011	-2	No material variance
Interest earned - external investments	3 000 000	7 750 000	8 167 646	417 646	5	The municipality had excess cash available to make investments and earned more interest.

Description	Original Budget	Adjusted Budget	Year To Date actual	Year To Date variance	Year To Date variance	REASONS FOR MATERIAL VARIANCES
Interest earned - outstanding debtors	1 588 031	1 762 066	1 330 481	- 431 585	-24	Collection rate improved hence Interest on long outstanding debtors decreased.
Fines, penalties and forfeits	1 402 949	718 907	804 392	85 485	12	The municipality traffic officers managed to implement more vehicle inspection procedures including roadblocks.
Licenses and permits	8 055 111	8 055 111	4 362 599	- 3 692 512	-46	System interruption due to load shedding led to a decline in number of customers.
Agency services	756 352	756 352	709 857	- 46 495	-6	The District process of disconnecting conversional meters and the installation of the prepaid meters led to the decrease in water billing.
Transfers and subsidies	212 260 000	220 016 443	217 035 949	- 2 980 494	-1	No material variance
Other revenue	412 599	1 554 639	2 858 559	1 303 920	84	The other income includes the gain on actuarial amounting to R 2 648 329 as per the actuarial report which was not budgeted for.
Total Revenue (excluding capital transfers and contributions)	302 728 256	307 555 537	279 862 483	- 27 693 054	-9	

The Annual Revenue budgeted for 2022/23 financial year amount to **R 307 555 537**. The actual annual revenue collected for the period ending 30 June 2023 amounts to **R 279 862 483** against the 12 months' budget. The municipality has collected 91% by end of June 2023. On average 100% of all allocated annual budget should be collected by end of June 2023.

1.2 Operating Budget and Expenditure for the 2022/2023 financial year

Description	Original Budget	Adjusted Budget	Year TD actual	YTD variance	YTD variance	REASONS FOR MATERIAL VARIANCES
Employee related costs	104 547 620	103 525 816	100 714 091	2 811 725	3	No material variance
Remuneration of Councillors	13 973 932	14 477 932	13 208 745	1 269 187	9	No material variance
Debt impairment	3 497 872	3 797 872	499 020	3 298 852	87	Collection rate improved hence the debt impairment decreased.
Depreciation & asset impairment	19 813 041	19 813 041	19 847 571	34 530	0	The municipality budgeted based on the previous year assumptions.
Finance charges	116 842	126 442	26 394	100 048	79	The increase relates to finance cost as a result of revaluation performed on the rehabilitation of landfill site.
Bulk purchases - electricity	11 926 907	13 126 907	12 338 029	788 878	6	The municipality budgeted including the Fatima bulk point, however the projects was delayed.
Inventory consumed	7 803 884	7 159 395	6 703 081	-456 314	6	During the third quarter there were new regulation that required SCM policy to be reviewed, that resulted in some delays and affected procurement processes negatively.
Contracted services	42 102 799	40 001 343	37 597 530	2 403 813	6	During the third quarter there were new regulation that required SCM policy to be reviewed, that resulted in some delays and affected procurement processes negatively.
Other expenditure	40 923 280	42 196 343	37 371 255	4 825 088	11	During the third quarter there were new regulation that required SCM

Description	Original Budget	Adjusted Budget	Year TD actual	YTD variance	YTD variance	REASONS FOR MATERIAL VARIANCES
						policy to be reviewed, that resulted in some delays and affected procurement processes negatively.
Total	244 706 177	245 326 696	229 407 322	-15 919 374	-6	

The Annual operating budget for 2022/23 financial year amounts to **R 245 326 696**. The actual annual expenditure for the period ending 30 June 2023 amounts to **R 229 407 322**. On average 100% of all allocated annual budget should be spent by end of June 2023, the municipality has spent 94% against the 12 months' budget on operating expenditure inclusive of staff benefits.

1.3 *Chart: Revenue and Expenditure for 2022/2023*

1.4 Capital Budget and Expenditure for the 2022/2023 financial year

Description	Original Budget	Adjusted Budget	Year To Date actual	Year to date variance	Year to Date variance (%)	REASONS FOR MATERIAL VARIANCES

Capital Expenditure						
Total Capital Expenditure	58 022 400	63 330 625	50 960 911	- 12 369 714	-20	The municipality incurred loss on transfer on asset to Eskom which affected the capital expenditure.

The Annual capital budget for 2022/23 financial year amounts to R 63 330 625. The actual annual capital expenditure for the period ending 30 June 2023 amounts to R 50 960 911. On average 100% of all allocated annual budget should be spent by end of June 2023, the municipality has spent 80% against the 12 months' budget.

6. CORPORATE SERVICES		
2 Councillor Training programmes coordinated	2 training programmes coordinated due to budget constraints	Budget allocation in 2023/2024 financial year
2 Employee training programmes coordinated	2 training programmes due to budget constraints	Employee training budget to be allocated in 2023/2024
1 Ward Committee Training Programmes coordinated	1 training not coordinated due to budget constraints	Budget provision to be made in 2023/2024 financial year
0% (0 of 5) Internal Audit queries addressed	Outstanding queries from HR and ICT units	Outstanding queries to be resolved in 2023/2024
0% (0 of 1) of AG action plan implemented	1 finding on leave management outstanding	To be addressed in 1st Quarter 2023/24
0% (0 of 2) Risk Register implemented	Risks for abuse of travel claims and unstable network not addressed	1st Quarter 2023/2024
94% of Council resolutions implemented	Recruitment process for Senior Manager not finalized	1st Quarter 2023/2024
0% Audit Committee resolutions addressed	0/4 resolutions implemented	To be resolved 1st Quarter 2023/2024

1.7 Departmental performance against planned targets as per the 2022/2023 SDBIP

The Departmental Scorecards (detailed SDBIP) capture the performance of each Department. Unlike the Municipal Scorecard, which reflects on the strategic performance of the Municipality, the Departmental SDBIP 2022/23 provides a comprehensive picture of the performance per Department. It consists of objectives, indicators and targets derived from the approved SDBIP.

C. KEY CHALLENGES DURING THE YEAR UNDER REVIEW – 2022/2023

- During the year under review the municipality was confronted with the following challenges which affected service delivery performance:

DESCRIPTION OF CHALLENGE	PROPOSED INTERVENTION
1. Unwillingness by property owners into complying with Molemole Land Use Management Systems.	Introduction of Spatial Planning Awareness workshops.
2. Lack of Spatial, growth and Development which affects the overall Spatial transformation of the towns and villages.	Through the intergovernmental relations with the other organs of state the municipality has managed to secure funding in order to facilitate the formalization of villages and the establishment of Townships.
3. Disinclination by property owners into the submission of Building plans prior to the inception of building construction.	Introduction of Spatial Planning Awareness workshops to the community members.
4. Business Owners who are operating illegally without registering their businesses due to the registering offices being far from where the businesses are operating.	The municipality applied with LEDET to transfer the function of business registration to the municipality and function have been transferred.
5. Lack of interest into the mentorship of aspiring and emerging farmers by established and successful farmers.	The municipality engaged established Business Owners through the Local Economic Development Forums and other platforms to venture into skills development and training of emerging farmers.

CHAPTER 4 – ORGANISATIONAL DEVELOPMENT PERFORMANCE (PERFORMANCE REPORT PART II)

COMPONENT A: INTRODUCTION TO THE MUNICIPAL PERSONNEL

The Skills Development Act and Municipal Systems Act require employers to supply employees with the necessary training in order to develop its human resource capacity. With the requirements of the Skills Development Act and Municipal Systems Act as motive the Human Resource unit, under Corporate Services will ensure policies and procedures are effective and efficient to ensure a productive workforce at all times. We strive to ensure a smooth succession planning by creating an organizational structure that ensure there is always someone to perform the task in the event of illness, resignation and absenteeism for whatever reason of the another employee.

Training is implemented in line with the Workplace Skills Plan and closely monitored by the duly constituted Municipal Training committee.

The municipality continues to appropriate the budget for a continuous human capital investment through training and development as well as support through employee wellness programmes. We believe this is the only way for continued functionality and sustainability of the municipality

COMPONENT B: MANAGING THE MUNICIPAL WORKFORCE

a. Introduction to Managing Municipal Workforce

The municipality has developed Human resource management and labour relations policies that aid management of employees to ensure an acceptable behaviour and practice by all employees. Policies are reviewed on an annual basis to cater for the changes in the management of human resources, legislative framework and overall trends in the labour market.

Advertisements, recruitment, selection, promotions and transfers all form part of staff provisioning policy. Management, Line Managers, Human Resources, Council and Trade Unions are involved in the entire policy development process and the policy endeavours to enable such role-players to perform their allocated responsibilities as effectively and efficiently as possible.

4.2 HR POLICIES

HR Policies and Plans				
	Name of Policy	Completed %	Reviewed %	Date adopted by council or comment on failure to adopt

None				

PERFORMANCE REWARDS

The municipality has budgeted a maximum of 1.5% of the overall salary bill for payment of performance rewards in the 2022/2023 financial year. The 1.5% is in line with the Government gazette on staff regulations as well as the approved Performance Management policy and is applicable to employees below section 56 Managers. Furthermore, the municipality has budgeted a maximum of 14% of the total remuneration package for Senior Managers for performance rewards. The Municipality will further establish the departmental and Municipal moderation committees for the moderation of 2022/2023 Annual Assessments.

COMPONENT C: CAPACITATING THE MUNICIPAL WORKFORCE

a. Introduction

Section 68 (1) of The Local Government: Municipal Systems Act No. 32 of 2000 requires municipalities to develop their human resource capacity to a level that enables them to perform their functions and exercise their powers in an economical, effective, efficient and accountable way. For this purpose, the human resource capacity of a municipality must comply with the Skills Development Act and the Skills Development Levies Act. The table below outlines the training interventions during the year under review.

4.5 SKILLS DEVELOPMENT AND TRAINING

DISCLOSURES OF FINANCIAL INTERESTS:

See Appendix J below.

CHAPTER 5 – FINANCIAL PERFORMANCE

Chapter 5 contains information regarding financial performance and highlights specific accomplishments. The chapter comprises of three components:

- Component A: Statement of Financial Performance
- Component B: Spending Against Capital Budget
- Component C: Other Financial Matters

T 5.0.1

COMPONENT A: STATEMENTS OF FINANCIAL PERFORMANCE

5.1 INTRODUCTION TO FINANCIAL STATEMENTS

The Municipality has fulfilled its responsibility for the preparation of the financial statements in accordance with Generally Recognised Accounting Practice and the MFMA and DORA, in particular that the financial statements were fairly presented in accordance to all the required legislations. All known instances of non-compliance or suspected non-compliance with legislation, which the municipality was aware of were considered during the preparation of the annual financial statements and brought to the attention of the auditor. The identity of all related parties, the related party relationships and transactions have been appropriately accounted for and disclosed in accordance with the requirements of GRAP.

All known actual or possible litigation and claims were accounted for and disclosed in accordance with GRAP. All events subsequent to the date of the financial statements and for which GRAP requires adjustment or disclosure have been adjusted or disclosed. The going concern assumption was appropriately applied in the preparation of the financial statements and there were no significant uncertainties identified by Auditor General which can impact the municipality's ability to continue as a going concern.

a) Reconciliation of A1 Budget Summary

Description	Year 2022/23

Component D: sub-total	149,337	171,644	162,229	175,214	2.04%	7.41%
Total Expenditure	219,823	244,706	245,327	244,304	-0.16%	-0.42%
In this table operational income is offset against operational expenditure leaving a net operational expenditure total for each service as shown in the individual net service expenditure tables in chapter 3. Variances are calculated by dividing the difference between actual and original/adjustments budget by the actual.						T 5.1.2

c) COMMENT ON FINANCIAL PERFORMANCE

THE LIQUIDITY RATIOS FOR 2021/22 FINANCIAL YEAR ARE AS FOLLOWS:

- Current ratio = 5.1:1
- Acid test ratio = 3.3:1
- Net Assets/Working Capital = 474 610 498

The municipal ratios indicate clearly that the financial capacity of the municipality is stable. The municipality will be in a position to operate in the coming financial year and meet all its financial obligations.

d) COMMENT ON OPERATING TRANSFERS AND GRANTS:

The financial Management grant got allocation of R 2 300 000 at the beginning of the 2022/23 financial year. The municipality used this money to recruit Finance Interns and to also fund their training on Municipal Finance Management Programme. The grant is also used to purchase working tools for the Interns during the Internship period. The total amount spent was R 2 292 235 or 100 percent. The remaining unspent amount of R 7,764 was returned to National Revenue Fund.

Total MIG allocation for the year under review was R 37 792 000 and the overall expenditure as at 30th June 2023 was R 37 797 732 which is 100% of the allocation. It is for this reason that the municipality did not return any monies to National Revenue Fund as spending pattern was in line with the submitted business plan.

The Municipality applied for INEP grant rollover and was granted approval to rollover the remaining total amount of R 2,616,442 as it was committed before end of the financial year. The Municipality spent R 2 548 942 which is 97% and the remaining amount of R67 500 was returned to the National Revenue Fund.

e) GRANTS RECEIVED FROM SOURCES OTHER THAN DIVISION OF REVENUE ACT (DORA)

- The municipality did not receive any grants other than the one from DORA.

5.3 ASSET MANAGEMENT

a) INTRODUCTION TO ASSET MANAGEMENT

The Accounting Officer of the municipality is required to ensure that the assets of the municipality are utilized effectively and efficiently should put in place controls to safeguard them. This makes asset management a crucial function for the municipality because they play a critical role in helping the municipality to discharge its service delivery responsibilities. The Municipality has entered into a three-year agreement with an insurance company to insure all the assets of the municipality, including employees. During the year under review the municipality has successfully conducted two asset verifications to check the status of the assets and to help the Accounting Officer in determining which assets are obsolete for the purpose of disposing them. A total of twenty-four (24) assets were identified as obsolete and the necessary processes were followed to dispose them through a private Auctioneer appointed by the municipality. The Municipality has also compiled a Fixed Asset register for auditing by the Auditor-General of South Africa. The total Asset value for the Municipality in the 2022/2023 financial year was R 1 282 357,30

The following table outline the treatment of the seven largest assets acquired in the year under review:

TREATMENT OF THE LARGEST ASSETS ACQUIRED YEAR 2022/23	
Asset 1	
Name	Maupye Internal Street (Access to Main Road)
Description	Upgrading of gravel road to tar
Asset Type	Infrastructure Asset (Roads)
Key Staff involved	Asset Managers and Technical Manager
Staff Responsibilities	Physical and Financial Management of Asset
Asset Value	R10,443,431.99
Capital Implications	Yes
Future Purpose of Asset	Provision of Road and Storm-water Maintenance
Describe key Issues	Upgrading of roads and storm water infrastructure for effective access to communities
Policies in Place to Manage Asset	Yes
Asset 2	
Name	Mokgehle Internal Street (Access Road from Main Road)
Description	Upgrading of gravel road to tar
Asset Type	Infrastructure Asset (Roads)
Key Staff involved	Asset Managers
Staff Responsibilities	Physical and Financial Management of Asset
Asset Value	R10,434,626.77
Capital Implications	Yes
Future Purpose of Asset	Provision of Road and Storm-water Maintenance
Describe key Issues	Upgrading of roads and storm water infrastructure for effective access to communities
Policies in Place to Manage Asset	Yes
Asset 3	
Name	Sako Internal Street (Main Road to Existing Tared Road)
Description	Upgrading of gravel road to tar

TREATMENT OF THE LARGEST ASSETS ACQUIRED YEAR 2022/23	
Asset Type	Infrastructure Asset (Roads)
Key Staff involved	Asset Managers
Staff Responsibilities	Physical and Financial Management of Asset
Asset Value	R9,641,513.78
Capital Implications	Yes
Future Purpose of Asset	Provision of Road and Storm-water Maintenance
Describe key Issues	Upgrading of roads and storm water infrastructure for effective access to communities
Policies in Place to Manage Asset	Yes
Asset 4	
Name	Construction of Mogwadi Internal street on Presidents Street
Description	Upgrading of gravel road to tar
Asset Type	Infrastructure Asset (Roads)
Key Staff involved	Asset Managers
Staff Responsibilities	Physical and Financial Management of Asset
Asset Value	R 3,697,832.06
Capital Implications	Yes
Future Purpose of Asset	Provision of Road and Storm-water Maintenance
Describe key Issues	Upgrading of gravel road to tar for effective transport system
Policies in Place to Manage Asset	Yes
Asset 5	
Name	Construction Culvert Bridges
Description	Construction of Culvert bridges for access roads to be usable during rainy seasons.
Asset Type	Infrastructure Asset (Roads)
Key Staff involved	Asset Managers
Staff Responsibilities	Physical and Financial Management of Asset

TREATMENT OF THE LARGEST ASSETS ACQUIRED YEAR 2022/23	
Asset Value	R3,701,261.78
Capital Implications	Yes
Future Purpose of Asset	Ensuring access roads are not impacted by storm water.
Describe key Issues	Alleviating flooding that prevents commuters from using access roads during rainy seasons.
Policies in Place to Manage Asset	Yes
Asset 6	
Name	Supply, Delivery and Installation of Mini-Sub and two Transformers.
Description	Supply, Delivery and Installation of Mini-Sub and two Transformers.
Asset Type	Infrastructure Asset (Electricity)
Key Staff involved	Asset Managers
Staff Responsibilities	Physical and Financial Management of Asset
Asset Value	R2,314,400.00
Capital Implications	Yes
Future Purpose of Asset	To ensure the electricity network is capacitated to handle existing customers and new customers
Describe key Issues	Alleviating outages due to overloading of the electricity network thus ensuring uninterrupted power supply and extension of capacity to connect new customers.
Policies in Place to Manage Asset	Yes
Asset 7	
Name	High Mast Lights
Description	Provision, installation and configuration of 2x High Mast Lights
Asset Type	Infrastructure Assets (Electricity)
Key Staff involved	Asset Managers
Staff Responsibilities	Physical and Financial Management of Asset

TREATMENT OF THE LARGEST ASSETS ACQUIRED YEAR 2022/23	
Asset Value	R 1,461,695.65
Capital Implications	Yes
Future Purpose of Asset	Infrastructure Asset (Electricity)
Describe key Issues	Provide high mast lights in communities for the reduction of crime and the provision of well-lit streets.
Policies in Place to Manage Asset	Yes

Repair and Maintenance Expenditure: 2022/23				
				R' 000
	Original Budget	Adjustment Budget	Actual	Budget variance
Repairs and Maintenance Expenditure	15,629,086.00	16,491,244.00	13,076,015.00	21
<i>T 5.3.4</i>				

c) COMMENT ON REPAIR AND MAINTENANCE EXPENDITURE

During the year under review the municipality had budget allocation of R 16,491,244.00 or repair and maintenance of municipal assets. The total expenditure Repair and Maintenance for 2022/23 was R 13,076,015.00. The proportion of Repair and Maintenance to the budget stood at 7% which is below the required 8% as per circular 71. The municipality will work hard to ensure there is improvement in the coming financial years to ensure all procured assets are able to be maintained to extract the expected service delivery benefits from such assets.

5.4 FINANCIAL RATIOS BASED ON KEY PERFORMANCE INDICATORS

Financial ratios for the 2022/23 as described under financial overview above are illustrated hereunder in a graphical display

Liquidity Ratio

Liquidity Ratio – Measures the municipality's ability to pay its bills and is calculated by dividing the monetary assets (due within one year) by the municipality's current liabilities. A higher ratio is better.

Data used from MBRR SA8

Cost Coverage

Cost Coverage– It explains how many months expenditure can be covered by the cash and other liquid assets available to the Municipality excluding utilisation of grants and is calculated

Data used from MBRR SA8

Total Outstanding Service Debtors

Total Outstanding Service Debtors – Measures how much money is still owed by the community for water, electricity, waste removal and sanitation compared to how much money has been paid for these services. It is calculated by dividing the total outstanding debtors by the total annual revenue. A lower score is better.

Data used from MBRR SA8

Debt Coverage

Debt Coverage— The number of times debt payments can be accommodated within Operating revenue (excluding grants) . This in turn represents the ease with which debt payments can be accommodated by the municipality

Data used from MBRR SA8

Creditors System Efficiency

Creditor System Efficiency – The proportion of creditors paid within terms (i.e. 30 days). This ratio is calculated by outstanding trade creditors divided by credit purchases

Data used from MBRR SA8

Capital Charges to Operating Expenditure

Capital Charges to Operating Expenditure ratio is calculated by dividing the sum of capital interest and principle paid by the total operating expenditure.

Data used from MBRR SA8

Employee Costs

Employee cost – Measures what portion of the revenue was spent on paying employee costs. It is calculated by dividing the total employee cost by the difference between total revenue and capital revenue.

Data used from MBRR SA8

Repairs & Maintenance

Repairs and Maintenance – This represents the proportion of operating expenditure spent and is calculated by dividing the total repairs and maintenance.

Data used from MBRR SA8

COMMENT ON FINANCIAL RATIOS:

The ratio 5:1 is above the norm which means that the municipality will be able to pay its short term obligations with the available current assets. When comparing the current year ratio to the prior year it is stable, thus no indication of uncertainties on the liquidity of the municipality. The Municipality's net assets amount of R 474 610 498.

COMPONENT B: SPENDING AGAINST CAPITAL BUDGET

a) INTRODUCTION TO SPENDING AGAINST CAPITAL BUDGET

Capital expenditure relates mainly to construction projects that will have lasting value over many years. Molemole municipality fund Capital projects via grants and funds generated from own user fees. Component B deals with capital spending indicating where the funding comes from and whether Municipalities are able to spend the available funding as planned. In this component it is important to indicate the different sources of funding as well as how these funds are spent. Highlight the 5 largest projects (see T5.7.1) and indicate what portion of the capital budget they use. In the introduction briefly refer to these key aspects of capital expenditure (usually relating to new works and renewal projects) and to **Appendices M** (relating to the new works and renewal programmes), **N** (relating to the full programme of full capital projects, and **O** (relating to the alignment of projects to wards).

a. PARTNERSHIPS

The municipality did not have any official partnerships

COMPONENT D: OTHER FINANCIAL MATTERS

5.11 **GRAP COMPLIANCE**

GRAP is an acronym for **G**enerally **R**ecognized **A**ccounting **P**ractice and it provides the rules for which municipalities are required to maintain their financial accounts. Successful GRAP compliance will ensure that municipal accounts are comparable and more informative for the municipality. It will also ensure that the municipality is more accountable to its citizens and other stakeholders. Information on GRAP compliance is needed to enable the National Treasury to assess the pace of progress and to consider the implications if not adhered to. Molemole Municipality followed the directives issued by the Accounting Standards Board in compiling the 2022/2023 Annual Financial Statements. Molemole municipality's Asset management policy and Asset register are in compliance with GRAP.

CHAPTER 6: AUDITOR-GENERAL AUDIT FINDINGS

COMPONENT A: AUDITOR-GENERAL OPINION OF FINANCIAL STATEMENTS 2021/2022

6.1 AUDITOR GENERAL REPORTS YEAR -1 (PREVIOUS YEAR)

Financial year	2021/22
Municipality name	Molemole
Audit opinion	Unqualified
Reporting period	Jun-2021

- **A SUMMARY OF AUDIT FINDINGS FOR THE 2021/22 FINANCIAL YEAR IS TABLED BELOW**

Auditor-General Report on Financial Performance 2021/2022	
Audit Report status*:	Unqualified
Non-Compliance Issues	Remedial Action Taken
<p>1. The financial statements submitted for auditing were not prepared in all material respects in accordance with the requirements of section 122(1) of the MFMA.</p> <p>Material misstatements of general expenses and principal and agents identified by the auditors in the submitted financial statements were subsequently corrected, resulting in the financial statements receiving an unqualified audit opinion.</p>	<p>Timely preparation of the Annual Financial Statement process plan.</p> <p>Monthly Audit Steering Committee meetings to monitor implementation of the audit action plans on issues raised by the Auditor General and Internal Audit.</p>
2. Expenditure management	Preparation of accurate and complete financial statement that are supported and evidenced by reliable information

Auditor-General Report on Financial Performance 2021/2022	
Reasonable steps were not taken to prevent irregular expenditure amounting to R2 477 091 as disclosed in note 63 to the annual financial statements, as required by section 62(1)(d) of the MFMA. The majority of the irregular expenditure was caused by incorrect application of the pre-qualification criteria.	
Note:* The report`s status is supplied by the Auditor – General and ranges from unqualified (at best); to unqualified with other matters specified; qualified; adverse; and disclaimed (at worse) T6.1.1	
Auditor-General Report on Service Delivery Performance 2021/22	
Audit Report status*:	Unqualified
Non-Compliance Issues	Remedial Action Taken
No material findings on the usefulness and reliability of the reported performance information for the following development priority: KPA 2: Basic service delivery	Unqualified
<p>b) COMMENTS ON AUDITOR-GENERAL’S OPINION 2021/22</p> <p>There was a marked improvement in the resolution of issues raised by Auditor-General for the 2021/22 financial year. As at 30 June 2022 the municipality has resolved 100% of audit findings raised by Auditor-General as well as 55% issues raised by Internal Audit. These efforts have helped our cause to maintain the unqualified audit opinion in the current financial year.</p>	

COMPONENT B: AUDITOR-GENERAL OPINION YEAR (2022/2023)

6.2 AUDITOR GENERAL REPORT YEAR 2022/2023

Financial year	2022/23
Municipality name	Molemole
Audit opinion	Unqualified
Reporting period	Jun-2023

- A SUMMARY OF AUDIT FINDINGS FOR THE 2022/23 FINANCIAL YEAR IS TABLED BELOW

Auditor-General Report on Financial Performance 2022/2023	
Audit Report status*:	Unqualified
Non-Compliance Issues	Remedial Action Taken
The financial statements submitted for auditing were not prepared in all material respects in accordance with the requirements of section 122(1) of the MFMA. Material misstatements of cash flow statement and segment information identified by the auditors in the submitted financial statements were subsequently corrected, resulting in the financial statements receiving an unqualified audit opinion.	Timely preparation of the Annual Financial Statement process plan. Monthly Audit Steering Committee meetings to monitor implementation of the audit action plans on issues raised by the Auditor General and Internal Audit.
Expenditure management	Preparation of accurate and complete financial statement that are supported and evidenced by reliable information

Auditor-General Report on Financial Performance 2022/2023

Reasonable steps were not taken to prevent unauthorised expenditure amounting to R11 075 924, as disclosed in note 61 to the annual financial statements, in contravention of section 62(1)(d) of the MFMA. The majority of the unauthorised expenditure was caused by the municipality not budgeting for the loss of transfer of assets. Unauthorised expenditure amounting to R8 634 348 was incurred on the electrification of Maponto village.

Procurement and contract management

The invitation to tender for procurement of commodities designated for local content and production, did not stipulate the minimum threshold for local production and content as required by the 2017 preferential procurement regulation 8(2). This non-compliance was identified in the procurement processes for the supply, delivery and installation of culverts bridges.

The commodities designated for local content and production, were procured from a supplier who did not submit a declaration on local production and content as required by the 2017 preferential procurement regulation 8(5). This non-compliance was identified in the procurement processes for the supply, delivery and installation of culverts bridges.

The commodities designated for local content and production, were procured from a supplier who did not meet the prescribed minimum threshold for local production and content, as required by the 2017

Auditor-General Report on Financial Performance 2022/2023	
preferential procurement regulation 8(5). This non-compliance was identified in the procurement processes for the supply, delivery and installation of culverts bridges.	
Note:* The report`s status is supplied by the Auditor – General and ranges from unqualified (at best); to unqualified with other matters specified; qualified; adverse; and disclaimed (at worse) T6.1.1	
Auditor-General Report on Service Delivery Performance 2022/23	
Audit Report status*:	Unqualified
Non-Compliance Issues	Remedial Action Taken
KPA 2: Basic service delivery No material findings on the usefulness and reliability of the reported performance information for the following development priority:	Unqualified with no material findings
KPA 1: Spatial planning and rational The performance management system and related controls were not maintained as it did not describe how the performance measurement, review and reporting processes should be conducted and managed, as required by municipal planning and performance management regulation 7(1).	Unqualified
<p>COMMENTS ON AUDITOR-GENERAL’S OPINION 2022/23</p> <p>As at 30 June 2023 the municipality has resolved 65% of audit findings raised by Auditor-General as well as 100% issues raised by Internal Audit. These efforts have helped our cause to maintain the unqualified audit opinion in the current financial year. The total number of findings for the year under review were nineteen (19) which is an improvement on the twenty four (24) from the previous financial year.</p>	

GLOSSARY

GLOSSARY

Accessibility indicators	Explore whether the intended beneficiaries are able to access services or outputs.
Accountability documents	Documents used by executive authorities to give " <i>full and regular</i> " reports on the matters under their control to Parliament and provincial legislatures as prescribed by the Constitution. This includes plans, budgets, in-year and Annual Reports.
Activities	The processes or actions that use a range of inputs to produce the desired outputs and ultimately outcomes. In essence, activities describe " <i>what we do</i> ".
Adequacy indicators	The quantity of input or output relative to the need or demand.
Annual Report	A report to be prepared and submitted annually based on the regulations set out in Section 121 of the Municipal Finance Management Act. Such a report must include annual financial statements as submitted to and approved by the Auditor-General.
Approved Budget	The annual financial statements of a municipality as audited by the Auditor General and approved by council or a provincial or national executive.
Baseline	Current level of performance that a municipality aims to improve when setting performance targets. The baseline relates to the level of performance recorded in a year prior to the planning period.
Basic municipal service	A municipal service that is necessary to ensure an acceptable and reasonable quality of life to citizens within that particular area. If not provided it may endanger the public health and safety or the environment.
Budget year	The financial year for which an annual budget is to be approved – means a year ending on 30 June.
Cost indicators	The overall cost or expenditure of producing a specified quantity of outputs.
Distribution indicators	The distribution of capacity to deliver services.
Financial Statements	Includes at least a statement of financial position, statement of financial performance, cash-flow statement, notes to these statements and any other statements that may be prescribed.
General Key performance indicators	After consultation with MECs for local government, the Minister may prescribe general key performance indicators that are appropriate and applicable to local government generally.
Impact	The results of achieving specific outcomes, such as reducing poverty and creating jobs.
Inputs	All the resources that contribute to the production and delivery of outputs. Inputs are " <i>what we use to do the work</i> ". They include finances, personnel, equipment and buildings.
Integrated Development Plan (IDP)	Set out municipal goals and development plans.
National Key performance areas	<ul style="list-style-type: none"> • Service delivery & infrastructure • Economic development • Municipal transformation and institutional development • Financial viability and management • Good governance and community participation

GLOSSARY

Outcomes	The medium-term results for specific beneficiaries that are the consequence of achieving specific outputs. Outcomes should relate clearly to an institution's strategic goals and objectives set out in its plans. Outcomes are "what we wish to achieve".
Outputs	The final products, or goods and services produced for delivery. Outputs may be defined as "what we produce or deliver". An output is a concrete achievement (i.e. a product such as a passport, an action such as a presentation or immunization, or a service such as processing an application) that contributes to the achievement of a Key Result Area.
Performance Indicator	Indicators should be specified to measure performance in relation to input, activities, outputs, outcomes and impacts. An indicator is a type of information used to gauge the extent to which an output has been achieved (policy developed, presentation delivered, service rendered)
Performance Information	Generic term for non-financial information about municipal services and activities. Can also be used interchangeably with performance measure.
Performance Standards:	The minimum acceptable level of performance or the level of performance that is generally accepted. Standards are informed by legislative requirements and service-level agreements. Performance standards are mutually agreed criteria to describe how well work must be done in terms of quantity and/or quality and timeliness, to clarify the outputs and related activities of a job by describing what the required result should be. In this EPMDS performance standards are divided into indicators and the time factor.
Performance Targets:	The level of performance that municipalities and its employees strive to achieve. Performance Targets relate to current baselines and express a specific level of performance that a municipality aims to achieve within a given time period.
Service Delivery Budget Implementation Plan	Detailed plan approved by the mayor for implementing the municipality's delivery of services; including projections of the revenue collected and operational and capital expenditure by vote for each month. Service delivery targets and performance indicators must also be included.
Vote:	One of the main segments into which a budget of a municipality is divided for appropriation of money for the different departments or functional areas of the municipality. The Vote specifies the total amount that is appropriated for the purpose of a specific department or functional area. Section 1 of the MFMA defines a "vote" as: <i>a) one of the main segments into which a budget of a municipality is divided for the appropriation of money for the different departments or functional areas of the municipality; and</i> <i>b) which specifies the total amount that is appropriated for the purposes of the department or functional area concerned</i>

APPENDIX G – RECOMMENDATIONS OF THE MUNICIPAL AUDIT COMMITTEE YEAR 2022/23

1. Audit Committee Responsibility

The Audit Committee reports that it has complied with its responsibilities arising from Section 166 of the Municipal Finance Management Act and Circular 65 issued by National Treasury. The Audit Committee also reports that it has adopted appropriate formal terms of reference as its Audit Committee Charter, and it has regulated its affairs in compliance with this charter and has discharged all its responsibilities as contained therein, except that we have not reviewed changes in accounting policies and practices.

2. Audit Committee members and attendance

The Audit Committee, consisting of independent outside members, meets at least four times per annum as per its approved terms of reference, although additional special meetings may be called as the need arises. In the year under review there were Eleven (11) Audit Committee meetings held. The table below illustrates the number of meetings attended by members of the Audit Committee during the 2022/2023 financial year.

Surname and Initial	Ordinary meeting	Special meetings	Total
Ngobeni SAB	4	7	11
Monobe T	4	7	11
Lekoloane T	4	7	11
Nevhutalu T*	3	4	07

3. The Effectiveness of Internal Control

Internal control environment system has improved significantly. However, there were several deficiencies in the system of internal control and/or deviations there were reported by the internal auditors and the Auditor-General.

4. In-Year Management and Monthly/Quarterly Report

The municipality does have an effective monthly and quarterly reporting system to the Council as required by the Municipal Finance Management Act (MFMA).

5. Performance Management

The AC reviewed functionality of the performance management system and it appears to be functional, however there is a room for improvement in so far as achievement of planned targets is concerned and capacitating the Performance Management Unit.

6. Risk Management

The AC is of the opinion that municipality's risk management appears to be effective for the better of the year in material respect, and the municipality did implement a comprehensive risk management strategy and related policies. Management has sound and effective approach has been followed in developing strategic risk management plans and there is a sense of appreciation of the impact of the municipality's risk management framework on the control environment. However, there is a room for improvement in so far as implementation of hotline as part of fraud prevention strategy.

7. Compliance with laws and regulations

Compliance management system appears to be working considering no material incidents of non-compliance were reported by Internal Audit.

8. Internal Audit

The AC is satisfied with the effectiveness of Internal Audit and commend Management and Council for capacitating this unit. However, there is a need to fast-track the implementation of Combined Assurance Model.

9. Progress in implementation of Internal Audit and AGSA findings from prior year

AGSA and Internal Audit recommendations were not 100% implemented by management at the time of this report.

10. Implementations of Audit Committee Recommendations by management

A material number of Audit Committee recommendations to management were implemented which is commendable.

11. Draft Annual Financial Statements and Annual Performance Report

Audit Committee reviewed the draft unaudited 2022/23 Annual Financial Statements and 2022/23 draft Annual Performance report before submission to AGSA for audit and concur with the submission subject to all the inputs being factor in by management.

12. Conclusion

The Audit Committee wishes to acknowledge the commitment from Council, management and staff of the municipality. The stability in terms of the political and administrative leadership of the municipality has contributed to these improvements reported above. We would also like to thank the Mayor for his support, Councillors, senior management for their efforts and internal audit for their contribution.

A handwritten signature in black ink, appearing to read 'SAB', enclosed within a hand-drawn oval.

SAB Ngobeni (Mr)
Chairperson of the Audit Committee
Molemole Local Municipality
August 2021

Upgrading of 1.7 km Ga-Sako Internal Streets	16	Yes

APPENDIX P – SERVICE CONNECTION BACKLOGS AT SCHOOLS AND CLINICS

N/A. The responsibility for maintenance of school infrastructure is at the Department of Education

APPENDICES

APPENDIX Q – SERVICE BACKLOGS EXPERIENCED BY THE COMMUNITY WHERE ANOTHER SPHERE OF GOVERNMENT IS RESPONSIBLE FOR SERVICE PROVISION

Service Backlogs Experienced by the Community where another Sphere of Government is the Service Provider (where the municipality whether or not act on agency basis)		
Services and Locations	Scale of backlogs	Impact of backlogs
Clinics:		
Ward 10 and 14	The communities in these wards depend on Senwabarwana to access primary health care services	Travelling long distances to access primary health care may lead to unnecessary loss of lives.
Housing:		
All Wards	Inadequate allocation of Low Cost Housing. Delays in construction of approved RDP houses	Inadequate housing to community. Lack of dignity especially for households where the breadwinner is a social grant beneficiary. The Annual Allocation of housing units by COGHSTA: Limpopo is not sufficient to address the backlog
Licensing and Testing Centre:		
	None	The municipality is operating two Driver's License and Testing Centers
Reservoirs		
All wards	Persistent breakdowns of water infrastructure	Inconsistent supply of water
Schools (Primary and High):		
All Wards	There are insufficient schools to cater for the needs of the municipal population	Compromise of safety of learners as they travel long distances.
	Poor maintenance of school infrastructure	Affect the quality of learning in schools
	Lack of sanitation facilities in schools	Affect the quality of learning in schools
Sports Fields:		
Ward 14	No sports and recreation facilities in the ward	Increase in crime and social ills as the youth don't have an opportunity to participate in sports activities

T Q

APPENDICES

APPENDIX R – DECLARATION OF LOANS AND GRANTS MADE BY THE MUNICIPALITY

The municipality didn't have any overdraft facility during the year under review. The Municipality did not take any loans during the year under review. The municipality is operating with a positive balance hence it was able to honour all its financial obligations in the year under review

APPENDICES

APPENDIX S – DECLARATION OF RETURNS NOT MADE IN DUE TIME UNDER MFMA S71

Twelve Section 71 reports were compiled and submitted to Provincial Treasury and Council on time.

All Section 71 budget statements were publicized in the municipal website after approval by the Accounting Officer.

There were no Section 71 reports that were not submitted on time during the year under review.

Financial Statements for the year ended 30 June 2023

Accounting Officer's Responsibilities and Approval

The accounting officer is required by the Municipal Finance Management Act (Act 56 of 2003), to maintain adequate accounting records and is responsible for the content and integrity of the financial statements and related financial information included in this report. It is the responsibility of the accounting officer to ensure that the financial statements fairly present the state of affairs of the municipality as at the end of the financial year and the results of its operations and cash flows for the period then ended.

The financial statements have been prepared in accordance with Standards of Generally Recognised Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board.

The financial statements are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates.

The accounting officer acknowledges that he is ultimately responsible for the system of internal financial control established by the municipality and place considerable importance on maintaining a strong control environment. To enable the accounting officer to meet these responsibilities, the accounting officer sets standards for internal control aimed at reducing the risk of error or deficit in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the municipality and all employees are required to maintain the highest ethical standards in ensuring the municipality's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the municipality is on identifying, assessing, managing and monitoring all known forms of risk across the municipality. While operating risk cannot be fully eliminated, the municipality endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The accounting officer is of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or deficit.

The accounting officer has reviewed the municipality's cash flow forecast for the year to 30 June 2024 and, in the light of this review and the current financial position, he is satisfied that the municipality has or has access to adequate resources to continue in operational existence for the foreseeable future.

The financial statements set out on pages 6 to 80, which have been prepared on the going concern basis, were approved by the accounting officer on 31 August 2023 and were signed on its behalf by:

Accounting Officer
Mr KE Makgatho

Molemole Municipality

(Registration number LIM353)

Financial Statements for the year ended 30 June 2023

Accounting Officer's Report

The accounting officer submits his report for the year ended 30 June 2023.

1. Going concern

The financial statements have been prepared on the basis of accounting policies applicable to a going concern. The basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities contingent obligations and commitments will occur in the ordinary course of business.

We draw attention to the fact that at 30 June 2023, the municipality had an accumulated surplus/deficits of 426 876 633 and that the municipality's total assets exceed its liabilities by 474 610 498.

The ability of the municipality to continue as a going concern is dependent on a number of factors. The

Following factors support going concern assumption:

- There is no intention to cease operation and municipal budget for MTREF period support this
- The municipality has a healthy solvency and liquidity ration
- The municipality continue to achieve net surplus for 2023 and 2022 financial year.
- There are no material commitments or litigation at balance sheet that threatens the going concern assumption.

2. Subsequent events

The accounting officer is not aware of any matter or circumstance arising since the end of the financial year.

3. Accounting policies

The financial statements prepared in accordance with the South African Statements of Generally Accepted Accounting Practice (GAAP), including any interpretations of such Statements issued by the Accounting Practices Board, and in accordance with the prescribed Standards of Generally Recognised Accounting Practices (GRAP) issued by the Accounting Standards Board as the prescribed framework by National Treasury.

Accounting Policies

1. Presentation of Financial Statements

The annual financial statements have been prepared in accordance with the Standards of Generally Recognised Accounting Practice (GRAP), issued by the Accounting Standards Board in accordance with Section 122(3) of the Municipal Finance Management Act (Act 56 of 2003).

These financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention as the basis of measurement, unless specified otherwise.

Assets, liabilities, revenues and expenses were not offset, except where offsetting is either required or permitted by a Standard of GRAP.

A summary of the significant accounting policies, which have been consistently applied in the preparation of these financial statements, are disclosed below.

These accounting policies applied are consistent with those used to present the previous year's financial statements, unless explicitly stated otherwise. The details of any changes in accounting policies are explained in the relevant policy.

1.1 Presentation currency

These annual financial statements are presented in South African Rand, which is the functional currency of the municipality.

1.2 Going concern assumption

These financial statements have been prepared on the assumption that the municipality will continue to operate as a going concern for at least the next 12 months.

1.3 Comparative Information

When the presentation or classification of items in the annual financial statements is amended, prior period comparative amounts are restated. The nature and reason for the reclassification is disclosed. Where accounting errors have been identified in the current year, the correction is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly. Where there has been a change in accounting policy in the current year, the adjustment is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly.

1.4 Significant judgements and use of Estimates

In preparing the annual financial statements, management is required to make estimates and assumptions that affect the amounts represented in the annual financial statements and related disclosures. Use of available information and the application of judgement is inherent in the formation of estimates. Actual results in the future could differ from these estimates which may be material to the annual financial statements. Significant judgements include:

Trade receivables / Held to maturity investments and/or loans and receivables

The municipality assesses its trade receivables for impairment at the end of each reporting period. In determining whether an impairment loss should be recorded in surplus or deficit, the surplus makes judgements as to whether there is observable data indicating a measurable decrease in the estimated future cash flows from a financial asset.

The impairment for loans and receivables is calculated on a portfolio basis, based on historical loss ratios, adjusted for national and industry-specific economic conditions and other indicators present at the reporting date that correlate with defaults on the portfolio. These annual loss ratios are applied to loan balances in the portfolio and scaled to the estimated loss emergence period.

Allowance for slow moving, damaged and obsolete stock

An allowance for stock to write stock down to the lower of cost or net realisable value. Management have made estimates of the selling price and direct cost to sell on certain inventory items. The write down is included in the operation surplus note.

Fair value estimation

The fair value of financial instruments traded in active markets (such as trading and available-for-sale securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the municipality is the current bid price.

The carrying value less impairment provision of trade receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the municipality for similar financial instruments.

Financial Statements for the year ended 30 June 2023

Accounting Policies

Impairment of statutory receivables

The calculation in respect of the impairment of receivables is based on an assessment of the extent to which receivables have defaulted on payments, and an assessment of their ability to make payments based on their credit worthiness. This is performed per identifiable categories across all classes of receivables.

Impairment of non-financial assets

Management considers all property, plant and equipment to be non-cash generating, except for investment property, which are cash generating.

Management further considers whether indicators of impairment exist. This requires management to exercise judgement as to whether an individual or combination of factors exist which should be taken into consideration in determining whether the recoverable service amount of the asset is lower than its carrying amount.

Accounting policy on impairment of assets, and accounting policy subsequent measurement, amortisation and impairment intangible assets, describe the conditions under which nonfinancial assets are tested for potential impairment losses by the management of the municipality.

Significant estimates and judgements are made relating to impairment testing of property, plant and equipment, and intangible assets

Provisions

Provisions were raised and management determined an estimate based on the information available. Additional disclosure of these estimates of provisions are included in note 15

Inventories

Unsold properties are taken at fair value on the date when the intention to dispose land has arisen to the inventory from investment property on initial recognition.

Post-retirement benefits

The present value of the post-retirement obligation depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost (income) include the discount rate. Any changes in these assumptions will impact on the carrying amount of post-retirement obligations.

The municipality determines the appropriate discount rate at the end of each year. This is the interest rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the pension obligations. In determining the appropriate discount rate, the municipality considers the interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating the terms of the related pension liability.

Other key assumptions for pension obligations are based on current market conditions. Additional information is disclosed in Note 7

Effective interest rate

The municipality used the prime interest rate to discount future cash flows. Allowance for doubtful debts

On debtors an impairment loss is recognized in surplus and deficit when there is an objective evidence such as non-payment of long outstanding debt amount. The impairment is measured based on the analysis of the current financial year provision balance less the previous financial year balance.

The Provision for doubtful debt is being considered for all the debt which has been outstanding for 90 days and more excluding all accounts owned by government institutions.

Payments patterns are being considered for the analysis of the individual rate payer's behavior at least for a period of six (6) consecutive months in analyzing the probability of recovering the outstanding balance

Useful lives of assets

The municipality's management determines the estimated useful lives and related depreciation charges. This estimate is based on industry norm. Management will increase the depreciation charge where useful lives are less than previously estimated useful lives.

Financial Statements for the year ended 30 June 2023

Accounting Policies

Residual value

The estimated value of an asset at the end of its useful life, or the value that remains at the end of the analysis period where the asset useful life exceeds.

1.5 Investment property

Investment property is property (land or a building - or part of a building - or both) held to earn rentals or for capital appreciation or both, rather than for:

- use in the production or supply of goods or services or for
- administrative purposes, or
- sale in the ordinary course of operations.

Owner-occupied property is property held for use in the production or supply of goods or services or for administrative purposes.

Investment property is recognised as an asset when, it is probable that the future economic benefits or service potential that are associated with the investment property will flow to the municipality, and the cost or fair value of the investment property can be measured reliably.

Investment property is initially recognised at cost. Transaction costs are included in the initial measurement.

Where investment property is acquired through a non-exchange transaction, its cost is its fair value as at the date of acquisition. However, where an investment property was acquired through a non-exchange transaction (i.e. where municipality acquired the investment property for no or a nominal value), its cost is its fair value as at the date of acquisition. The cost of self-constructed investment property is measured at cost.

Costs include costs incurred initially and costs incurred subsequently to add to, or to replace a part of, or service a property. If a replacement part is recognised in the carrying amount of the investment property, the carrying amount of the replaced part is derecognized.

Transfers are made to or from investment property only when there is a change in use.

For a transfer from investment property to owner occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner occupied property becomes an investment property, the municipality accounts for such property in accordance with the policy stated under property, plant and equipment up to the date of change in use.

Cost model

Investment property is carried at cost less accumulated depreciation and any accumulated impairment losses. Land is not depreciated as it is deemed to have an indefinite useful life.

Depreciation is provided to write down the cost, less estimated residual value over the useful life of the property, which is as follows:

Item	Useful life
Property - land	Indefinite
Property - buildings	30 years

Investment property is derecognized on disposal or when the investment property is permanently withdrawn from use and no future economic benefits or service potential are expected from its disposal.

Gains or losses arising from the retirement or disposal of investment property is the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in surplus or deficit in the period of retirement or disposal.

Compensation from third parties for investment property that was impaired, lost or given up is recognised in surplus or deficit when the compensation becomes receivable.

Molemole Municipality

(Registration number LIM353)

Financial Statements for the year ended 30 June 2023

Accounting Policies

1.6 Property, plant and equipment

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one reporting period.

The cost of an item of property, plant and equipment is recognised as an asset when:

- it is probable that future economic benefits or service potential associated with the item will flow to the municipality; and
- the cost or fair value of the item can be measured reliably -Property, plant and equipment is initially measured at cost.

The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Trade discounts and rebates are deducted in arriving at the cost.

Where an asset is acquired through a non-exchange transaction, its cost is its fair value as at date of acquisition.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or assets, or a combination of assets and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, it's deemed cost is the carrying amount of the asset(s) given up.

The initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located is also included in the cost of property, plant and equipment, where the entity is obligated to incur such expenditure, and where the obligation arises as a result of acquiring the asset or using it for purposes other than the production of inventories.

Recognition of costs in the carrying amount of an item of property, plant and equipment ceases when the item is in the location and condition necessary for it to be capable of operating in the manner intended by management.

Major spare parts and stand by equipment which are expected to be used for more than one period are included in property, plant and equipment. In addition, spare parts and stand by equipment which can only be used in connection with an item of property, plant and equipment are accounted for as property, plant and equipment.

Major inspection costs which are a condition of continuing use of an item of property, plant and equipment and which meet the recognition criteria above are included as a replacement in the cost of the item of property, plant and equipment. Any remaining inspection costs from the previous inspection are derecognized.

The following accounting procedures will be followed when the land and buildings properties are re-valued at an amount that exceeds the current value carried in the Financial Statements:

- The Accumulated Depreciation at the time of revaluation will be set-off against the gross carrying amount of the fixed property.
- The carrying value on the Balance Sheet will be adjusted to the revalued amount of the fixed property.
- The difference between the original amount and the re-valued amount will be credited against a future depreciation reserve.

Any increase in an asset's carrying amount, as a result of a revaluation, is credited directly to a revaluation surplus. The increase is recognised in surplus or deficit to the extent that it reverses a revaluation decrease of the same asset previously recognised in surplus or deficit.

Any decrease in an asset's carrying amount, as a result of a revaluation, is recognised in surplus or deficit in the current period. The decrease is debited directly to a revaluation surplus to the extent of any credit balance existing in the revaluation surplus in respect of that asset.

The revaluation surplus included in net assets related to a specific item of property, plant and equipment is transferred directly to accumulated surplus or deficit when the asset is derecognized

Subsequent measurement

Subsequent to initial recognition items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses. Land is not depreciated as it is deemed to have an indefinite useful life.

Where the municipality replaces parts of an asset, it derecognises the part of the asset being replaced and capitalizes the new

The residual value, the useful life and depreciation method of each asset are reviewed at least at each reporting date. If the expectations differ from previous estimates, the change is accounted for as a change in accounting estimate.

Reviewing the useful life of an asset on an annual basis does not require the entity to amend the previous estimate unless expectations differ from the previous estimate.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

The depreciation charge for each period is recognised in surplus or deficit unless it is included in the carrying amount of another asset.

Items of property, plant and equipment are derecognized when the asset is disposed of or when there are no further economic benefits or service potential expected from the use or disposal of the asset.

The gain or loss arising from the derecognition of an item of property, plant and equipment is included in surplus or deficit when the item is derecognized. The gain or loss arising from the derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item.

1.7 Intangible assets

Initial Recognition

An asset is identifiable if it either:

- is separable, i.e. is capable of being separated or divided from an entity and sold, transferred, licensed, rented or exchanged, either individually or together with a related contract, identifiable assets or liability, regardless of whether the entity intends to do so; or
- arises from binding arrangements (including rights from contracts), regardless of whether those rights are transferable or separable from the municipality or from other rights and obligations.

A binding arrangement describes an arrangement that confers similar rights and obligations on the parties to it as if it were in the form of a contract.

An intangible asset is recognised when:

- it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the municipality; and
- the cost or fair value of the asset can be measured reliably.

The municipality assesses the probability of expected future economic benefits or service potential using reasonable and supportable assumptions that represent management's best estimate of the set of economic conditions that will exist over the useful life of the asset.

Where an intangible asset is acquired through a non-exchange transaction, its initial cost at the date of acquisition is measured at its fair value as at that date.

Expenditure on research (or on the research phase of an internal project) is recognised as an expense when it is incurred. An intangible asset arising from development (or from the development phase of an internal project) is recognised when:

- it is technically feasible to complete the asset so that it will be available for use or sale.
- there is an intention to complete and use or sell it.
- there is an ability to use or sell it.
- it will generate probable future economic benefits or service potential.
- there are available technical, financial and other resources to complete the development and to use or sell the asset.
- the expenditure attributable to the asset during its development can be measured reliably.

Molemole Municipality

(Registration number LIM353)

Financial Statements for the year ended 30 June 2023

Intangible assets are carried at cost less any accumulated amortisation and any impairment losses.

An intangible asset is regarded as having an indefinite useful life when, based on all relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows or service potential. Amortisation is not provided for these intangible assets, but they are tested for impairment annually and whenever there is an indication that the asset may be impaired. For all other intangible assets amortisation is provided on a straight line basis over their useful life.

The amortisation period and the amortisation method for intangible assets are reviewed at each reporting date.

Reassessing the useful life of an intangible asset with a finite useful life after it was classified as indefinite is an indicator that the asset may be impaired. As a result, the asset is tested for impairment and the remaining carrying amount is amortized over its useful life.

Internally generated brands, mastheads, publishing titles, customer lists and items similar in substance are not recognised as intangible assets.

Internally generated goodwill is not recognised as an intangible asset. Amortisation is provided to write down the intangible assets, on a straight line basis, to their residual values as follows:

Item	Useful life
Computer software, other	3 -20 years

Intangible assets are derecognized:

- on disposal; or
- when no future economic benefits or service potential are expected from its use or disposal.

The gain or loss is the difference between the net disposal proceeds, if any, and the carrying amount. It is recognised in surplus or deficit when the asset is derecognized.

1.8 Heritage assets

Assets are resources controlled by a municipality as a result of past events and from which future economic benefits or service potential are expected to flow to the municipality between knowledgeable willing parties in an arm's length transaction.

Heritage assets are assets that have cultural, environmental, historical, natural, scientific, technological or artistic significance and are held indefinitely for the benefit of present and future generations.

Recognition

The municipality recognises a heritage asset as an asset if it is probable that future economic benefits or service potential associated with the asset will flow to the municipality, and the cost or fair value of the asset can be measured reliably.

Initial measurement

Heritage assets are measured at cost. Where a heritage asset is acquired through a non-exchange transaction, its cost is measured at its fair value as at the date of acquisition.

Subsequent measurement

. After recognition as an asset, a class of heritage assets, whose fair value can be measured reliably, is carried at a revalued amount, being its fair value at the date of the revaluation less any subsequent impairment losses. If a heritage asset's carrying amount is increased as a result of a revaluation, the increase is credited directly to a revaluation surplus. However, the increase is recognised in surplus or deficit to the extent that it reverses a revaluation decrease of the same heritage asset previously recognised in surplus or deficit.

If a heritage asset's carrying amount is decreased as a result of a revaluation, the decrease is recognised in surplus or deficit. However, the decrease is debited directly to a revaluation surplus to the extent of any credit balance existing in the revaluation surplus in respect of that heritage asset.

Derecognition

The municipality derecognises heritage asset on disposal, or when no future economic benefits or service potential are expected from its use or disposal.

Molemole Municipality

(Registration number LIM353)

Financial Statements for the year ended 30 June 2023

The gain or loss arising from the derecognition of a heritage asset is included in surplus or deficit when the item is derecognized (unless the Standard of GRAP on leases requires otherwise on a sale and leaseback).

Carrying amount is the amount at which an asset is recognised after deducting accumulated impairment losses. Class of heritage assets means a grouping of heritage assets of a similar nature or function in a municipality's operations that is shown as a single item for the purpose of disclosure in the financial statements.

Cost is the amount of cash or cash equivalents paid or the fair value of the other consideration given to acquire an asset at the time of its acquisition or construction or, where applicable, the amount attributed to that asset when initially recognised in accordance with the specific requirements of other Standards of GRAP.

Depreciation is the systematic allocation of the depreciable amount of an asset over its useful life. Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

1.9 Financial instruments

The municipality classifies financial assets and financial liabilities into the following categories:

Classification depends on the purpose for which the financial instruments were obtained / incurred and takes place at initial recognition. Classification is re-assessed on an annual basis, except for derivatives and financial assets designated as at fair value through surplus or deficit, which shall not be classified out of the fair value through surplus or deficit category.

Financial instruments are recognised initially when the municipality becomes a party to the contractual provisions of the instruments.

The municipality classifies financial instruments, or their component parts, on initial recognition as a financial asset, a financial liability or an equity instrument in accordance with the substance of the contractual arrangement.

Regular way purchases of financial assets are accounted for at trade date.

Initial recognition and measurement

Financial instruments are measured initially at fair value, except for equity investments for which a fair value is not determinable, which are measured at cost and are classified as available-for-sale financial assets.

For financial instruments which are not at fair value through surplus or deficit, transaction costs are included in the initial measurement of the instrument.

Subsequent measurement - Financial instruments at fair value through surplus or deficit are subsequently measured at fair value, with gains and losses arising from changes in fair value being included in surplus or deficit for the period.

Net gains or losses on the financial instruments at fair value through surplus or deficit dividends or similar distributions and interest. Dividend or similar distributions income is recognised in surplus or deficit as part of other income when the municipality's right to receive payment is established.

Loans and receivables are subsequently measured at amortized cost, using the effective interest method, less accumulated impairment losses. Held-to-maturity investments are subsequently measured at amortized cost, using the effective interest method, less accumulated impairment losses.

Available-for-sale financial assets are subsequently measured at fair value. This excludes equity investments for which a fair value is not determinable, which are measured at cost less accumulated impairment losses.

Gains and losses arising from changes in fair value are recognised in equity until the asset is disposed of or determined to be impaired. Interest on available-for-sale financial assets calculated using the effective interest method is recognised in surplus or

Trade and Other Receivables

Trade and other receivables are categorized as financial assets: loans and receivables and are initially recognised at fair value and subsequently carried at amortized cost. Amortized cost refers to the initial carrying amount, plus interest, less repayments and impairments. An estimate is made for doubtful receivables based on a review of all outstanding amounts at year-end.

Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganization, and default

Molemole Municipality

(Registration number LIM353)

Financial Statements for the year ended 30 June 2023

or delinquency in payments (more than 30 days overdue) are considered indicators that the trade receivable is impaired. Impairments are determined by discounting expected future cash flows to their present value. Amounts that are receivable within 12 months from the reporting date are classified as current.

Impairment Loss

An impairment of trade receivables is accounted for by reducing the carrying amount of trade receivables through the use of an allowance account, and the amount of the loss is recognised in the Statement of Financial Performance within operating expenses. When a trade receivable is uncollectible, it is written off. Subsequent recoveries of amounts previously written off are credited against operating expenses in the Statement of Financial Performance.

The municipality determine impairment of trade receivables in accordance with the debt write off policy.

Trade Payables and Borrowings

Financial liabilities consist of trade payables and borrowings. They are categorized as financial liabilities held at amortized cost, are initially recognised at fair value and subsequently measured at amortized cost which is the initial carrying amount, less repayments, plus interest.

Cash and Cash Equivalents

Cash and cash equivalents includes cash on hand (including petty cash) and cash with banks (including call deposits). Cash equivalents are short-term highly liquid investments, readily convertible into known amounts of cash, that are held with registered banking institutions with maturities of three months or less and are subject to an insignificant risk of change in value. For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held on call with banks, net of bank overdrafts. The municipality categorises cash and cash equivalents as financial assets: loans and receivables.

Bank overdrafts are recorded based on the facility utilised. Finance charges on bank overdraft are expensed as incurred. Amounts owing in respect of bank overdrafts are categorized as financial liabilities: other financial liabilities carried at amortized cost.

1.10 Derecognition

Financial assets

The municipality derecognises financial assets using trade date accounting. The municipality derecognises a financial asset only when:

- the contractual rights to the cash flows from the financial asset expire, are settled or waived;
- the municipality transfers to another party substantially all of the risks and rewards of ownership of the financial asset; or
- the municipality, despite having retained some significant risks and rewards of ownership of the financial asset, has transferred control of the asset to another party and the other party has the practical ability to sell the asset in its entirety to an unrelated third party, and is able to exercise that ability unilaterally and without needing to impose additional restrictions on the transfer. In this case, the entity:
- derecognises the asset; and
- recognise separately any rights and obligations created or retained in the transfer.

The carrying amounts of the transferred asset are allocated between the rights or obligations retained and those transferred on the basis of their relative fair values at the transfer date. Newly created rights and obligations are measured at their fair values at that date. Any difference between the consideration received and the amounts recognised and derecognized is recognized in surplus or deficit in the period of the transfer.

If the municipality transfers a financial asset in a transfer that qualifies for derecognition in its entirety and retains the right to service the financial asset for a fee, it recognise either a servicing asset or a servicing liability for that servicing contract. If the fee to be

received is not expected to compensate the entity adequately for performing the servicing, a servicing liability for the servicing obligation is recognised at its fair value. If the fee to be received is expected to be more than adequate compensation for the servicing, a servicing asset is recognised for the servicing right at an amount determined on the basis of an allocation of the carrying amount of the larger financial asset.

If, as a result of a transfer, a financial asset is derecognized in its entirety but the transfer results in the entity obtaining a new financial asset or assuming a new financial liability, or a servicing liability, the entity recognise the new financial asset, financial liability or servicing liability at fair value.

On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the

Molemole Municipality

(Registration number LIM353)

Financial Statements for the year ended 30 June 2023

consideration received is recognised in surplus or deficit. If the transferred asset is part of a larger financial asset and the part transferred qualifies for derecognition in its entirety, the previous carrying amount of the larger financial asset is allocated between the part that continues to be recognised and the part that is derecognized, based on the relative fair values of those parts, on the date of the transfer. For this purpose, a retained servicing asset is treated as a part that continues to be recognised. The difference between the carrying amount allocated to the part derecognized and the sum of the consideration received for the part derecognized is recognised in surplus or deficit.

If a transfer does not result in derecognition because the entity has retained substantially all the risks and rewards of ownership of the transferred asset, the entity continues to recognise the transferred asset in its entirety and recognise a financial liability for the consideration received. In subsequent periods, the entity recognises any revenue on the transferred asset and any expense incurred on the financial liability. Neither the asset, and the associated liability nor the revenue, and the associated expenses are offset.

1.11 Leases

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership.

When a lease includes both land and buildings elements, the entity assesses the classification of each element separately.

Finance leases - lessor

The municipality recognises finance lease receivables as assets on the statement of financial position. Such assets are presented as a receivable at an amount equal to the net investment in the lease.

Finance revenue is recognised based on a pattern reflecting a constant periodic rate of return on the municipality's net investment in the finance lease.

Finance leases - lessee

Finance leases are recognised as assets and liabilities in the statement of financial position at amounts equal to the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation.

The discount rate used in calculating the present value of the minimum lease payments is the interest rate implicit in the lease.

Minimum lease payments are apportioned between the finance charge and reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate on the remaining balance of the liability.

Any contingent rents are expensed in the period in which they are incurred.

Operating leases - lessor

Operating lease revenue is recognised as revenue on a straight-line basis over the lease term.

Initial direct costs incurred in negotiating and arranging operating leases are added to the carrying amount of the leased asset and recognised as an expense over the lease term on the same basis as the lease revenue.

The aggregate cost of incentives is recognised as a reduction of rental revenue over the lease term on a straight-line basis. The aggregate benefit of incentives is recognised as a reduction of rental expenses over the lease term on a straight-line basis. Income for leases is disclosed under revenue in the Statement of Financial Performance.

Operating leases - lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term. The difference between the amounts recognised as an expense and the contractual payments are recognised as an operating lease asset or liability.

1.12 Inventories

Initial measurement:

Inventories are initially measured at cost except where inventories are acquired through a non-exchange transaction, then their

costs are their fair value as at the date of acquisition.

The cost of inventories comprises of all cost of purchase, cost of conversion and other cost incurred in bringing the inventories to their present location and condition.

The cost of inventories of items that are not ordinarily interchangeable and goods or services produced and segregated for specific projects is assigned using specific identification of the individual costs.

The cost of inventories is assigned using the formula. The same cost formula is used for all inventories having similar nature and

Molemole Municipality

(Registration number LIM353)

Financial Statements for the year ended 30 June 2023

use to the municipality.

Inventories are measured at the lower of cost and current replacement cost where they are held for;

- distribution at no charge or for a nominal charge; or
- consumption in the production process of goods to be distributed at no charge or for a nominal charge.

Net realisable value is the estimated selling price in the ordinary course of operations less the estimated costs of completion and the estimated costs necessary to make the sale, exchange or distribution.

Current replacement cost is the cost the municipality incurs to acquire the asset on the reporting date.

When inventories are sold, the carrying amounts of those inventories are recognised as an expense in the period in which the related revenue is recognised. If there is no related revenue, the expenses are recognised when the goods are distributed, or related services are rendered. The amount of any write-down of inventories to net realisable value or current replacement cost and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value or current replacement cost, are recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

Initial Recognition

The carrying amount of inventories is recognised as an expense in the period that the inventory was sold, distributed, written off or consumed, unless that cost qualifies for capitalization to the cost of another asset.

Subsequent Measurement

Subsequent inventories are measured at the lower of cost and net realisable value.

Inventories comprise current assets held for sale or for consumption during the ordinary course of business and are measured at the lower of cost and current replacement cost where they are held for;

- a) distribution at no charge or for a nominal charge; or
 - b) consumption in the production process of goods to be distributed at no charge or for a nominal charge
- The basis for allocating cost to inventory items is the first in first out (FIFO) method.

1.13 Employee benefits

Short-term employee benefits

The cost of short-term employee benefits, (those payable within 12 months after the service is rendered, such as paid vacation leave and sick leave, bonuses, and non-monetary benefits such as medical care), are recognised in the period in which the service is rendered and are not discounted.

The expected cost of compensated absences is recognised as an expense as the employees render services that increase their entitlement or, in the case of non-accumulating absences, when the absence occurs.

The expected cost of surplus sharing and bonus payments is recognised as an expense when there is a legal or constructive obligation to make such payments as a result of past performance.

Post-Retirement Medical Obligation

The Municipality provides post-retirement medical benefits by subsidizing the medical aid contributions of certain retired staff according to the rules of the medical aid funds.

Council pays 70% of the contribution and the remaining 30% is paid by the members. The entitlement to these benefits is usually conditional on the employee remaining in service up to retirement age and the completion of a minimum service period. The present value of the defined benefit liability is actuarially determined in accordance with GRAP 25 – Employee benefits (using a discount rate applicable to high quality government bonds). The plan is unfunded.

These contributions are charged to the Statement of Financial Performance when employees have rendered the service entitling them to the contribution. The liability was calculated by means of the projected unit credit actuarial valuation method. The liability in respect of current pensioners is regarded as fully accrued, and is therefore not split between a past (or accrued) and future in-service element. The liability is recognised at the fair value of the obligation. Payments made by the municipality are set-off against the liability, including notional interest, resulting from the valuation by the actuaries and are charged against the Statement of Financial Performance as employee benefits upon valuation.

Actuarial gains and losses arising from the experience adjustments and changes in actuarial assumptions, is charged or credited

Molemole Municipality

(Registration number LIM353)

Financial Statements for the year ended 30 June 2023

to the Statement of Financial Performance in the period that it occurs. These obligations are valued periodically by independent qualified actuaries.

Long Service Awards

Long service awards are provided to employees who achieve certain pre-determined milestones of service within the municipality. The municipality's obligation under these plans is valued by independent qualified actuaries periodically and the corresponding liability is raised. Payments are set-off against the liability, including notional interest, resulting from the valuation by the actuaries and are charged against the Statement of Financial Performance as employee benefits upon valuation. Defined benefit plans are post-employment plans other than defined contribution plans.

Actuarial gains and losses arising from the experience adjustments and changes in actuarial assumptions, is charged or credited to the Statement of Financial Performance in the period that it occurs. These obligations are valued periodically by independent qualified actuaries.

Provision for Staff Leave

Liabilities for annual leave are recognised as they accrue to employees. The liability is based on the total amount of leave days due to employees at year end and also on the total remuneration package of the relevant employee. Accumulated leave is carried forward and can be used in future periods if the current employee's period's entitlement is not used in full. An employee's accumulated leave cannot exceed 48 days. Any days in excess thereof is forfeited. All unused leave will be paid out to the specific employee at the end of that employee's employment term. Accumulated leave is vesting.

Staff Bonuses Accrued

Liabilities for staff bonuses are recognised as they accrue to employees. The liability at year end is based on the bonus accrued at year end for each employee.

Provision for Performance Bonuses

A provision, in respect of the liability relating to the anticipated costs of performance bonuses payable to Section 57 employees, contract workers and other senior managers, is recognised as it accrues. The performance bonus provisions are based on the employment contract stipulations as well as previous performance bonus payment trends. This bonus is not guaranteed.

1.14 Provisions and contingencies

Provisions are recognised when:

- the municipality has a present obligation as a result of a past event;
- it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation; and
- a reliable estimate can be made of the obligation.

The amount of a provision is the best estimate of the expenditure expected to be required to settle the present obligation at the reporting date.

Where the effect of time value of money is material, the amount of a provision is the present value of the expenditures expected to be required to settle the obligation.

The discount rate is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement is recognised when, and only when, it is virtually certain that reimbursement will be received if the municipality settles the obligation. The reimbursement is treated as a separate asset. The amount recognised for the reimbursement does not exceed the amount of the provision.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. Provisions are reversed if it is no longer probable that an outflow of resources embodying economic benefits or service potential will be required, to settle the

obligation.

Where discounting is used, the carrying amount of a provision increases in each period to reflect the passage of time. This increase is recognised as an interest expense.

A provision is used only for expenditures for which the provision was originally recognised. Provisions are not recognised for future operating deficits.

Molemole Municipality

(Registration number LIM353)

Financial Statements for the year ended 30 June 2023

If an entity has a contract that is onerous, the present obligation (net of recoveries) under the contract is recognised and measured as a provision.

A constructive obligation to restructure arises only when an entity:

- has a detailed formal plan for the restructuring, identifying at least:
 - the activity/operating unit or part of an activity/operating unit concerned;
 - the principal locations affected;
 - the location, function, and approximate number of employees who will be compensated for services being terminated;
 - the expenditures that will be undertaken; and
 - when the plan will be implemented; and
- has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement that plan or announcing its main features to those affected by it.

A restructuring provision includes only the direct expenditures arising from the restructuring, which are those that are both:

- necessarily entailed by the restructuring; and
- not associated with the ongoing activities of the municipality

No obligation arises as a consequence of the sale or transfer of an operation until the municipality is committed to the sale or transfer, that is, there is a binding arrangement.

After their initial recognition contingent liabilities recognised in entity combinations that are recognised separately are subsequently measured at the higher of:

- the amount that would be recognised as a provision; and
- the amount initially recognised less cumulative amortisation.

Contingent assets and contingent liabilities are not recognised. Contingencies are disclosed in note 55.

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument.

Loan commitment is a firm commitment to provide credit under pre-specified terms and conditions.

The municipality recognises a provision for financial guarantees and loan commitments when it is probable that an outflow of resources embodying economic benefits and service potential will be required to settle the obligation and a reliable estimate of the obligation can be made.

Determining whether an outflow of resources is probable in relation to financial guarantees requires judgement. Indications that an outflow of resources may be probable are:

- financial difficulty of the debtor;
- defaults or delinquencies in interest and capital repayments by the debtor;
- breaches of the terms of the debt instrument that result in it being payable earlier than the agreed term and the ability of the debtor to settle its obligation on the amended terms; and
- a decline in prevailing economic circumstances (e.g. high interest rates, inflation and unemployment) that impact on the ability of entities to repay their obligations.

Where a fee is received by the municipality for issuing a financial guarantee and/or where a fee is charged on loan commitments, it is considered in determining the best estimate of the amount required to settle the obligation at reporting date. Where a fee is charged and the municipality considers that an outflow of economic resources is probable, a municipality recognises the obligation at the higher of:

- the amount determined using in the Standard of GRAP on Provisions, Contingent Liabilities and Contingent Assets; and
- the amount of the fee initially recognised less, where appropriate, cumulative amortisation recognised in accordance with the Standard of GRAP on Revenue from Exchange Transactions.

1.15 Revenue from exchange transactions

Revenue is the gross inflow of economic benefits or service potential during the reporting period when those inflows result in an increase in net assets, other than increases relating to contributions from owners. An exchange transaction is one in which the municipality receives assets or services, or has liabilities extinguished, and directly gives approximately equal value (primarily in the form of goods, services or use of assets) to the other party in exchange.

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Measurement

Revenue is measured at the fair value of the consideration received or receivable, net of trade discounts and volume rebates. Sale of goods

Molemole Municipality

(Registration number LIM353)

Financial Statements for the year ended 30 June 2023

Revenue from the sale of goods is recognised when all the following conditions have been satisfied: the municipality has transferred to the purchaser the significant risks and rewards of ownership of the goods; the municipality retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold; the amount of revenue can be measured reliably; it is probable that the economic benefits or service potential associated with the transaction will flow to the municipality; and the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Rendering of services

When the outcome of a transaction involving the rendering of services can be estimated reliably, revenue associated with the transaction is recognised by reference to the stage of completion of the transaction at the reporting date. The outcome of a transaction can be estimated reliably when all the following conditions are satisfied: the amount of revenue can be measured reliably; it is probable that the economic benefits or service potential associated with the transaction will flow to the municipality; the stage of completion of the transaction at the reporting date can be measured reliably; and the costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

When services are performed by an indeterminate number of acts over a specified time frame, revenue is recognised on a straight-line basis over the specified time frame unless there is evidence that some other method better represents the stage of completion. When a specific act is much more significant than any other acts, the recognition of revenue is postponed until the significant act is executed.

When the outcome of the transaction involving the rendering of services cannot be estimated reliably, revenue is recognised only to the extent of the expenses recognised that are recoverable. Service revenue is recognised by reference to the stage of completion of the transaction at the reporting date. Stage of completion is determined by a variety of methods. Depending on the nature of the transaction, the methods may include:

Surveys of work performed;

Services performed to date as a percentage of total services to be performed;

The proportion that costs incurred to date bear to the estimated total costs of the transaction. Only costs that reflect services performed to date are included in costs incurred to date. Only costs that reflect services performed or to be performed are included in the estimated total costs of the transaction.

Interest

Revenue arising from the use by others of entity assets yielding interest, or similar distributions is recognised when:

It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality, and The amount of the revenue can be measured reliably.

Interest is recognised, in surplus or deficit, using the effective interest rate method.

1.16 Revenue from non-exchange transactions

Revenue comprises gross inflows of economic benefits or service potential received and receivable by a municipality, which represents an increase in net assets, other than increases relating to contributions from owners. Conditions on transferred assets are stipulations that specify that the future economic benefits or service potential embodied in the asset is required to be consumed

by the recipient as specified or future economic benefits or service potential must be returned to the transfer or.

Control of an asset arise when the municipality can use or otherwise benefit from the asset in pursuit of its objectives and can exclude or otherwise regulate the access of others to that benefit. Expenses paid through the tax system are amounts that are available to beneficiaries regardless of whether or not they pay taxes.

Fines are economic benefits or service potential received or receivable by entities, as determined by a court or other law enforcement body, as a consequence of the breach of laws or regulations. Non-exchange transactions are transactions that are not exchange transactions. In a non-exchange transaction, a municipality either receives value from another municipality without directly giving approximately equal value in exchange, or gives value to another municipality without directly receiving

approximately equal value in exchange. Restrictions on transferred assets are stipulations that limit or direct the purposes for which a transferred asset may be used, but do not specify that future economic benefits or service potential is required to be returned to the transferor if not deployed as specified.

Stipulations on transferred assets are terms in laws or regulation, or a binding arrangement, imposed upon the use of a transferred asset by entities external to the reporting municipality. Tax expenditures are preferential provisions of the tax law that provide certain taxpayers with concessions that are not available to others. The taxable event is the event that the government, legislature or other authority has determined will be subject to taxation.

Taxes are economic benefits or service potential compulsorily paid or payable to entities, in accordance with laws and or regulations established to provide revenue to government. Taxes do not include fines or other penalties imposed for breaches of the law. Transfers are inflows of future economic benefits or service potential from non-exchange transactions, other than taxes.

Molemole Municipality

(Registration number LIM353)

Financial Statements for the year ended 30 June 2023

Recognition

An inflow of resources from a non-exchange transaction recognised as an asset is recognised as revenue, except to the extent that a liability is also recognised in respect of the same inflow. As the municipality satisfies a present obligation recognised as a liability in respect of an inflow of resources from a non-exchange transaction recognised as an asset, it reduces the carrying amount of the liability recognised and recognises an amount of revenue equal to that reduction.

Measurement

Revenue from a non-exchange transaction is measured at the amount of the increase in net assets recognised by the municipality. When, as a result of a non-exchange transaction, the municipality recognises an asset, it also recognises revenue equivalent to the amount of the asset measured at its fair value as at the date of acquisition, unless it is also required to recognise a liability. Where a liability is required to be recognised it will be measured as the best estimate of the amount required to settle the obligation at the reporting date, and the amount of the increase in net assets, if any, recognised as revenue. When a liability is subsequently reduced, because the taxable event occurs or a condition is satisfied, the amount of the reduction in the liability is recognised as revenue.

Transfers

Apart from Services in kind, which are not recognised, the municipality recognises an asset in respect of transfers when the transferred resources meet the definition of an asset and satisfy the criteria for recognition as an asset. The municipality recognises an asset in respect of transfers when the transferred resources meet the definition of an asset and satisfy the criteria for recognition as an asset. Transferred assets are measured at their fair value as at the date of acquisition.

Fines

Fines are measured at the transaction amount and the related asset as statutory receivable if not received in cash. Assets arising from fines are measured at the best estimate of the inflow of resources to the municipality.

Bequests

Bequests that satisfy the definition of an asset are recognised as assets and revenue when it is probable that the future economic benefits or service potential will flow to the municipality, and the fair value of the assets can be measured reliably.

Gifts and donations, including goods in-kind

Gifts and donations, including goods in kind, are recognised as assets and revenue when it is probable that the future economic benefits or service potential will flow to the municipality and the fair value of the assets can be measured reliably.

Unauthorised, irregular, fruitless and wasteful expenditure

Revenue from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management Act (Act No.56 of 2003) and is when it is probable that the future economic benefits will flow to the municipality and the amount can be measured reliably.

Revenue is measured at the fair value of the consideration received or receivable, net of trade discounts and volume rebates.

Unconditional Grants

Equitable share allocations are recognised on revenue at the start of the financial year. Conditional

Grants

Conditional grants recognised as revenue to the extent that the Municipality has complied with any of the criteria, conditions or obligations embodied in the agreement. Where the agreement contains a stipulation to return the asset, other future economic benefits or service potential, in the event of on-compliance to these stipulations and would be enforced by the transferor, a liability is recognised to the extent that the criteria, conditions or obligations have not been met. Where such requirements are not enforceable, or where past experience has indicated that the transferor has never enforced the requirement to return the transferred asset, other future economic benefits or service potential when breaches have occurred, the stipulation will be considered a restriction and is recognised as revenue.

Interest earned on grants received and invested is treated in accordance with grant conditions. If it is payable to the funder it is recorded as part of the creditor and if it is the Municipality's interest it is recognised as interest earned in the Statement of Financial Performance.

1.17 Cost of sales

When inventories are sold, the carrying amount of those inventories is recognised as an expense in the period in which the related revenue is recognised. The amount of any write-down of inventories to net realisable value and all deficits of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value, is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

The related cost of providing services recognised as revenue in the current period is included in cost of sales. Contract costs comprise:

Molemole Municipality

(Registration number LIM353)

Financial Statements for the year ended 30 June 2023

- costs that relate directly to the specific contract;
- costs that are attributable to contract activity in general and can be allocated to the contract on a systematic and rational basis; and
- such other costs as are specifically chargeable to the customer under the terms of the contract.

1.18 Investment income

Investment income is recognised on a time-proportion basis using the effective interest method.

1.19 Unauthorised expenditure

Unauthorised expenditure means:

- overspending of a vote or a main division within a vote; and
- expenditure not in accordance with the purpose of a vote or, in the case of a main division, not in accordance with the purpose of the main division.

All expenditure relating to unauthorised expenditure is recognised as an expense in the Statement of Financial Performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance. The Unauthorised expenditure is disclosed in a note to the Annual Financial Statements.

1.20 Fruitless and wasteful expenditure

Fruitless expenditure means expenditure which was made in vain and would have been avoided had reasonable care been exercised.

All expenditure relating to fruitless and wasteful expenditure is recognised as an expense in the Statement of Financial Performance in the year that the expenditure was incurred, unless if it is recoverable (i.e. receivable), it will be raised as an asset in the Statement of Financial Position. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

Fruitless and wasteful expenditure will be de-recognised as soon as the nature of the fruitless and wasteful expenditure has been submitted to Council and a formal Council decision has been taken to condone the expenditure. The Fruitless and Wasteful expenditure is disclosed in a note to the Annual Financial Statements.

1.21 Irregular expenditure

Irregular expenditure as defined in section 1 of the PFMA is expenditure other than unauthorised expenditure, incurred in contravention of or that is not in accordance with a requirement of any applicable legislation, including -

- (a) this Act; or
- (b) the State Tender Board Act, 1968 (Act No. 86 of 1968), or any regulations made in terms of the Act; or
- (c) any provincial legislation providing for procurement procedures in that provincial government.

National Treasury practice note no. 4 of 2008/2009 which was issued in terms of sections 76(1) to 76(4) of the PFMA requires the following (effective from 1 April 2008):

Irregular expenditure that was incurred and identified during the current financial year and which was condoned before year end and/or before finalization of the financial statements must also be recorded appropriately in the irregular expenditure register. In such an instance, no further action is also required with the exception of updating the note to the financial statements.

Irregular expenditure that was incurred and identified during the current financial year and for which condonement is being awaited

at year end must be recorded in the irregular expenditure register. No further action is required with the exception of updating the note to the financial statements.

Where irregular expenditure was incurred in the previous financial year and is only condoned in the following financial year, the register and the disclosure note to the financial statements must be updated with the amount condoned.

Irregular expenditure that was incurred and identified during the current financial year and which was not condoned by the National Treasury or the relevant authority must be recorded appropriately in the irregular expenditure register. If liability for the irregular expenditure can be attributed to a person, a debt account must be created if such a person is liable in law. Immediate steps must thereafter be taken to recover the amount from the person concerned. If recovery is not possible, the accounting officer or accounting authority may write off the amount as debt impairment and disclose such in the relevant note to the financial statements. The irregular expenditure register must also be updated accordingly. If the irregular expenditure has not been condoned and no person is liable in law, the expenditure related thereto must remain against the relevant programme/expenditure item, be disclosed as such in the note to the financial statements and updated accordingly in the irregular expenditure register.

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), and the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the economic entity's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance. The Irregular expenditure is disclosed in a note to the Annual Financial

Molemole Municipality

Financial Statements for the year ended 30 June 2023

Statements.

1.22 Segmental information

The mandate of the municipality is to provide basic services to the community over which it governs. In order to properly execute its mandate and achieve its strategic goals, internal management reporting is based on each service objective and also considered separately for each of the towns within the municipal jurisdiction. The components described below have been identified as individual significant segments for purposes of reporting in terms of GRAP 18 (Segment Reporting).

the following services are considered significant to the municipality and is accordingly managed separately

- Governance and administration
- Community and public safety
- Economic and environmental services
- Trading services

Reportable segments are the actual segments which are reported on in the segment report. They are the segments identified above or alternatively aggregation of two or more of those segments where the aggregation criteria are met.

Measurement

The amount of each segment item reported is the measure reported to management for the purpose of making decisions about allocating resources to the segment and assessing its performance. Adjustments and eliminations made in preparing the entity's financial statements and allocations of revenue and expenses are included in determining reported segment surplus or deficit only if they are included in the measure of segment's surplus or deficit that is used by management. Similarly, only those assets and liabilities that are included in the measures of the segments assets and segments liabilities that are used by management are reported for that segment. If amounts are allocated to reported segment surplus or deficit, assets or liabilities those amounts are allocated on a reasonable basis.

If management uses only one measure of segments surplus or deficit the segments assets or the segments liabilities in assessing segment performance and deciding how to allocate resources, segment surplus or deficit, assets and liabilities are reported in terms of that measure. If management uses more than one measure of a segment's surplus or deficit the segments assets or segments liabilities, the reported measures are those that management believes are determined in accordance with the measurement principles most consistent with those used in measuring the corresponding amounts in the entity's financial statements.

1.23 Budget information

Municipality are typically subject to budgetary limits in the form of appropriations or budget Authorisations (or equivalent), which is given effect through authorizing legislation, appropriation or similar.

General purpose financial reporting by municipality shall provide information on whether resources were obtained and used in accordance with the legally adopted budget.

The approved budget is prepared on an accrual basis and presented by economic classification linked to performance outcome objectives.

The approved budget covers the fiscal period from 2022/07/01 to 2023/06/30.

The budget for the economic entity includes all the entities approved budgets under its control.

The financial statements and the budget are on the same basis of accounting therefore a comparison with the budgeted amounts for the reporting period have been included in the Statement of comparison of budget and actual amounts

Explanations for material differences 5% between the final budget amounts and actual amounts are included in the notes to annual financial statements.

1.24 Related parties

A related party is a person or an entity with the ability to control or jointly control the other party, or exercise significant influence over the other party, or vice versa, or an entity that is subject to common control, or joint control. Control is the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities

Joint control is the agreed sharing of control over an activity by a binding arrangement, and exists only when the strategic financial and operating decisions relating to the activity require the unanimous consent of the parties sharing control (the venturers).

Related party transaction is a transfer of resources, services or obligations between the reporting entity and a related party, regardless of whether a price is charged.

Significant influence is the power to participate in the financial and operating policy decisions of an entity, but is not control over those policies.

Management are those persons responsible for planning, directing and controlling the activities of the municipality, including

Molemole Municipality

(Registration number LIM353)

Financial Statements for the year ended 30 June 2023

those charged with the governance of the municipality in accordance with legislation, in instances where they are required to perform such functions.

Close members of the family of a person are considered to be those family members who may be expected to influence, or be influenced by, that management in their dealings with the municipality.

The municipality is exempt from disclosure requirements in relation to related party transactions if that transaction occurs within normal supplier and/or client/recipient relationships on terms and conditions no more or less favourable than those which it is reasonable to expect the municipality to have adopted if dealing with that individual entity or person in the same circumstances and terms and conditions are within the normal operating parameters established by that reporting entity's legal mandate

Where the municipality is exempt from the disclosures in accordance with the above, the municipality discloses narrative information about the nature of the transactions and the related outstanding balances, to enable users of the entity's financial statements to understand the effect of related party transactions on its annual financial statements.

1.25 Retirement Benefits

The municipality provides retirement benefits for its employees and Councillors. The contributions to fund obligations for the payment of retirement benefits are charged against revenue in the year they become payable. The defined benefit funds, which are administered on a provincial basis, are actuarially valued triennially on the projected unit credit method basis. Deficits identified are recognised as a liability and are recovered through lump sum payments or increased future contributions on a proportional basis to all participating municipalities.

1.26 Impairment of Assets

The municipality assesses at each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, the municipality estimates the recoverable service amount of the asset.

Irrespective of whether there is any indication of impairment, the municipality also:

- tests intangible assets with an indefinite useful life or intangible assets not yet available for use for impairment annually by comparing their carrying amount with their recoverable amount. This impairment test is performed during the annual period and at the same time every period.

If there is any indication that an asset may be impaired, the recoverable service amount is estimated for the individual asset. If it is not possible to estimate the recoverable service amount of the individual asset, the recoverable service amount of the cash-generating unit to which the asset belongs is determined.

The recoverable service amount of an asset or a cash-generating unit is the higher of its fair value less costs to sell and its value in use.

If the recoverable service amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable service amount. That reduction is an impairment loss.

An impairment loss of assets carried at cost less any accumulated depreciation or amortisation is recognised immediately in surplus or deficit. Any impairment loss of a revalued asset is treated as a revaluation decrease.

An impairment loss is recognised for cash-generating units if the recoverable service amount of the unit is less than the carrying amount of the unit. The impairment loss is allocated to reduce the carrying amount of the assets of the unit as follows:

- to the assets of the unit, pro rata on the basis of the carrying amount of each asset in the unit.

A municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets may no longer exist or may have decreased. If any such indication exists, the recoverable service amounts of those assets are estimated.

The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation is recognised immediately in surplus or deficit. Any reversal of an impairment loss of a revalued asset is treated as a revaluation increase.

1.27 Impairment of non-cash-generating assets

Non-cash-generating assets are assets other than cash-generating assets.

Impairment is a loss in the future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential through depreciation (amortisation).

Carrying amount is the amount at which an asset is recognised in the statement of financial position after deducting any accumulated depreciation and accumulated impairment losses thereon.

Costs of disposal are incremental costs directly attributable to the disposal of an asset, excluding finance costs and income tax expense.

Depreciation (Amortisation) is the systematic allocation of the depreciable amount of an asset over its useful life.

Fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

Molemole Municipality

(Registration number LIM353)

Financial Statements for the year ended 30 June 2023

Recoverable service amount is the higher of a non-cash-generating asset's fair value less costs to sell and its value in use. Useful life is either:

- (a) the period of time over which an asset is expected to be used by the municipality; or
- (b) the number of production or similar units expected to be obtained from the asset by the municipality.

Identification

The municipality assesses at each reporting date whether there is any indication that a non-cash-generating asset may be impaired. If any such indication exists, the municipality estimates the recoverable service amount of the asset.

Value in use

Value in use of non-cash-generating assets is the present value of the non-cash-generating assets remaining service potential.

The present value of the remaining service potential of a non-cash-generating assets is determined using the following approach:

Depreciated replacement cost approach

The present value of the remaining service potential of a non-cash-generating asset is determined as the depreciated replacement cost of the asset. The replacement cost of an asset is the cost to replace the asset's gross service potential. This cost is depreciated to reflect the asset in its used condition. An asset may be replaced either through reproduction (replication) of the existing asset or through replacement of its gross service potential. The depreciated replacement cost is measured as the reproduction or replacement cost of the asset, whichever is lower, less accumulated depreciation calculated on the basis of such cost, to reflect the already consumed or expired service potential of the asset.

The replacement cost and reproduction cost of an asset is determined on an "optimized" basis. The rationale is that the municipality would not replace or reproduce the asset with a like asset if the asset to be replaced or reproduced is an overdesigned or overcapacity asset. Overdesigned assets contain features which are unnecessary for the goods or services the asset provides. Overcapacity assets are assets that have a greater capacity than is necessary to meet the demand for goods or services the asset provides. The determination of the replacement cost or reproduction cost of an asset on an optimized basis thus reflects the service potential required of the asset.

Recognition and measurement

If the recoverable service amount of a non-cash-generating asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable service amount. This reduction is an impairment loss.

An impairment loss is recognised immediately in surplus or deficit.

Any impairment loss of a revalued non-cash-generating asset is treated as a revaluation decrease.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the non-cash-generating asset is adjusted in future periods to allocate the non-cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

Reversal of an impairment loss

The municipality assess at each reporting date whether there is any indication that an impairment loss recognised in prior periods for a non-cash-generating asset may no longer exist or may have decreased. If any such indication exists, the municipality estimates the recoverable service amount of that asset.

An impairment loss recognised in prior periods for a non-cash-generating asset is reversed if there has been a change in the estimates used to determine the asset's recoverable service amount since the last impairment loss was recognised. The carrying amount of the asset is increased to its recoverable service amount. The increase is a reversal of an impairment loss. The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss for a non-cash-generating asset is recognised immediately in surplus or deficit.

After a reversal of an impairment loss is recognised, the depreciation (amortisation) charge for the non-cash-generating asset is adjusted in future periods to allocate the non-cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

1.28 Commitments

Items are classified as commitments when an entity has committed itself to future transactions that will normally result in the outflow of cash.

Commitments are not recognised in the statement of financial position as a liability but are included in the disclosure notes.

Disclosures are required in respect of unrecognized contractual commitments.

Commitments for which disclosure is necessary to achieve a fair presentation should be disclosed in a note to the financial statements, if both the following criteria are met:

- Contracts should be non-cancellable or only cancellable at significant cost (for example, contracts for computer or building maintenance services); and

Molemole Municipality

(Registration number LIM353)

Financial Statements for the year ended 30 June 2023

- Contracts should relate to something other than the routine, steady, state business of the entity – therefore salary commitments relating to employment contracts or social security benefit commitments are excluded.

Commitments are disclosed inclusive of vat

1.29 Value Added Tax

Vat is accounted for on an accrual basis and registered for on cash basis

1.30 Commission expense

Commission expense is accounted for on an accrual basis.

1.31 Distribution loss

Distribution losses are losses that result from differences between purchases and consumption's both billed and estimated.

1.32 Statutory receivables

Identification

Statutory receivables are receivables that arise from legislation, supporting regulations, or similar means, and require settlement by another entity in cash or another financial asset.

Recognition

The municipality recognises statutory receivables as follows:

- if the transaction is a non-exchange transaction, using the policy on Revenue from non-exchange transactions (Taxes and transfers);

Initial measurement

The municipality initially measures statutory receivables at their transaction amount.

Subsequent measurement

The municipality measures statutory receivables after initial recognition using the cost method. Under the cost method, the initial measurement of the receivable is changed subsequent to initial recognition to reflect any:

- impairment losses; and
- amounts derecognized.

1.33 Accounting by principals and agents

Identification

An agent is an entity that has been directed by another entity (a principal), through a binding arrangement, to undertake transactions with third parties on behalf of the principal and for the benefit of the principal.

A principal is an entity that directs another entity (an agent), through a binding arrangement, to undertake transactions with third parties on its behalf and for its own benefit.

A principal-agent arrangement results from a binding arrangement in which one entity (an agent), undertakes transactions with third parties on behalf, and for the benefit of, another entity (the principal).

Identifying whether an entity is a principal or an agent

When the municipality is party to a principal-agent arrangement, it assesses whether it is the principal or the agent in accounting for revenue, expenses, assets and/or liabilities that result from transactions with third parties undertaken in terms of the arrangement.

The assessment of whether a municipality is a principal or an agent requires the municipality to assess whether the transactions it undertakes with third parties are for the benefit of another entity or for its own benefit.

The municipality assesses whether it is an agent or a principal by assessing the rights and obligations of the various parties established in the binding arrangement.

Where the terms of a binding arrangement are modified, the parties to the arrangement re-assess whether they act as a principal or an agent.

Recognition

The municipality, as an agent, recognises only that portion of the revenue and expenses it receives or incurs in executing the transactions on behalf of the principal in accordance with the requirements of the relevant Standards of GRAP.

The municipality recognises assets and liabilities arising from principal-agent arrangements in accordance with the requirements of the relevant Standards of GRAP.

Statutory Receivables included in receivables from Non - Exchange transactions are as follows:	2023	2022
Property Rates	62 695 962	56 759 474

Local Government: Municipal Property Rates Act no 6 of 2004 provides the municipality with power to levy rates. Section 2 subsection 1 of the Act states that a metropolitan or local municipality must exercise its power to levy a rate on property subject to -(a) section 229 and any other applicable provision of the Constitution: (b) the provision of this Act; and (c) the rates policy it must adopt in terms of section 3. The amounts are being determined through the calculations of the rates amounts by using the council approved tariff rate multiply by the municipal approved general /supplementary valuation roll figures. Interest is being charged at 10 % of the outstanding previous billed amount. Statutory receivables impaired is being conducted based on the number of payments made by customer and the long outstanding amounts which are 90 days plus. Methodology used:

1. Debtors Payments behaviour/patterns. No (0) payment made in the previous six months-100% Provision for outstanding balance which are more than 90 days.
2. Debtors Payments behaviour/patterns. One (1) payment made in the previous six months-98% Provision for outstanding balance which are more than 90 days.
3. Debtors Payments behaviour/patterns. Two (2) payments made in the previous six months-97% Provision for outstanding balance which are more than 90 days.

Notes to the Financial Statements

Statutory Receivables included in receivables from NonExchange transactions are as follows:

	2023	2022
Traffic Fines	1 200 807	1 257 259

Section 3 of National Road Traffic Act 93 of 1996 provide the municipality with an authority to appoint a traffic officer for inspection of licenses, examining of vehicles, examiner for driving licenses. Criminal Procedure Act 51 1977 section 334 states that the Minister may declare by notice in the person's peace officers for specific purposes (1) (a) The Minister may by notice in the Gazette declare that any person who by virtue of his office ,falls within any category defined in the notice shall within an area specified in the notice ,be a peace officer for the purpose of exercising with reference to any provision of this Act or any offence or any class of offences likewise specified the powers defined in the notice. The municipality appoints traffic officers as per Section 3 of the National Road Traffic Act 93 of 1996 which in turn an inspection of licenses and road laws and regulations will be conducted and any offender will be charged if not incompliant with the legislated laws and regulations and a fine will be determined and realised as revenue /debtor. The impairment is conducted based on historical collections of the outstanding amounts

Methodology used:

Year one (1) collection percentage

Year two (2) collection percentage Year

tree (3) collection percentage

Collection percentages for the three financial years will be consolidated and divided by three (3) which is the total number of years to obtain a reasonable collection percentage.

The reasonable remaining balance will be multiplied by the total remaining percentage after the consideration/deduction of the aggregated collected rate. (100% less the reasonable collectable calculated percentage) to obtain the total impairment/provision for doubtful debt amount

	3 096 365 412	2 998 307 000

Valuations on land and buildings are performed every 5 years unless the extension has been approved by the MEC as per Section 81 of the Municipal Property Rates Act no 6 of 2004. The last general valuation came into effect on 1 July 2017 and lapsed on 30 June 2022. The MEC approved the extension for an additional 12 months effective from 1 July 2022.

Interim valuations are processed on an annual basis to take into account changes in individual property values due to alterations and subdivisions.

Notes to the Financial Statements

Figures in Rand

2023

2022

44.26 Total Non-Current Liability
Budget Variances above 5%
Budget was exceeded due to revaluation for the rehabilitation cost that was way higher than expected.

44.27 Revaluation Reserve
Budget Variances above 5%
No Material Variance

44.28 Accumulated Surplus
Budget Variances below 5%
No Material Variance

Cash Flow Statement

44.29 Net Cash used from operating
Budget Variances above 5%
The municipality did not meet the target due to low revenue

44.30 Net Cash used from Investing
Budget Variances above 5%
The municipality lost on transfer of asset to Eskom, hence the actual additions decreased.

45. Segment information

General Information

Identification of Segments

For management purposes, the municipality is organized and operates in four key functional segments (or business units). To this end management monitors the operating results of these segments for the purpose of making decisions about resources allocations and assessment of performance. Revenues and expenditure relating to these business units are allocated at a transactional level. Cost relating to the governance and administration of the municipality are not allocated to these functional segments.

The grouping of these segments is consistent with the functional classification of governments activities which considers the nature of the services, the beneficiaries of such services and the fees charged for the services rendered.

The municipality operates in the Limpopo Province.

Types of goods and /or services by segment.

These reportable segments as well as the goods and /or service for each segment are set out below

Reportable Segment	Goods and or/services
Governance and administration Internal audit	Executive and Council, Finance and administration and
Community and Public Safety and Public Safety	Community and social services, Sport and recreation
Economic and environmental services Environmental protection	Planning and development, Road transport and
Trading Services management and Waste Management	Energy sources, Water Management, Waste water

For more information, see supplementary schedule 2 attached

56. Change in estimate

Property, plant and equipment

The useful life of infrastructure & other asset classes was adjusted during 2022/2023 to more accurately reflect the period of economic benefits or service potential derived from these assets. Refer to note 4. The effect of changing the remaining useful life of assets for the Municipality during 2022/2023 has been treated retrospectively as an error. Prior period error change amounts to R696 831.20 and increase the future periods by R791 020.90

59. Risk management

Liquidity risk

The risk that the Municipality may encounter difficulties in raising sufficient funds in meeting its obligations and commitments that are due and payable within 12 months. Availability of adequate resources to meet the Municipality's obligations in the needs of its capital and operating expenditure, creditors at large including employees is critical for the Municipality to continue as a going concern of which cannot be compromised. The Municipality manages liquidity risk through proper management of working capital, capital expenditure and monitoring of actual versus forecast cash flows.

The municipality's risk to liquidity is a result of the funds available to cover future commitments. The municipality manages liquidity risk through an ongoing review of future commitments and credit facilities.

The table below analyses the municipality's financial liabilities and net-settled derivative financial liabilities into relevant maturity groupings based on the remaining period at the statement of financial position to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

At 30 June 2023	Less than 1 year	Between 1 and 2 years	Between 2 and 5 years	Over 5 years
Trade and other payables	19 421 871	-	-	-

Credit risk

Credit risk is the risk that a counter party to a financial or non-financial asset will fail to discharge an obligation and cause the municipality to incur a financial loss. Credit risk consist mainly of cash deposits, cash equivalents, trade and other receivables and unpaid conditional grants and subsidies. Receivables are disclosed net after provisions are made for impairment and bad debts. Trade debtors comprise of a large number of ratepayers, dispersed across different sectors and geographical areas. Ongoing credit evaluations are performed on the financial condition of these debtors.

Credit risk pertaining to trade and other debtors is considered to be moderate due the diversified nature of debtors and immaterial nature of individual balances. In the case of consumer debtors, the municipality effectively has the right to terminate services to customers but in practice this is difficult to apply. In the case of debtors whose accounts become in arrears, Council endeavours to collect such accounts by "levying of penalty charges", "demand for payment", "restriction of services" and, as a last resort, "handed over for collection", whichever procedure is applicable in terms of Council's Credit Control and Debt Collection Policy.

The credit quality of receivables is further assessed by grouping individual debtors into different categories with similar risk profiles. The categories include the following: Bad Debt, Deceased, Good payers, Slow Payers, Government Departments, Debtors with Arrangements, Indigents, Municipal Workers, Handed over to Attorneys and Untraceable account. These categories are then impaired on a group basis based on the risk profile/credit quality associated with the group.

Balances past due not impaired:

Non-Exchange Receivables

Refuse	81	18 763 964	80	16 612 601
Other	4	934 999	4	832 855
	100%	23 110 417	100%	20 742 495

No receivables are pledged as security for financial liabilities.

Due to the short term nature of trade and other receivables the carrying value disclosed in note 9 & 10 of the financial statements is an approximation of its fair value. Interest on overdue balances (rates) are included at 10% where applicable.

The provision for bad debts could be allocated between the different classes of debtors as follows:

Non-Exchange Receivables

	2023 Percentage	2023 Amount	2022 Percentage	2022 Amount
Rates	100%	27 822 667	100%	27 059 934
	100%	27 822 667	100%	27 059 934

Exchange Receivables

	2023 Percentage	2023 Amount	2022 Percentage	2022 Amount
Electricity	15	2 619 283	16	2 773 354
Refuse	81	14 406 799	80	13 973 939
Other	4	717 883	4	700 569
	100%	17 743 965	100%	17 447 862

The municipality only deposits cash with major banks with high quality credit standing. No cash and cash equivalents were pledged as security for financial liabilities and no restrictions were placed on the use of any cash and cash equivalents for the period under review. Although the credit risk pertaining to cash and cash equivalents are considered to be low, the maximum exposure is disclosed below.

Molemole Municipality

(Registration number LIM353)

Financial Statements for the year ended 30 June 2023

Notes to the Financial Statements

Figures in Rand

2023

2022

The entity only enters into non-current investment transactions with major banks with high quality credit standing. Although the credit risk pertaining to non-current investments are considered to be low, the maximum exposure is disclosed below.

The banks utilised by the municipality for current and non-current investments are all listed on the JSE (NEDBANK). The credit quality of these institutions are evaluated based on their required SENS releases as well as other media reports. Based on all public communications, the financial sustainability is evaluated to be of high quality and the credit risk pertaining to these institutions are considered to be low.

The risk pertaining to unpaid conditional grants and subsidies are considered to be very low. Amounts are receivable from national and provincial government and there is no expectation of counter party default.

Interest rate risk

The Municipality is not exposed to Interest rate risk as it does not have interest bearing liabilities.

Foreign exchange risk

The municipality does not engage in foreign currency transactions.

Price risk

The municipality is not exposed to price risk

60. Going concern

The financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

We draw attention to the fact that at 30 June 2023, the municipality had an accumulated deficit of 426 876 633 and that the municipality's total assets exceed its liabilities by 474 610 498

The ability of the municipality to continue as a going concern is dependent on a number of factors. The following factors support going concern assumption:

- There is no intention to cease operation and municipal budget for MTERF period is support this
- The municipality has a healthy solvency and liquidity ration
- The municipality continue to achieve net surplus for 2023 and 2022 financial year
- There are no material commitments or litigation at balance sheet that threatens the going concern assumption

61. Events after reporting date

There are no material event after the reporting date which requires disclosures.

62. Unauthorised expenditure

Add: Expenditure identified - current	11 075 924	6 419 694
Less: Approved/condoned/authorized by council	(11 075 924)	(6 419 694)
Closing balance	-	-

The municipality received the INEP grant in the 2021/2022 financial year to electrify the Maponto village. In the 2021/22 financial year the project was not completed and it was sitting under work in progress at year end. The municipality completed the project in the 2022/2023 financial year. The municipality needs to transfer the assets to Eskom since the municipality does not have a license to sell electricity in the Maponto area. However, the municipality did not have sufficient R8 634 348 operational budget to cater for the transfer. The municipality appointed an expert with regard to revaluation of the rehabilitation costs for the landfill site for the purpose of preparation of the 2022/23 Annual financial statements. As a result, the value of the provision increased in the 2022-23 as compared to the 2021-22 report. This also resulted in the increase of the interest in landfill site to R2 441 576.00.

**REPORT OF THE AUDITOR-GENERAL TO THE LIMPOPO PROVINCIAL LEGISLATION AND COUNCIL ON
MOLEMOLE LOCAL MUNICIPALITY**

**REPORT ON THE AUDIT OF THE 2022/23 FINANCIAL
STATEMENTS AND ANNUAL PERFORMANCE REPORT**

OPINION

1. I have audited the financial statements of Molemole Local Municipality set out on pages ... to ... , which comprise the statement of financial position as at 30 June 2023, statement of financial performance, statement of changes in net assets, cash flow statement, statement of comparison of budget information with actual information for the year then ended, as well as notes to the financial statements, including a summary of significant accounting policies.
2. In my opinion, the financial statements present fairly, in all material respects, the financial position of Molemole Local Municipality as at 30 June 2023 and its financial performance and cash flows for the year then ended in accordance with Standards of Generally Recognised Accounting Practice (Standards of GRAP) and the requirements of the Municipal Finance Management Act 56 of 2003 (MFMA) and Division of Revenue Act 5 of 2022 (DoRA)

BASIS FOR OPINION

3. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the responsibilities of the auditor-general for the audit of the financial statements section of my report.
4. I am independent of the municipality in accordance with the International Ethics Standards Board for Accountants' *International code of ethics for professional accountants (including International Independence Standards)* (IESBA code) as well as other ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.
5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

EMPHASIS OF MATTERS

6. I draw attention to the matters below. My opinion is not modified in respect of these matters.

SIGNIFICANT UNCERTAINTY

7. With reference to note 55 of the financial statements, the municipality is the defendant in a land claim amounting to R2 500 000. The municipality is opposing the claim. The ultimate outcome of the matter cannot presently be determined and no provision for any liability that may result has been made in the financial statements.

MATERIAL LOSSES

8. As disclosed in note 66 to the financial statements, material electricity losses of R2 707 847 (2022: R3 596 299) were incurred, which represents 22% (2022: 30%) of total electricity purchased.

MATERIAL IMPAIRMENTS

9. As disclosed in note 37 to the financial statements, material impairment of R2 384 839 was incurred as a result of providing for doubtful debts.

OTHER MATTER

10. I draw attention to the matter below. My opinion is not modified in respect of this matters.

UNAUDITED SUPPLEMENTARY SCHEDULE

11. The supplementary information set out on pages ... to ... does not form part of the financial statements and is presented as additional information. I have not audited these schedules and, accordingly, I do not express an opinion on them.

UNAUDITED DISCLOSURE NOTES

12. In terms of section 125(2)(e) of the MFMA, the non-compliance with the MFMA should be disclosed in the financial statements. These disclosure requirements did not form part of the audit of the financial statements and, accordingly, I do not express an opinion on it.

RESPONSIBILITIES OF THE ACCOUNTING OFFICER FOR THE FINANCIAL STATEMENTS

13. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with the Standards of GRAP and the requirements of the MFMA and DoRA; and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.
14. In preparing the financial statements, the accounting officer is responsible for assessing the municipality's ability to continue as a going concern; disclosing, as applicable, matters relating to going concern; and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the municipality or to cease operations, or has no realistic alternative but to do so.

RESPONSIBILITIES OF THE AUDITOR-GENERAL FOR THE AUDIT OF THE FINANCIAL STATEMENTS

15. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error; and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Molemole Municipality
(Registration number LIM353)

Financial Statements for the year ended 30 June 2023

16. A further description of my responsibilities for the audit of the financial statements is included in the annexure to this auditor's report.

REPORT ON THE AUDIT OF THE ANNUAL PERFORMANCE REPORT

17. In accordance with the Public Audit Act 25 of 2004 (PAA) and the general notice issued in terms thereof, I must audit and report on the usefulness and reliability of the reported performance against predetermined objectives for the selected key performance areas presented in the annual performance report. The accounting officer is responsible for the preparation of the annual performance report.

18. I selected the following key performance areas presented in the annual performance report for the year ended 30 June 2023 for auditing. I selected key performance areas that measures the municipality's performance on its primary mandated functions and that are of significant national, community or public interest.

Key performance area	Page numbers	Purpose
KPA 1 & 3 - SPATIAL RATIONALE AND LOCAL ECONOMIC DEVELOPMENT.	X - X	To enhance conditions for economic growth and job creation To manage and coordinate spatial planning within the municipality
KPA 2 – BASIC SERVICE DELIVERY	X - X	To provide sustainable basic services and infrastructure development

19. I evaluated the reported performance information for the selected key performance areas against the criteria developed from the performance management and reporting framework, as defined in the general notice. When an annual performance report is prepared using these criteria, it provides useful and reliable information and insights to users on the municipality's planning and delivery on its mandate and objectives.

20. I performed procedures to test whether:

- the indicators used for planning and reporting on performance can be linked directly to the municipality's mandate and the achievement of its planned objectives.
- the indicators are well defined to ensure that they are easy to understand and can be applied consistently, as well as verifiable so that I can confirm the methods and processes to be used for measuring achievements.
- the targets can be linked directly to the achievement of the indicators and are specific, time bound and measurable to ensure that it is easy to understand what should be delivered and by when, the required level of performance as well as how performance will be evaluated.

Molemole Municipality

(Registration number LIM353)

Financial Statements for the year ended 30 June 2023

- the indicators and targets reported on in the annual performance report are the same as those committed to in the approved initial or revised planning documents.
 - the reported performance information is presented in the annual performance report in the prescribed manner.
 - there is adequate supporting evidence for the achievements reported and for the measures taken to improve performance.
21. I performed the procedures for the purpose of reporting material findings only; and not to express an assurance opinion or conclusion.
22. I did not identify any material findings on the reported performance information for the key performance area.

OTHER MATTERS

23. I draw attention to the matters below.

ACHIEVEMENT OF PLANNED TARGETS

24. The annual performance report includes information on reported achievements against planned targets and provides measures taken to improve performance. This information should be considered in the context of the material findings on the reported performance information.

MATERIAL MISSTATEMENTS

25. We identified material misstatements in the annual performance report submitted for auditing. These material misstatements were in the reported performance information of spatial rationale and local economic development. Management subsequently corrected all the misstatements and I did not include any material findings in this report.

REPORT ON COMPLIANCE WITH LEGISLATION

26. In accordance with the PAA and the general notice issued in terms thereof, I must audit and report on compliance with applicable legislation relating to financial matters, financial management and other related matters. The accounting officer is responsible for the municipality's compliance with legislation.
27. I performed procedures to test compliance with selected requirements in key legislation in accordance with the findings engagement methodology of the Auditor-General of South Africa (AGSA). This engagement is not an assurance engagement. Accordingly, I do not express an assurance opinion or conclusion.
28. Through an established AGSA process, I selected requirements in key legislation for compliance testing that are relevant to the financial and performance management of the municipality, clear to allow consistent measurement and evaluation, while also sufficiently detailed and readily available to report in an understandable manner. The selected legislative requirements are included in the annexure to this auditor's report.

Molemole Municipality

(Registration number LIM353)

Financial Statements for the year ended 30 June 2023

29. The material findings on compliance with the selected legislative requirements, presented per compliance theme, are as follows:

ANNUAL FINANCIAL STATEMENTS, PERFORMANCE REPORT AND ANNUAL REPORT

30. The financial statements submitted for auditing were not prepared in all material respects in accordance with the requirements of section 122(1) of the MFMA.

Material misstatements of cash flow statement and segment information identified by the auditors in the submitted financial statements were subsequently corrected, resulting in the financial statements receiving an unqualified audit opinion.

EXPENDITURE MANAGEMENT

31. Reasonable steps were not taken to prevent unauthorised expenditure amounting to R11 075 924, as disclosed in note 61 to the annual financial statements, in contravention of section 62(1)(d) of the MFMA. The majority of the unauthorised expenditure was caused by the municipality not budgeting for the loss of transfer of assets. Unauthorised expenditure amounting to R8 634 348 was incurred on the electrification of Maponto village.

PROCUREMENT AND CONTRACT MANAGEMENT

32. The invitation to tender for procurement of commodities designated for local content and production, did not stipulate the minimum threshold for local production and content as required by the 2017 preferential procurement regulation 8(2). This non-compliance was identified in the procurement processes for the supply, delivery and installation of culverts bridges.

33. The commodities designated for local content and production, were procured from a supplier who did not submit a declaration on local production and content as required by the 2017 preferential procurement regulation 8(5). This non-compliance was identified in the procurement processes for the supply, delivery and installation of culverts bridges.

34. The commodities designated for local content and production, were procured from a supplier who did not meet the prescribed minimum threshold for local production and content, as required by the 2017 preferential procurement regulation 8(5). This non-compliance was identified in the procurement processes for the supply, delivery and installation of culverts bridges.

STRATEGIC PLANNING AND PERFORMANCE MANAGEMENT

35. The performance management system and related controls were not maintained as it did not describe how the performance measurement, review and reporting processes should be conducted and managed, as required by municipal planning and performance management regulation 7(1).

OTHER INFORMATION IN THE ANNUAL REPORT

36. The accounting officer is responsible for the other information included in the annual report which includes the audit committee's report. The other information referred to does not include the financial statements, the auditor's report and those selected key performance areas presented in the annual performance report that have been specifically reported on in this auditor's report.

Molemole Municipality

(Registration number LIM353)

Financial Statements for the year ended 30 June 2023

37. My opinion on the financial statements, the report on the audit of the annual performance report and the report on compliance with legislation do not cover the other information included in the annual report and I do not express an audit opinion or any form of assurance conclusion on it.
38. My responsibility is to read this other information and, in doing so, consider whether it is materially inconsistent with the financial statements and the selected key performance area presented in the annual performance report or my knowledge obtained in the audit, or otherwise appears to be materially misstated.
39. I did not receive the other information prior to the date of this auditor's report. When I do receive and read this information, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and request that the other information be corrected. If the other information is not corrected, I may have to retract this auditor's report and re-issue an amended report as appropriate. However, if it is corrected this will not be necessary.

INTERNAL CONTROL DEFICIENCIES

40. I considered internal control relevant to my audit of the financial statements, annual performance report and compliance with applicable legislation; however, my objective was not to express any form of assurance on it.
41. The matters reported below are limited to the significant internal control deficiencies that resulted in the basis for the opinion and the material findings on compliance with legislation included in this report.
42. Lack of proper record keeping in a timely manner to ensure that complete, relevant, and accurate information is accessible and available to support financial statement and performance reporting.
43. Lack of management oversight in the preparation, monitoring and reporting of performance information.
44. Internal controls for monitoring compliance with laws and regulations are ineffective as they do not detect and prevent instances of non-compliance with applicable laws and regulations.

Auditor-General

Polokwane
30 November 2023

AUDITOR-GENERAL
SOUTH AFRICA

Auditing to build public confidence

4. Annexure to the auditor's report

The annexure includes the following:

Molemole Municipality

(Registration number: IM353)

Financial Statements for the year ended 30 June 2023

- The selected legislative requirements for compliance testing

AUDITOR-GENERAL'S RESPONSIBILITY FOR THE AUDIT

PROFESSIONAL JUDGEMENT AND PROFESSIONAL SCEPTICISM

As part of an audit in accordance with the ISAs, I exercise professional judgement and maintain professional scepticism throughout my audit of the financial statements and the procedures performed on reported performance information for selected key performance areas and on the municipality's compliance with selected requirements in key legislation.

FINANCIAL STATEMENTS

In addition to my responsibility for the audit of the financial statements as described in this auditor's report, I also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks; and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the municipality's internal control
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made
- conclude on the appropriateness of the use of the going concern basis of accounting in the preparation of the financial statements. I also conclude, based on the audit evidence obtained, whether a material uncertainty exists relating to events or conditions that may cast significant doubt on the ability of the municipality to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements about the material uncertainty or, if such disclosures are inadequate, to modify my opinion on the financial statements. My conclusions are based on the information available to me at the date of this auditor's

report. However, future events or conditions may cause a municipality to cease operating as a going concern

- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and determine whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Molemole Municipality

(Registration number: LM353)

COMMUNICATION WITH THOSE CHARGED WITH GOVERNANCE

Financial Statements for the year ended 30 June 2023

I communicate with the accounting officer regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide the accounting officer with a statement that I have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on my independence and, where applicable, actions taken to eliminate threats or safeguards applied.

COMPLIANCE WITH LEGISLATION – SELECTED LEGISLATIVE REQUIREMENTS

The selected legislative requirements are as follows:

Legislation	Sections or regulations
Municipal Finance Management Act 56 of 2003	Section 1 - Paragraph (a), (b) & (d) of the definition: irregular expenditure, Section 1 - Definition: service delivery and budget implementation plan, Sections 11(1), 13(2), 14(1), 14(2)(a), 14(2)(b), 15, 24(2)(c)(iv), 29(1), Sections 29(2)(b), 32(2), 32(2)(a), 32(2)(a)(i), 32(2)(a)(ii), 32(2)(b), Sections 32(6)(a), 32(7), 53(1)(c)(ii), 54(1)(c), 62(1)(d), 62(1)(f)(i), Sections 62(1)(f)(ii), 62(1)(f)(iii), 63(1)(a), 63(2)(a), 63(2)(c), 64(2)(b), Sections 64(2)(c), 64(2)(e), 64(2)(f), 64(2)(g), 65(2)(a), 65(2)(b), 65(2)(e), Sections 72(1)(a)(ii), 112(1)(j), 116(2)(b), 116(2)(c)(ii), 117, 122(1), Sections 122(2), 126(1)(a), 126(1)(b), 127(2), 127(5)(a)(i), 127(5)(a)(ii), Sections 129(1), 129(3), 133(1)(a), 133(1)(c)(i), 133(1)(c)(ii), 170, Sections 171(4)(a), 171(4)(b)
