## 1. BACKGROUND

The SDBIP provides the vital link between the mayor, council (executive) and the administration, and facilitates the process for holding management accountable for its performance (circular 13, 2005). The SDBIP is a management, implementation and monitoring tool that will assist the Mayor, Councillors, Municipal Manager, Senior Managers and the community. The SDBIP should therefore determine (and be consistent with) the performance agreements between the Mayor and the Municipal Manager and the Municipal Manager and Senior Managers determined at the start of every financial year and approved by the Mayor.

Chapter 6 of the Municipal Systems Act, 2000 (Act 32 of 2000) require of all municipalities to develop a performance management system, Monitor and review the performance management system and Set key performance indicators and performance targets. According to MFMA Circular 13 of 2005 the SDBIP is essentially the management and implementation tool which sets in-year information, such as quarterly service delivery and monthly budget targets, and links each service delivery output to the budget of the municipality. Circular 13 enjoins Management to develop a lower layer of the SDBIP which is more detailed than the top layer SDBIP. The lower level SDBIP will be used by the Senior Managers to hold middle-level, junior-level managers responsible for various components of the service delivery plan and targets of the municipality

Chapter 4 of the Local Government: Municipal Staff regulations (2021) a municipality is required to development a performance management system for all employees of the Municipality. The departmental SDBIP will form the basis for the development of performance agreements of all employees, starting with Senior Managers, and the quarterly assessments thereof. The SDBIP must be updated after mid-year review of the both the Municipal Performance and the individual performance.

## 2. PURPOSE

The SDBIP is used to develop the annual performance agreements of all employees and to use such for performance monitoring and evaluation.

### 3. Budgeted Monthly Revenue and Expenditure
